Rearming The Phoenix:

Rearming the Phoenix Andrew James Birtle, 1985 The purpose of this paper is to describe the evolution of the American military assistance program to West Germany from the inception of planning in 1950 to the end of the decade by which time the bulk of U S aid had been delivered The paper will explore the interrelationship of U S diplomatic policy military policy and military assistance planning during the 1950s In doing so it will both illustrate the uses and limitations of military aid to achieve diplomatic and military goals and provide insights into German American relations the development of NATO and the recreation of German armed forces In reviewing the aid programs this study will focus on American planning for the German army This is because the army program was the most important politically and militarily of the three service programs and because it comprised the largest portion of the aid package Introduction Rearming Germany James S. Corum, 2011-04-11 This book is intended to serve as an advanced course text for students studying the Cold War The rearmament of both Germanies in the late 1940s early 1950s was one of the defining moments of the Cold War The question of rearming Germany became one of the most difficult questions faced by the Western Allies after World War II Inside West Germany there was also a considerable debate as to whether Germany ought to rearm at all Once the decision to rearm was made the Germans and Western Allies ran into all the practical problems of deciding whether Germany would join NATO what role the Germans would play in the Alliance how Germany would be armed and the form the armed forces would play in German society A team of expert authors have examined all of these core questions in detail An analysis of the origins of rearmament in East Germany is also provided With this book a reader will gain a thorough understanding of the complex issues that faced the West from 1945-1957 Contributors are Jonathan House Douglas Peifer Martin Rink Daniel Jordan Adam Seipp Thomas Vogel Klaus Naumann Dieter Kollmer and Oliver Haller Rearming the phoenix : American military assistance to the Federal Republic of Germany, 1950-60 Andrew James Birtle, 1987 **From Disarmament to Rearmament** Sheldon A. Goldberg, 2017-10-02 At the end of World War II the Allies were unanimous in their determination to disarm the former aggressor Germany As the Cold War intensified however the decision whether to reverse that policy and to rearm West Germany as a bulwark against the Soviet threat led to disagreements both within the US government and among members of the nascent NATO alliance The US military took the practical view that a substantial number of German troops would be required to deter any potential Soviet assault The State Department on the other hand initially advocated an alternative strategy of strengthening European institutions but eventually came around to the military's position that an armed West Germany was preferable to a weak state on the dividing line between the Western democracies and the Soviet satellite states Sheldon A Goldberg traces the military diplomatic and political threads of postwar policy toward West Germany and provides insights into the inner workings of alliance building and the roles of bureaucrats and military officers as well as those of diplomats and statesmen He draws on previously unexamined primary sources to construct a cogent account of the political and diplomatic negotiations that led to

Gole, 2013-08-20 A fascinating book about a virtually unknown officer who played a major role in the development of US military planning before and during World War II Bowling Green Daily News A vital source of American intelligence on Hitler's rise to power and military ambitions Colonel Truman Smith was one of the most compelling and controversial figures of the Second World War In *Exposing the Third Reich* Henry G Gole tells this soldier's story for the first time An American aristocrat from a prominent New England family Smith became an expert on Germany when he was first assigned there during the Allied occupation of 1919 As a military attaché in 1935 he arranged for his good friend Charles Lindbergh to inspect the Luftwaffe The Germans were starstruck by the famous aviator enabling Smith to gather key intelligence about their air capability His deep access and knowledge made him invaluable to General George C Marshall however the colonel's friendliness with Germany also aroused suspicion that he was a Nazi sympathizer Gole demonstrates that far from condoning Hitler Smith was among the first to raise the alarm he predicted many of the Nazis moves years in advance and feared that the international community would not act quickly enough Featuring many firsthand observations of the critical changes in Germany between the world wars this biography presents an indispensable look both at a fascinating figure and at the nuances of the interwar years *The Americanized Luftwaffe* by Billy Bieler Billy Bieler, 2016-04-11 *The Americanized Luftwaffe* by Billy Bieler The Luftwaffe a significant component of the late German Armed Forces Bundeswehr and arguably one of the major pillars of the Atlantic Alliance thanks to its size and positioning within NATO served as an influencer of change in the post Cold War and Reunification periods Although Luftwaffe was certainly influenced by old squads and their merits it accomplished much for the new democracy thereby contributing to the preservation of peace *The Americanized Luftwaffe* explores all aspects of the post war Luftwaffe from its weapon system effectiveness and fighter weapon systems characteristics to its significant partnership with the United States Air Force Through in depth analyses of Luftwaffe's aircraft performance deficiencies of the operational spectrum and the complexity of its weapons systems much of which were developed in the latter part of the last century *The Americanized Luftwaffe* demonstrates the extraordinary undertaking involved with both the reorganization and buildup and the tactical weight and importance of the Luftwaffe within the alliance *Britain and the Economic Problem of the Cold War* Till Geiger, 2017-07-05 Examining aspects of the political economy and economic impact of British defence expenditure in the period of the first cold war 1945-1955 *Britain and the Economic Problem of the Cold War* challenges the widespread assumption that the British commitment to fighting the cold war precipitated the country's relative economic decline in the postwar period **GIs in Germany** Thomas W. Forging the Shield Donald A. Carter, 2015 This illustrated book that includes tables charts and maps primarily discusses the role of USAREUR US Army Europe in rearming and training the new German Army which was perhaps the Army s single greatest contribution toward maintaining security in Western Europe Likewise the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe

The Soldier and the Changing State Zoltan Barany, 2012-09-16 The Soldier and the Changing State is the first book to systematically explore on a global scale civil military relations in democratizing and changing states Looking at how armies supportive of democracy are built Zoltan Barany argues that the military is the most important institution that states maintain for without military elites who support democratic governance democracy cannot be consolidated Barany also demonstrates that building democratic armies is the quintessential task of newly democratizing regimes But how do democratic armies come about What conditions encourage or impede democratic civil military relations And how can the state ensure the allegiance of its soldiers Barany examines the experiences of developing countries and the armed forces in the context of major political change in six specific settings in the wake of war and civil war after military and communist regimes and following colonialism and unification apartheid He evaluates the army building and democratization experiences of twenty seven countries and explains which predemocratic settings are most conducive to creating a military that will support democracy Highlighting important factors and suggesting which reforms can be expected to work and fail in different environments he offers practical policy recommendations to state builders and democratizers

A Question of Balance Michael Creswell, 2006-10-31 Challenging standard interpretations of American dominance and French weakness in postwar Western Europe Michael Creswell argues that France played a key role in shaping the cold war order In the decade after the war the U S government s primary objective was to rearm the Federal Republic of Germany within the framework of a European defense force the European Defense Community American and French officials differed however over the composition of the EDC and the rules governing its organization and use Although U S pressure played a part more decisive factors in both internal French politics and international French concerns ultimately led France to sanction the plan to rearm West Germany Creswell sketches the successful French challenge to the United States tracing the genuine sometimes heated debate between the two nations that ultimately resulted in security arrangements preferred by the French but acceptable to the Americans Impressively

researched and vigorously argued *A Question of Balance* advances significantly our understanding of power politics and the rise of the cold war system in Western Europe *Rearming the RAF for the Second World War* Adrian Phillips,2022-07-28 When the RAF rearmed to meet the growing threat from Nazi Germany's remorseless expansion in the late 1930s it faced immense challenges It had to manage a huge increase in size as well as mastering rapid advances in aviation technology To protect Britain from attack the RAF's commanders had to choose the right strategy and the right balance in its forces The choices had to be made in peacetime with no guidance from combat experience These visions then had to be translated into practical reality A shifting cast of government ministers civil servants and industrialists with their own financial political and military agendas brought further dynamics into play The RAF's readiness for war was crucial to Britain's ability to respond to Nazi aggression before war broke out and when it did the RAF's rearmament was put to the acid test of battle Adrian Phillips uses the penetrating grasp of how top level decisions are made that he honed in his inside accounts of the abdication crisis and appeasement to dissect the process which shaped the RAF of 1940 He looks beyond the familiar legends of the Battle of Britain and explores in depth the successes and failures of a vital element in British preparations for war *The Pleasure of a Surplus Income* Christine von Oertzen,2007-04 Published in Association with the German Historical Institute Washington D C At a time when part time jobs are ubiquitous it is easy to forget that they are a relatively new phenomenon This book explores the reasons behind the introduction of this specific form of work in West Germany and shows how it took root in both norm and law in factories government authorities and offices as well as within families and the lives of individual women The author covers the period from the early 1950s a time of optimism during the first postwar economic upswing to 1969 the culmination of the legislative institutionalization of part time work ***A Military History of the Cold War, 1944-1962*** Jonathan M. House,2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and

Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

Money and Security Hubert Zimmermann, 2002-04-22 This study links the transatlantic security system and the international monetary system during the Cold War era

Coca-Colonization and the Cold War Reinhold Wagnleitner, 2000-11-09 Reinhold Wagnleitner argues that cultural propaganda played an enormous part in integrating Austrians and other Europeans into the American sphere during the Cold War In Coca Colonization and the Cold War he shows that Americanization was the result not only of market forces and consumerism but also of systematic planning on the part of the United States Wagnleitner traces the intimate relationship between the political and economic reconstruction of a democratic Austria and the parallel process of cultural assimilation Initially U S cultural programs had been developed to impress Europeans with the achievements of American high culture However popular culture was more readily accepted at least among the young who were the primary target group of the propaganda campaign The prevalence of Coca Cola and rock n roll are just two examples addressed by Wagnleitner Soon the cultural hegemony of the United States became visible in nearly all quarters of Austrian life the press advertising comics literature education radio music theater and fashion Hollywood proved particularly effective in spreading American cultural ideals For Europeans says Wagnleitner the result was a second discovery of America This book is a translation of the Austrian edition published in 1991 which won the Ludwig Jedlicka Memorial Prize
