Reason and Nature in the Eighteenth Century, 1714-1780 Ronald Walter Harris, 1968 What do historians mean by the Enlightenment and is the term applicable to eighteenth century England It is the theme of this book that the great intellectual tradition associated with the Renaissance disintegrated in the eighteenth century under the impact of the scientific revolution and the thought of John Locke In its place there grew up a new emphasis upon individualism a new awareness of the class structure and especially in the novel a new interest in the claims of the lower classes upon society The new philosophical tenets influenced the arts in different ways literature for instance was more ready than architecture or painting to take the new ideas into account Often aesthetic theory was at variance with practice In the literature of the time the politics of the age received a jaundiced and bitter treatment The great men of the age Locke Swift Addison Bolingbroke Pope Fielding Richardson Samuel Johnson Gibbon Hogarth Reynolds Gainsborough and the others lived in a thought world very different from our own yet one from which our own has sprung It is the purpose of this book to reconstruct that thought world Publisher
