Reason Truth And Theology In A Pragmatist Perspective:

Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph

Critical Essays on Edward Schillebeeckx's Theology Corneliu C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective

on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

Receptive Ecumenism and the Renewal of the Ecumenical Movement Antonia Pizzey, 2019-05-15 Receptive Ecumenism is a ground breaking new ecumenical approach widely regarded as having the potential to revitalise the Ecumenical Movement But what is Receptive Ecumenism Why is it important In *Receptive Ecumenism and the Renewal of the Ecumenical Movement* Antonia Pizzey offers a comprehensive systematic analysis of Receptive Ecumenism While still emerging Receptive Ecumenism is highly promising because it prioritises the need for ecclesial conversion Pizzey explores the scope and complexity of Receptive Ecumenism providing much needed clarity on its aim key developmental influences and distinctiveness as well as its virtuous character and relationship with Spiritual Ecumenism The major implementations of Receptive Ecumenism to date are investigated along with its significance for the future of ecumenism especially regarding its engagement with contemporary challenges

Truth, Community, and the Prophetic Voice Christopher J. Libby, 2018-06-18 The central concern of *Truth Community and the Prophetic Voice* asks how it might be possible today to uphold an understanding of the prophetic voice that comports in essential ways with its expression in the biblical vision while attending especially to contemporary judgments regarding the epistemological significance of community and concerns about the nature and function of claims to truth Ultimately and more specifically Christopher J Libby hopes to gain some purchase on what an adequate contemporary

Christian theological rendering of the prophetic looks like He argues that it is not only possible to provide a non foundationalist account of the prophetic voice but that that voice is able to come truly into its own when cast in a non foundationalist frame

Beyond Fideism Olli-Pekka Vainio, 2016-04-15 After the postmodern turn every tradition seeks the right to have their own rules of rational discourse The crucial question is are there ways to communicate between the traditions so that the traditions do not need to give up their identities in order to take part in conversation Vainio examines the basic assumptions behind well known types of Christian theology and seeks ways in which they might interact with one other and with other non Christian traditions without capitulation of their identities Vainio claims that there are religious identities that can be negotiated and communicated and that there are ecclesiastical doctrines which can be meaningfully discussed among churches This book explores three key areas analysis of the uses of fideism within classical Christian theology clarification of different types of theological method that seek to express the task of theology in contemporary setting an explanation of the contours of religious identity and rationality which takes seriously both classical Christian identity and pluralistic contexts where most of the Christian communities dwell nowadays The proposal for negotiability of Christian identity draws together ideas from among others virtue epistemology reformed epistemology communitarianism and feminist sensibilities

Receptive Ecumenism and the Call to Catholic Learning Paul Murray, 2010-05-06 This volume proposes a fresh strategy for ecumenical engagement Receptive Ecumenism that is fitted to the challenges of the contemporary context and has already been internationally recognised as making a distinctive and important new contribution to ecumenical thought and practice Beyond this the volume tests and illustrates this proposal by examining what Roman Catholicism in particular might fruitfully learn from its ecumenical others Challenging the tendency for ecumenical studies to ask whether explicitly or implicitly What do our others need to learn from us this volume presents a radical challenge to see ecumenism move forward into action by highlighting the opposite question What can we learn with integrity from our others This approach is not simply ecumenism as shared mission or ecumenism as problem solving and incremental agreement but ecumenism as a vital long term programme of individual communal and structural conversion driven like the Gospel that inspires it by the promise of conversion into greater life and flourishing The aim is for the Christian traditions to become more not less than they currently are by learning from or receiving of each other's gifts The 32 original essays that have been written for this unique volume explore these issues from a wide variety of denominational and disciplinary perspectives drawing together ecclesiologists professional ecumenists sociologists psychologists and organizational experts

Faith in Certain Terms Olli-Pekka Vainio, 2023-11-10 This book considers how certainty and faith are related in the Christian faith It asks How certain can Christian believers be about their beliefs about God Should Christians doubt the assurance of their salvation The chapters provide a historical analysis of both certainty of faith and assurance from the early Church to modern times while also paying attention to confessional differences The author explores contemporary debates in

analytic epistemology on the certainty and fallibility of our beliefs and argues for a fallibilist understanding of Christian faith. The book also addresses some less discussed arguments that threaten the certainty of faith and offers an account of faith as cognitive practice. It will be of interest to scholars of both theology and philosophy. **God, Humanity and the Cosmos**

Newman in the Story of Philosophy D. J. Pratt, Morris-Chapman, 2021-07-01. Saint John Henry Newman is widely acknowledged to be an important theologian. Despite this, Newman commentators believe that his work has received little

recognition by philosophers This book explores whether or not Newman's supposed philosophical isolation constitutes a misconception in Newman historiography First of all it does this by examining Newman's general philosophical reception over the last two centuries surveying a wide range of philosophical positions and philosophers from the many different branches of this discipline The book then focuses upon whether or not Newman has made a contribution to one specific philosophical position seldom given attention within Newman scholarship the particularist approach to epistemology In its investigations into this and the other more general dimension of Newman's philosophical reception the book offers an historical re-evaluation of Newman's philosophical legacy

Grammars of Faith P. F. Bloemendaal, 2006 D Z Phillips is a leading figure in advocating a Wittgensteinian approach to the philosophical study of religion His writings exert an important influence on contemporary philosophy of religion giving a new direction to the philosophical discussion of religious belief and practice Although his work has prompted much often critical comment a thorough investigation has not been forthcoming *Grammars of Faith* fills that gap The book pays close attention to Wittgenstein's own remarks on religious belief arranging them against the background of his broader philosophical methodology as well as to the efforts of the early Wittgensteinians at providing a more comprehensive Wittgensteinian philosophy of religion Central to this study are Phillips's understanding of philosophical enquiry as a form of contemplation and his descriptive accounts of religious belief By means of a careful and methodical examination of Phillips's oeuvre the study seeks to present a fair assessment of Phillips's position showing not only its weaknesses but also its strength
