Rebuilding Prairies And Forests:

Rebuilding Prairies and Forests Natalie Goldstein, 1994 Describes how ranchers in eastern Montana have joined together to start a huge preserve called the Big Open and how children have helped plant trees in communities throughout the country Prairies, Forests, and Wetlands Janette R. Thompson, 1992 **The Sunflower Forest** William R. Jordan, 2012-02-07 Ecological restoration the attempt to guide damaged ecosystems back to a previous usually healthier or more natural condition is rapidly gaining recognition as one of the most promising approaches to conservation In this book William R Jordan III who coined the term restoration ecology and who is widely respected as an intellectual leader in the field outlines a vision for a restoration based environmentalism that has emerged from his work over twenty five years Drawing on a provocative range of thinkers from anthropologists Victor Turner Roy Rappaport and Mary Douglas to literary critics Frederick Turner Leo Marx and R W B Lewis Jordan explores the promise of restoration both as a way of reversing environmental damage and as a context for negotiating our relationship with nature Exploring restoration not only as a technology but also as an experience and a performing art Jordan claims that it is the indispensable key to conservation At the same time he argues restoration is valuable because it provides a context for confronting the most troubling aspects of our relationship with nature For this reason it offers a way past the essentially sentimental idea of nature that environmental thinkers have taken for granted since the time of Emerson and Muir **Prairie and Forest** Parker Gillmore, 1874

Through prairie and forest, the adventures of De La Salle John Stevens C. Abbott, 1880 *Missouri*, 1998 Once considered a foolish boondoggle of Franklin Delano Roosevelt's Works Progress Administration the Federal Writers Project was initiated to allow employment opportunity to those associated with the arts during the Great Depression The American Guide Series became the most successful venture offering jobs to writers nationwide as each state endeavored to produce a comprehensive guidebook Under the direction of Charles van Ravenswaay former director of the Missouri Historical Society Missouri A Guide to the Show Me State was first published in 1941 Now in a classic reprint Missouri Historical Society Press restores this guidebook to its original splendor and returns it to the bookshelves With a current road map included with the book travelers can compare sights and tours described in the antiquated guide and see how they have developed or disappeared As Walter A Schroeder and Howard W Marshall describe in the updated introduction The unmarked dirt road impassable when wet that we encounter in reading the WPA guide is no longer a hurdle to be negotiated in order to reach an out of the way site Due to nearly thirty thousand additional miles of paved roadway and endless gas station and motel chains every corner of Missouri is now easily accessible And as Missouri Historical Society President Robert R Archibald states in the foreword If you are the kind of traveler who has no intention of stirring from a comfortable chair near the reading lamp this reprint is really all the equipment you require for a fascinating journey through the Missouri of the past *Prairie Directory of North America* Charlotte Adelman, Bernard Schwartz, 2013-07-18 The second edition of *Prairie Directory of*

Division of Forest Economics and Marketing Research,1945 *Black Hills National Forest (N.F.), Prairie Project Area* ,2003 **The Everything Kids' Nature Book** Kathiann M Kowalski,2002-03-01 The natural world holds secrets under every rock and around every tree If you ve ever wondered what life is like through a microscope telescope or with the naked eye you ll love this book You will Run with the antelope across the American plains and learn about the food chain Climb with a monkey to the highest tree in the rainforest and discover how photosynthesis keeps leaves green Sink to the bottom of the ocean to follow creatures who have adapted to life in total darkness Travel with a meteor at speeds up to 160 000 miles per hour Burrow with the earthworms in your own backyard Through it all you ll find out how things synergize regenerate and evaporate and lots more And don t worry about the big words they are all defined and explained with familiar examples in this fascinating trip through the natural world *Ignorance and Surprise* Matthias Gross,2021-08-03 The relationship between ignorance and surprise and a conceptual framework for dealing with the unexpected as seen in ecological design projects Ignorance and surprise belong together surprises can make people aware of their own ignorance And yet perhaps paradoxically a surprising event in scientific research one that defies prediction or risk assessment is often a window to new and unexpected knowledge In this book Matthias Gross examines the relationship between ignorance and surprise proposing a conceptual framework for handling the unexpected and offering case studies of ecological design that demonstrate the advantages of allowing for surprises and including ignorance in the design and negotiation processes Gross draws on classical and contemporary sociological accounts of ignorance and surprise in science and ecology and integrates these with the idea of experiment in society He develops a notion of how unexpected occurrences can be incorporated into a model of scientific and technological development that includes the experimental handling of surprises Gross discusses different projects in ecological design including Chicago s restoration of the shoreline of Lake Michigan and Germany s revitalization of brownfields near Leipzig These cases show how ignorance and surprise can successfully play out in ecological design projects and how the acknowledgment of the unknown can become a part of decision making The appropriation of surprises can lead to robust design strategies Ecological design Gross argues is neither a linear process of master planning nor a

process of trial and error but a carefully coordinated process of dealing with unexpected turns by means of experimental practice *EHR Directory of Awards* National Science Foundation (U.S.).
