

Recent developments in Child and Adolescent Psychiatry in India

Professor V. Sagar and Dr. E. Sharma (India)

Introduction

India has approximately 40% of its population of 1.2 billion under the age of 18 years. The burden of mental illness in Indian children and the significant gap in access to treatment has been reported in the recent literature. The growth of Child and Adolescent Psychiatry (CAP) as a specialty in Psychiatry has happened in a very gradual manner over the past five decades. This article focuses on the recent developments in clinical services, training, research and policies related to CAP in India.

Clinical services

The National Institute of Mental health and Neurosciences (NIMHANS) has recently extended its CAP outpatient services to 16- and 17-year old adolescents. In addition, a 24-bed inpatient facility named Adolescent Psychiatry Centre (APC), the first of its kind in India, started in the year 2015.

Special clinics have recently been initiated in institutions like NIMHANS and Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER), Pondicherry. The special clinics at JIPMER include a multidisciplinary monthly follow-up clinic for children with ASD, with the Paediatrician, Child Psychiatrist, Speech Pathologist and Occupational Therapist providing input; a multi-disciplinary child crisis counselling centre; and an adolescent mental health clinic. NIMHANS has initiated the following special clinics:

- o Weekly clinic for children with Specific Learning Disorders
- o Aasare Clinic for Parents of children with emotional, behavioural or learning problems. The term aasare is from the local vernacular language, Kannada, and means support.
- o Swatantra clinic for children referred from Child Protective Services. The term swatantra is also from the local vernacular language, Kannada, and means independence.

Training

A 3-year Doctorate of Medicine (DM) in CAP is available in two institutes in India: NIMHANS, India and Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh. Postdoctoral Fellowship (PDF) training is available at NIMHANS; JIPMER; Christian Medical College (CMC), Vellore; Vijayawada Institute of Mental Health and Neurosciences (VIMHANS), Vijayawada; and Asha Hospital, Hyderabad. The PDF course duration is 1 year in all institutions except CMC, Vellore (where the duration is 2 years). Admission to these courses is open to candidates who have completed their postgraduate degree (MD/DNB) in Psychiatry. Recently NIMHANS has initiated a 6-month certificate course for child and adolescent therapy and family therapy. This course will be provided to clinical

Recent Developments In Adolescent Psychiatry

Recent Developments In Adolescent Psychiatry:

Recent Progress in Child and Adolescent Psychiatry Masayuki Shimizu, 2012-12-06 Child and adolescent psychiatry is a complex clinical discipline whose practitioners work in close cooperation with their professional colleagues in clinical medicine education social welfare sociology family relations theory and legal affairs This volume the first of its kind to be published in Japan provides a broad ranging view of recent progress in the rapidly developing field of child and adolescent psychiatry Topics include infant psychiatry developmental disorders the interface between education and psychiatry especially as it relates to the phenomenon of school refusal neurotic disorders and adolescent psychoses as well as parental power and child abuse and psychiatric problems surrounding organ transplantation in children The section on autism and education focuses on problems of autistic children reaching adolescence a subject that has rarely been treated so directly Also of clinical interest and importance is the discussion presented here of high risk factors for adolescent psychosis This volume with contributions by leading professionals in the field is a valuable source and reference for practitioners researchers and students of child and adolescent psychiatry and clinical psychology

Recent Progress in Child and Adolescent Psychiatry Masanori Hanada, 1999-02-01 In 1998 the birth rate in Japan fell to an unprecedented 1.39 Among the possible causative factors are a growing preference among women to remain unmarried an increase in the mean age at marriage and a rise in the number of women who continue working after marriage In contrast to the decreasing number of children in Japan or perhaps as a result there has been an increase of such dysfunctional phenomena as violence at home and in schools bullying truancy and eating disorders among adolescents These and other issues are among the topics considered by the contributors to *Recent Progress in Child and Adolescent Psychiatry Vol 2* edited under the auspices of the Japanese Society of Child and Adolescent Psychiatry The volume presents a broad ranging view of recent progress in the rapidly developing field of child and adolescent psychiatry providing a valuable resource for practitioners researchers and students of psychiatry and clinical psychology

Top Topics in Child & Adolescent Psychiatry, An Issue of Child and Adolescent Psychiatric Clinics of North America Harsh K. Trivedi, 2014-12-27 In this issue of *Child Neurobiology of Attention Deficit Hyperactivity Disorder Psychosocial Interventions in Attention Deficit Hyperactivity Disorder 5 Social Skills Training for Youth with Autism Spectrum Disorders 6 Complementary and Alternative Medicine Treatments for Children with Autism Spectrum Disorders and Adolescent Eating Disorders Definitions Symptomatology Epidemiology and Comorbidity* Authors renowned in the psychiatric field and the pediatric field provide the physician clinical outcomes and therapeutic management of these disorders

Recent Developments in Criminological Theory Scott A. Lukas, 2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning

and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories Because of this the articles focus on theory rather than empirical research Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume Recent Developments in Adolescent Psychiatry L. K. George Hsu, Michel Hersen, 1989-01-17 An up to date review of recent findings in the growing field of adolescent psychiatry Contributors cover all the disorders commonly associated with adolescence as categorized in DSM III and DSM III R Surveys a wide range of therapeutic approaches addressing development diagnosis assessment management and legal issues and provides timely information on teenage suicide crisis management and substance abuse

Phobic and Anxiety Disorders in Children and Adolescents Thomas H. Ollendick, John S. March, 2004-01-15 This comprehensive interdisciplinary guidebook is designed for the mental health practitioner seeking to utilize proven and effective interventions with children and adolescents suffering from significant anxiety and phobic disorders Each chapter is co authored by a clinical child psychologist and a child psychiatrist framing the volume s unique and balanced perspective In addition each chapter presents state of the art assessment and treatment strategies for a panoply of phobic and anxiety disorders including both psychosocial and pharmacological interventions Moreover the volume addresses important conceptual epidemiological and ethical issues in working with children and adolescents All in all this guide will help address the wide chasm between clinical research and clinical practice uniting the forces intrinsic to child psychiatry and clinical child psychology

Recent Developments in Autism Research Manuel F. Casanova, 2005 Autism is a condition worn for public scrutiny blending personal aspects of the patient s life with his her social environment This book focuses on the physical aspects which make an individual autistic **Current Developments in Schizophrenia**, 2004 **Child and Adolescent Psychiatry in Sri Lanka** Yasodha Maheshi Rohanachandra, 2023-05-09 Sri Lanka is a lower middle income country LMIC with a population of 4 6 million between 5 and 17 years old Poverty terrorism and the effects of long standing civil war have created a high mental health burden in the country Similar to other LMICs mental health is a neglected and an under researched area in Sri Lanka Sri Lanka has only 10 board certified child and adolescent psychiatrists in the country with 0 03 child and adolescent psychiatrists per 100 000 population Due to the limited number of child and adolescent psychiatrists a child and adolescent psychiatrist in Sri Lanka has a diverse role including curative health promotion medico legal research and teaching responsibilities This book gives an overview of the common psychosocial problems among children and adolescents in Sri Lanka and the nature of the child and adolescent mental health services available in the country at present and elaborates the challenges faced by practitioners when providing mental health services to children

and adolescents with limited resources The book also discusses practical solutions that can be taken to improve the child and adolescent mental health services in low income settings where scarcity of resources makes it impossible to adhere to ideal practice

Abnormal Child and Adolescent Psychology Rita Wicks-Nelson,2015-08-07 Abnormal Child and Adolescent Psychology with DSM 5 Updates 8 e presents students with a comprehensive research based introduction to understanding child and adolescent psychopathology The authors provide a logically formatted and easy to understand text that covers the central issues and theoretical and methodological foundations of childhood behavior disorders Rich with illustrations and examples this text highlights the newest areas of research and clinical work stressing supported treatments and the prevention of behavior problems of youth

Kaplan and Sadock's Comprehensive Text of Psychiatry Robert Boland,Marcia L. Verduin,2024-03-26 The gold standard reference for all those who work with people with mental illness Kaplan Sadock s Comprehensive Textbook of Psychiatry edited by Drs Robert Boland and Marcia L Verduin has consistently kept pace with the rapid growth of research and knowledge in neural science as well as biological and psychological science This two volume eleventh edition offers the expertise of more than 600 renowned contributors who cover the full range of psychiatry and mental health including neural science genetics neuropsychiatry psychopharmacology and other key areas

Advances in Clinical Child Psychology Thomas H. Ollendick,Ronald J. Prinz,2013-06-29 This volume of Advances in Clinical Child Psychology which is the second under our editorship and the sixteenth of the series continues the tradition of including a broad range of timely topics on the study and treatment of children and adolescents Volume 16 includes contributions pertaining to prevention adolescents families cognitive processes and methodology The issue of prevention in child clinical psychology is no longer restricted to a few speculative sentences in the future directions part of a discussion section Prevention research is actually being undertaken as reflected in two contributions to the volume Winett and Anderson provide a promising framework for the development evaluation and dissemination of programs aimed at the prevention of HIV among youth Lorion Myers Bartels and Dennis address some of the conceptual and methodological issues in preventive intervention research with children Adolescent development and adjustment is an important area of study in clinical child psychology Two contributors address key and somewhat related topics social competence and depression in adolescence Inderbitzen critically reviews the assessment methods and methodologies for social competence and peer relations in adolescence Reynolds analyzes contemporary issues and perspectives pertaining to adolescent depression

New Developments in Parent-child Relations Dorothy M. Devore,2006 In the life of a person there are probably no events outside influences or genetic characteristics even approaching the significance of the broad category of acts and actions called parent child relations These include decisions and actions and lack thereof from the first day of life and sometimes throughout the life span They include learning by example schooling disciplining coping skills behavioural practices eating habits communication skills conflict management and a plethora of other actions This book presents new research in this

dynamic field Recent Developments in Neuroscience Research on Human Motivation Sung-il Kim, Johnmarshall Reeve, Mimi Bong, 2016-12-13 This volume provides new insight into motivation theory by integrating noteworthy neuroscience research findings on motivation This volume is dedicated to advancing our understanding of brain mechanisms of underlying motivational phenomena including reward approach autonomy intrinsic motivation learning effort curiosity and self control *Textbook of Adolescent Psychiatry* Richard Rosner, 2003-08-29 Adolescent Psychiatry is the first text reference to provide such in depth comprehensive and practical coverage of this specialist area There are many questions pertinent to adolescence alone and these are highlighted throughout the book Starting with the important aspects of normal development the reader is then taken on to risk behaviour and **Lewis's Child and Adolescent Psychiatry** Andrés Martin, Fred R. Volkmar, Melvin Lewis, 2007 Established for fifteen years as the standard work in the field Melvin Lewis's Child and Adolescent Psychiatry A Comprehensive Textbook is now in its Fourth Edition Under the editorial direction of Andrés Martin and Fred R Volkmar two of Dr Lewis's colleagues at the world renowned Yale Child Study Center this classic text emphasizes the relationship between basic science and clinical research and integrates scientific principles with the realities of drug interactions This edition has been reorganized into a more compact clinically relevant book and completely updated with two thirds new contributing authors The new structure incorporates economics diversity and a heavy focus on evidence based practice Numerous new chapters include genetics research methodology and statistics and the continuum of care and location specific interventions A companion Website provides instant access to the complete fully searchable text

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1971 *Anxiety Disorders in Children and Adolescents* Wendy K. Silverman, Andy P. Field, 2011-08-25 Anxiety disorders are among the most prevalent mental health problems in childhood and adolescence This fully revised new edition is an authoritative guide to the understanding and assessment of anxiety disorders in the young The first section covers historical and conceptual issues including cognitive and developmental processes clinical and theoretical models phenomenology and classification and evidence based assessment Subsequent sections cover the biology of child and adolescent anxiety and environmental influences including traumatic events parenting and the impact of the peer group The final section addresses prevention and treatment of anxiety All chapters incorporate new advances in the field explicitly differentiate between children and adolescents and incorporate a developmental perspective Written and edited by an international team of leading experts in the field this is a key text for researchers practitioners students and clinical trainees with interests in child and adolescent anxiety *Treatment Strategies in Child and Adolescent Psychiatry* H.B. Ferguson, J.G. Simeon, 2013-06-29 It is clear that child and adolescent psychiatric disorders impose a heavy burden of suffering Recent large scale community epidemiological studies suggest that as many as 20% of children and adolescents in the general population may have clinically important mental disorders These disorders are accompanied by associated impairments in various domains of the child's life resulting

in lowered life quality for the child and his or her family In addition for some conditions the onset of the disorder in childhood heralds a lifetime of serious psychosocial disturbance for a significant subgroup of affected children For instance about 40% of children seen in clinic settings with conduct disorder in late childhood and early adolescence will have serious psychiatric disorders in adult life Finally the heavy burden of suffering of these conditions is indicated by the large amounts of both human and financial resources devoted to their assessment and treatment There is a pressing need in the field for effective treatments that is those that have been shown to do more good than harm that will result in a significant reduction in the burden of suffering resulting from these disorders Further these effective interventions must be readily available and acceptable to clinicians in the settings in which children with mental disorders and their families seek care This book addresses an important need in the treatment field *The Oxford Handbook of Clinical Child and Adolescent Psychology* Thomas H. Ollendick, Susan Williams White, Bradley A. White, 2019 International in scope and with contributions from the field's most eminent scientists and practitioners The Oxford Handbook of Clinical Child and Adolescent Psychology is a state of the science volume providing comprehensive coverage of the psychological problems and disorders of childhood
