## **Recent History A Novel:**

*History and the Contemporary Novel* David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth's *The Sot Weed Factor* Marguerite Yourcenar's *Memoirs of Hadrian* Russell Hoban's *Riddley Walker* Margaret Atwood's *The Handmaid's Tale* Giuseppe Tomasi Di Lampedusa's *The Leopard* D M Thomas's *The White Hotel* William Faulkner's *Go Down Moses* and Umberto Eco's *The Name of the Rose* He proposes recognizing four modes of the historical novel the past as a distant mirror of the present fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics The Distant Mirror The Turning Point The Way It Was and The Way It Will Be This fourfold schema and his focus on postwar novels set Cowart's work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end

*When Novels Were Books* Jordan Alexander Stein, 2020-01-07 A literary scholar explains how eighteenth century novels

were manufactured sold bought owned collected and read alongside Protestant religious texts As the novel developed into a mature genre it had to distinguish itself from these similar looking books and become what we now call literature Literary scholars have explained the rise of the Anglophone novel using a range of tools from Ian Watt s theories to James Watt s inventions Contrary to established narratives When Novels Were Books reveals that the genre beloved of so many readers today was not born secular national middle class or female For the first three centuries of their history novels came into readers hands primarily as printed sheets ordered into a codex bound along one edge between boards or paper wrappers Consequently they shared some formal features of other codices such as almanacs and Protestant religious books produced by the same printers Novels are often mistakenly credited for developing a formal feature character that was in fact incubated in religious books The novel did not emerge all at once it had to differentiate itself from the goods with which it was in competition Though it was written for sequential reading the early novel s main technology for dissemination was the codex a platform designed for random access This peculiar circumstance led to the genre s insistence on continuous cover to cover reading even as the media platform it used encouraged readers to dip in and out at will and read discontinuously Jordan Alexander Stein traces this tangled history showing how the physical format of the book shaped the stories that were fit to print

Politics and the Novel During the Cold War David Caute, 2017-09-08 David Cautes wide ranging study examines how outstanding novelists of the Cold War era conveyed the major issues of contemporary politics and history In the United States and Western Europe the political novel flourished in the 1930s and 1940s the crisis years of economic depression fascism the Spanish Civil War the consolidation of Stalinism and the Second World War Starting with the high hopes generated by the Spanish Civil War Caute then explores the god that failed pessimism that overtook the Western political novel in the 1940s The writers under scrutiny include Hemingway Dos Passos Orwell Koestler Malraux Serge Greene de Beauvoir and Sartre Strikingly different approaches to the burning issues of the time are found among orthodox Soviet novelists such as Sholokhov Fadeyev Kochetov and Pavlenko Soviet official culture continued to choke on modernism formalism satire and allegory In Russia and Eastern Europe dissident novelists offered contesting voices as they engaged in the fraught re telling of life under Stalinism The emergence of the New Left in the 1960s generated a new wave of fiction challenging Americas global stance Mailer Doctorow and Coover brought fresh literary sensibilities to bear on such iconic events as the 1967 siege of the Pentagon and the execution of the Rosenbergs

History, Fiction, and Germany Brent Orlyn Peterson, 2005 A study of the content development and transmission of German identity during the nineteenth century as Germany s national narrative took shape in historical fiction and in both popular and academic history The German speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other s customs If asked about their identity these prospective Germans might

have answered Austrian Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers For this disparate population to think of itself as German that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity History Fiction and Germany chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material The book examines Germany s emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances These writers found and popularized the nation s heroes and heroines demonized its villains and enemies and projected the nation s hopes and dreams for the future Author Brent O Peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled Germany with Germans Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher History Fiction and Germany provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity **Seven Crucial Conversations in Early Childhood Education** Nancy E.
