In this revised and expanded edition of *Operas in English: A Dictionary*, Margaret Ross Griffel updates her work on operas written specifically to an English text including not only works originally in English but also those set to new English librettos. Since the book's initial publication in 1999, Griffel has added nearly 900 new items, bringing the total number of entries in this new edition to 4,400, covering the world of opera in English from 1634 through 2011. The front matter includes a brief history of English opera to set the stage for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles, a full descriptive title, the number of acts, composer's name, librettist's name with original language of the libretto, the source of the text, date, place, and cast of the first performance, date of composition if it occurred substantially earlier than the premiere, similar information for the first U.S. including colonial and British, England, Scotland, Wales, performances, brief plot summary, main characters' names and vocal ranges, where known, names of noteworthy numbers, comments on special musical problems and techniques, other settings of the text including non-English ones, other operas if any involving the same story or characters, cross references are indicated by asterisks. The first appendix lists composers, their places and years of birth and death, and their operas included in the text as entries; the second does the same for librettists; the third records authors whose works inspired or were adapted for the librettos; and the fourth comprises a chronological listing of the A-Z entries, including the date of first performance, the city of the premiere or composition date if unperformed or performed much later, the short title of the opera, and the composer. There is a main character index and an index of singers, conductors, producers, composers of other settings, and other key figures. **Contemporary World Musicians** Clifford Thompson, 2020-10-07.
