Religion, Language, Narrative and the Search for Meaning Anthony Campbell, 2009-08-09 This is a book about religion from a secular standpoint which nevertheless takes its subject seriously Anthony Campbell is a medical doctor who has long been interested in religion and spirituality and has written several books about it in the last 30 odd years including the first detailed examination of the philosophical ideas underlying Transcendental Meditation Seven States of Consciousness published in 1973 He has also made a study of the Persian heretical Islamic sect known in the West as the Assassins The Assassins of Alamut available from Lulu In 2008 he published a personal account in Totality Beliefs and the Religious Imagination also available from Lulu of his own gradual abandonment of the search for religious truth The present book looks at a number of attempts to explain the existence of religious belief and concludes that religion will probably always appear naturally in human consciousness because of the way in which our minds have evolved *The principles of christian religion explained to the capacity of the meanest* Thomas Gouge, 1690 The Apocalypse Explained According to the Spiritual Sense Emanuel Swedenborg, 1899 **Faith and Its Critics** David Fergusson, 2011-03-03 Heralded as the exponents of a new

atheism critics of religion are highly visible in today's media and include the household names of Richard Dawkins Daniel Dennett and Sam Harris David Fergusson explains their work in its historical perspective drawing comparisons with earlier forms of atheism Responding to the critics through conversations on the credibility of religious belief Darwinism morality fundamentalism and our approach to reading sacred texts he establishes a compelling case for the practical and theoretical validity of faith in the contemporary world An invitation to engage in a rich dialogue Faith and Its Critics supports an informed and constructive exchange of ideas rather than a contest between two sides of the debate Fergusson encourages faith communities to undertake patient engagement with their critics to acknowledge the place for change and development in their self understanding whilst resisting the reductive explanations of the new atheism *The Science of Religion, Spirituality, and Existentialism* Kenneth E. Vail III, Clay Routledge, 2020-04-04 The Science of Religion Spirituality and Existentialism presents in depth analysis of the core issues in existential psychology their connections to religion and spirituality e.g. religious concepts beliefs identities and practices and their diverse outcomes e.g. psychological social cultural and health Leading scholars from around the world cover research exploring how fundamental existential issues are both cause and consequence of religion and spirituality informed by research data spanning multiple levels of analysis such as evolution cognition and neuroscience emotion and motivation personality and individual differences social and cultural forces physical and mental health among many others The Science of Religion Spirituality and Existentialism explores known contours and emerging frontiers addressing the big question of why religious belief remains such a central feature of the human experience Discusses both abstract concepts of mortality and concrete near death experiences Covers the struggles and triumphs associated with freedom self regulation and authenticity Examines the roles of social exclusion experiential isolation attachment and the construction of social identity Considers the problems of uncertainty the effort to discern truth and reality and the challenge to find meaning in life Discusses how the mind developed to handle existential topics how the brain and mind implement the relevant processes and the many variations and individual differences that alter those processes Delves into the psychological functions of religion and science the influence on pro and antisocial behavior politics and public policy and looks at the role of spiritual concerns in understanding the human body and maintaining physical health *Religion and Dialogue in the City* Julia Ipgrave, Thorsten Knauth, Anna Körs, Dörthe Vieregge, Marie von der Lippe, 2018 Urban spaces throughout Europe are increasingly characterised by a mixture of different religions and worldviews Being home to a wide range of religious and non religious groups and individuals does not mean that cities are automatically also spaces of interreligious and interfaith encounters Whether a city is a venue for interreligious encounter and dialogue or merely a place where various religions and worldviews exist side by side is a central question for the continuing social cohesion of modern societies This volume presents selected findings of the international research project Religion and Dialogue in Modern Societies ReDi which investigated dialogical practice in the five metropolitan cities Oslo

Stockholm London Hamburg and Duisburg It offers a range of case studies addressing two fields of activity dialogue and interreligious encounters in the urban space and dialogue in education

Religion Explained Pascal Boyer,2008-12-26 Why are there religious beliefs in all cultures Do they have features in common and why does religion persist in the face of science Pascal Boyer shows how experimental findings in cognitive science evolutionary biology and cultural anthropology are now providing precise answers to these general questions and providing for the first time real answers to the question Why do we believe

The Cognitive Science of Religion James A. Van Slyke,2016-03-23 The cognitive science of religion is a relatively new academic field in the study of the origins and causes of religious belief and behaviour The focal point of empirical research is the role of basic human cognitive functions in the formation and transmission of religious beliefs However many theologians and religious scholars are concerned that this perspective will reduce and replace explanations based in religious traditions beliefs and values This book attempts to bridge the reductionist divide between science and religion through examination and critique of different aspects of the cognitive science of religion and offers a conciliatory approach that investigates the multiple causal factors involved in the emergence of religion

Studies in Hellenistic Religions Luther H. Martin,2018-02-26 This selection of essays by Luther Martin brings together studies from throughout his career both early as well as more recent in the various areas of Graeco Roman religions including mystery cults Judaism Christianity and Gnosticism It is hoped that these studies which represent spatial communal and cognitive approaches to the study of ancient religions might be of interest to those concerned with the structures and dynamics of religions past in general as well as to scholars who might with more recent historical research confirm evaluate extend or refute the hypotheses offered here for that is the way scholars work and by which scholarship proceeds
