Religion In Planetary Perspective A Philosophy Of Comparative Religion:

Religion in Planetary Perspective William W. Mountcastle, 1978 The focus of the present essay is religion the religion of humankind on planet Earth This is clearly a proper topic for religious studies but as our intention is to employ categories of critical analysis it will also be a philosophical and theological inquiry The Secret Ministry of Jesus William W. Mountcastle, 2008 This work addresses the questions concerning the crucifixion resurrection story the legends of Jesus in India Tibet and China and the unique style and content of the Fourth Gospel The street theatre style of the Hebrew prophets grounds the belief that Jesus also employed drama to proclaim his visions To encourage his people who were suffering under cruel Roman oppression he dramatized Isaiah's Suffering Servant poem that climaxes with his rescue resurrection a promise that God will rescue Israel Isaiah's Missionary Servant poem inspired him to carry his Gospel into new lands The Syrian Acts of Thomas and more recently discovered material detail his secret ministry to India Tibet and China There his spirited exchanges with Hindus Buddhists and Taoists have enriched the Gospels and may have affected the evolution of eastern religious and philosophical thought particularly that of Mahayana Buddhism The book's discussion provides evidence that Jesus was a pioneer of interfaith dialogue and a prophet of world spirituality who inspires us to build a world community of justice peace and love for people of all faiths It is appropriate for college and university classes in Bible and Qur'an studies contemporary theology and current religious issues

Discerning the Spirit(s) Amos Yong, 2019-03-08 Efforts to construct a Christian theology of religions have inevitably stumbled on the Christian scandal of particularity the historical Jesus of Nazareth What however if we began by focusing on the universal presence and activity of God in the world as symbolized by the Holy Spirit Yong develops just such a pneumatological approach to religions drawing by way of resource on the Pentecostal charismatic experience of the Spirit This book thus invites Pentecostals charismatics and other Christians to conceive of how a pneumatological approach to religions can invigorate the wider ecumenical conversation At the same time it also brings recent Pentecostal charismatic scholarship into dialogue with a broader audience including those interested in philosophical theology world religions global spiritualities and comparative religion and theology *The Journal of Asian Studies*, 1978

Utopianism for a Dying Planet Gregory Claeys, 2024-12-10

How the utopian tradition offers answers to today's environmental crises. In the face of Earth's environmental breakdown, it is clear that technological innovation alone won't save our planet. A more radical approach is required, one that involves profound changes in individual and collective behavior. *Utopianism for a Dying Planet* examines the ways the expansive history of utopian thought, from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers, can offer moral and imaginative guidance in the face of catastrophe. The utopian tradition, which has been critical of conspicuous consumption and luxurious indulgence, might light a path to a society that emphasizes equality, sociability, and sustainability. Gregory Claeys unfolds his argument through a wide-ranging consideration of utopian literature, social theory, and intentional communities. He defends a realist definition of utopia, focusing on ideas of sociability and belonging as central to utopian narratives. He surveys the development of these themes during the eighteenth and nineteenth centuries, before examining twentieth and twenty-first century debates about alternatives to consumerism. Claeys contends that the current global warming limit of 1.5°C (2.7°F) will result in cataclysm if there is no further reduction in the cap. In response, he offers a radical Green New Deal program, which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities. An urgent and comprehensive search for antidotes to our planet's destruction, *Utopianism for a Dying Planet* asks for a revival of utopian ideas, not as an escape from reality but as a powerful means of changing it.
