Religious Experience A Social Psychological Perspective:

The Religious Experience Charles Daniel Batson, W. Larry Ventis, 1982 *Religion and the Individual* Charles Daniel Batson, 1993 Uses methods of social psychology to explore the personal rather than the institutional perspective of religious experience and to analyze this uniquely human and universal behavior in scientific terms **Life and Faith** W. W. Meissner, 1987-04-01 In this comprehensive study of psychology theology and religious experience the author asserts that psychology and religion can faithfully complement one another even when the psychology in question is primarily grounded in Freudian analysis *Social Psychology in Christian Perspective* Angela M. Sabates, 2012-11-14 Angela Sabates offers a well researched social psychology textbook that makes full use of the unique view of human persons coming down to us from the Christian tradition She highlights Christian contributions to a wide range of questions from the dynamics of persuasion to the social psychology of violence **Psychological Perspectives on Religious Education** Leslie J. Francis, 2020-02-03 In this monograph Leslie J Francis reviews and assesses the contributions made by the individual differences tradition of psychology over the past 50 years to research in religious education In this context religious education is conceived broadly to embrace what takes place in schools within religious communities and within households across the age span Topics include the centrality of the attitudinal dimension of religion the place of personality in the individual differences tradition sex as a core individual difference in religion the consequences of individual differences in religious affect the role of church schools and the role of the family in religious nurture the factors that account for individual differences in attitude toward religious diversity the relevance of the individual differences tradition for adult religious education the implications of the individual differences tradition for biblical hermeneutics and discipleship learning *Religious Experience in Earliest Christianity* Luke Timothy Johnson, In three fascinating probes of early Christianity examining baptism speaking in tongues and meals in common Johnson illustrates how a more wholistic approach opens up the world of healings and religious power of ecstasy and spire in short the religious experience of real persons Early Christian texts he finds reflect lives caught up in and defined by a power not in their control but engendered instead by the crucified and raised Messiah Jesus **SCM Studyguide to Religious and Spiritual Experience** Jeff Astley, 2020-02-28 This Studyguide provides a succinct and lucid introduction to the subject for those studying and teaching religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon **Religion and the Individual** C. Daniel Batson, 1993 **The Psychology of Religion** Ralph W. Hood, Jr., Peter C. Hill, Bernard Spilka, 2018-07-23 Keeping up with the rapidly growing research base the leading graduate level psychology of religion text is now in a fully updated fifth edition It takes a balanced empirically driven approach to understanding the role of religion in individual functioning and social

behavior Integrating research on numerous different faith traditions the book addresses the quest for meaning links between religion and biology religious thought belief and behavior across the lifespan experiential dimensions of religion and spirituality the social psychology of religious organizations and connections to coping adjustment and mental disorder Chapter opening quotations and topical research boxes enhance the readability of this highly instructive text New to This Edition New topics cognitive science of religion religion and violence and groups that advocate terrorist tactics The latest empirical findings including hundreds of new references Expanded discussion of atheism and varieties of nonbelief More research on religions outside the Judeo Christian tradition particularly Islam State of the art research methods including techniques for assessing neurological states

Hermeneutical Approaches in Psychology of Religion, 2025-02-10

Contemporary psychology is reviving with new vigor an interest in hermeneutics or the human science of interpretation After a period in which positivistic and statistical approaches have been dominant new methods are being explored Most of these focus on narrative cultural analysis embodiment and interdisciplinarity Because of its specific object of study psychology of religion has never been without an hermeneutical emphasis In this field of psychology scholarship these new directions are especially welcomed as they offer perspectives for research which attempts to interpret religion as a human phenomenon This volume presents hermeneutical psychological studies on religion which rely on both classical and contemporary approaches Dealing with topics like mysticism religious symbols life stories and mental health contributions to the volume draw on a variety of perspectives These range from psychoanalysis narrative psychology and feminism to perspectives drawn deep from the wellspring of interdisciplinary collaboration with anthropology and history

The Nonreligious Phil Zuckerman, Luke W. Galen, Frank L. Pasquale, 2016 The Nonreligious provides a comprehensive and empirically grounded account of what we know about the growing numbers of people who are non religious

Psychological Perspectives on Prayer Leslie John Francis, Jeff Astley, 2001 This book brings together seminal articles concerned with the empirical and psychological study of prayer Topics discussed include the relationship between prayer and psychological development the place of prayer in the work of doctors caregivers and clergy and the effects of intercessory prayer

Advances in the Psychology of Religion Michael Argyle, 2013-10-22 This collection of previously unpublished papers written by well known researchers in the psychology of religion is unique in its broad coverage and in its comparison between quite different and strictly theoretical perspectives The subjects range from theoretical analyses of social science perspectives on religion and its methods to reports of experimental correlational or descriptive studies of religious experience and attitudes The emphasis throughout is on the directions in which this work might move in the future

[A Language for the Soul](#) Stuart C. Devenish, 2024-10-24 This volume offers Christian spiritual instructors a language for the soul uncovered from the storehouses of Christianity's ancient living spiritual tradition That language describes the deep soul movements that unfold in the interior life of believers in response to the Divine invitation It presents an accessible language of the soul for use in

today's professional, educational, ministerial and everyday life situations. The end product is an experiential dictionary comprised of sixty word concepts which name and explore the inward human reactions to the whispering of God's Spirit. Those reactions result from inward desires that lead to the embrace of faith, the quest for consecration and the journey of discipleship. Nurturing these intra-personal choices and commitments is the central task of Christian ministry, but many faith instructors remain unaware of these critical inner life processes. More than other resources available today, this experiential dictionary informs, enriches and intensifies the spiritual journeys of genuine disciples and seekers. The volume is tailored for seminaries, churches, schools and community settings. It has application to the training of ministry leaders, the instruction of believers and in supporting the growing number of secular mystics who are open to merging their journeys of self-discovery with the quest for Christ discovery.

How to Talk About Spiritual Encounters Peter J. Adams, 2020-07-27 This book develops a new and innovative way of understanding how language is used when people describe their spiritual and mystical encounters. Early chapters provide overviews of the nature of spiritual encounters, how commonly they occur and the role of language. The book then develops a unique way of understanding the dynamics of talking about spirituality using original research to support this perspective. In particular, Peter J. Adams explores how this characteristically vague way of speaking can be viewed as an intentional and not an incidental aspect of such communications because certain types of vagueness have the capacity to engage the imaginative participation of receptive listeners. This expressive vagueness is achieved by embedding missing bits or gaps in the flow of what is described and these in turn provide sites for listeners to insert their own content. Later chapters focus on practical ways people, including helping professionals, can improve their skills in talking about their spiritual encounters. All content is situated in café conversations between four people, each of whom is in their own way concerned with the challenges they face in converting the content of their encounters into words.

The Psychology of Religion, Fourth Edition Ralph W. Hood, Jr., Peter C. Hill, Bernard Spilka, 2009-07-15 Scholarly and comprehensive yet accessible, this state-of-the-science work is widely regarded as the definitive graduate-level psychology of religion text. The authors synthesize classic and contemporary empirical research on numerous different religious groups. Coverage includes religious thought, belief and behavior across the lifespan, links between religion and biology, the forms and meaning of religious experience, the social psychology of religious organizations and connections to morality, coping, mental health and psychopathology. Every chapter features thought-provoking quotations and examples that bring key concepts to life. New to This Edition: Revised and updated with the latest theories, methods and empirical findings. Many new research examples. Restructured with fewer chapters for better fit with a typical semester. More attention to the differences between religion and spirituality. Covers emerging topics: genetics and neurobiology, positive psychology, atheism and more.

Theology and Psychology Fraser Watts, 2018-01-12 This title was first published in 2002. Many people are now interested in the relationship between religion and science, but links between Christian belief and psychology have been relatively neglected. This book

opens up the dialogue between Christian theology and modern scientific psychology approaching the dialogue in both directions Current scientific topics like consciousness and artificial intelligence are examined from a religious perspective Christian themes such as God's purposes and activity in the world are then examined in the light of psychology This accessible study on psychology and Christian belief offers students and general readers alike important insights into new areas of the science and religion debate

The Human Symbolic Construction of Reality Nils G. Holm, 2014 It is typical of humans to create forms of understanding at a symbolic level of the biological and physiological reality that confronts them This gives meaning and a coherent structure to the often chaotic nature of that reality This book sums up several years of research into religion from a perspective informed by history phenomenology and psychology Religion has been a means of creating such symbolic understandings The similarities between various religions are actually very great although their differences tend to dominate our view of them Everything in the world of religion can be traced back to everyday simple circumstances which through the construction of symbols at both the cognitive and the behavioral levels acquire a more elevated and sacred character The book provides an introduction to the key aspects of a psycho phenomenological study of the forms of expression within religions Series Nordic Studies in Religion and Culture Vol 2 Subject Religious Studies Phenomenology Psychology

Psychological Perspectives on Religion and Religiosity Benjamin Beit-Hallahmi, 2014-08-21 Is religion to blame for deadly conflicts Should religious behaviour be credited more often for acts of charity and altruism In what ways are religious and spiritual ideas practices and identities surviving and changing as religion loses its political power in those parts of the world which are experiencing increasing secularization Written by one of the world's leading authorities on the psychology of religion and social identity Psychological Perspectives on Religion and Religiosity offers a comprehensive and multidisciplinary review of a century of research into the origins and consequences of religious belief systems and religious behaviour The book employs a unique theoretical framework that combines the new cognitive evolutionary psychology of religion examining the origins of religious ideas with the old psychology of religiosity which looks at correlates and consequences It examines a wide range of psychological variables and their relationship with religiosity It also provides fresh insights into classical topics in the psychology of religion such as religious conversion the relevance of Freud's ideas about religion and religiosity the meaning of secularization and the crucial role women play in religion The book concludes with the author's reflections on the future for the psychology of religion as a field Psychological Perspectives on Religion and Religiosity will be invaluable for academic researchers in psychology sociology anthropology political science economics and history worldwide It will also be of great interest to advanced undergraduate students and graduate students across the social sciences

Ethnic Minorities and Inter-ethnic Relations in Context Karen Phaet, Antal Orkeny, 2017-10-19 This volume is based on papers presented on ethnic minorities and inter ethnic relations in Hungary and The Netherlands which were presented and discussed in three conferences and a series of meetings from 1997 1999 This

work builds on comparative studies of the rise of a radical right and the mobilization of anti immigrant feelings It presents cross national comparative research due to the credence that shifting national angles is a powerful strategic tool with which to correct national bias and to uncover submerged or overlooked aspects of specific national cases The book brings together contributions from Hungarian and Dutch scholars in the field of ethnic minorities and inter ethnic relations The two countries are used as exemplary cases of distinct ethno political patterns in Central and Western Europe Combining complementary configurational and dimensional approaches to cross national comparison the diverse forms of ethnic relations in Hungary and The Netherlands are analyzed and competing explanations of ethno political conflict or co ordination are tested in both national contexts
