Religious Minorities in Iran Eliz Sanasarian, 2000-04-13 Eliz Sanasarian's book explores the political and ideological relationship between non Muslim religious minorities in Iran and the state during the formative years of the Islamic Republic to the present day Her analysis is based on a detailed examination of the history and experiences of the Armenians Assyrians Chaldeans Jews Zoroastrians Bahais and Iranian Christians and describes how these communities have responded to state policies regarding minorities Many of her findings are constructed out of personal interviews with members of these communities While the book is essentially an empirical study it also highlights more general questions associated with exclusion and marginalization and the role of the state in defining these boundaries This is an important and original book

Rights Denied: Violations against ethnic and religious minorities in Iran, 2018 While the repression and human rights violations by the Iranian government are well documented less attention is paid to the specific situation of Iran's ethnic and religious minorities From hate speech and police intimidation to denial of fundamental rights and opportunities Iran's minorities are routinely denied equal access to justice education employment and political participation While Iran's Constitution guarantees religious freedoms it only extends these rights to Islam and three other recognized religions Christianity Judaism and Zoroastrianism leaving practitioners of other faiths including Bahá'í Sabean Mandaeans and Yarsanis with no guaranteed protections At the extreme end members of religious minorities in particular Iran's sizeable Bahá'í community have been vilified arrested and even executed on account of their beliefs They are frequently punished harshly with broad charges of threatening public morality or national security resulting in long prison terms and even death sentences Ethnic minorities including Arabs Azerbaijani Turks and Baluchis have been treated as second class citizens targeted on the basis of their identity and sidelined from education health care and other basic services Minority populated regions such as Khuzestan Kurdistan and Sistan Baluchestan remain underdeveloped and excluded with higher poverty levels and poorer health outcomes These inequalities have contributed to profound discontent and resentment reflected in the arrests of thousands of peaceful demonstrators in these regions Prison data shows that at least three quarters of Iran's political prisoners are from ethnic minorities Despite some limited gestures of conciliation since the election of Hassan Rouhani in 2013 hopes of a more inclusive and rights based approach to Iran's ethnic and religious minorities have yet to be realized For this to be achieved Iranian authorities will need to embark on a more comprehensive process of reform this should include equitable economic development and political representation for minorities as well as the lifting of all restrictions on their religious and cultural rights

The Fire, the Star and the Cross Aptin Khanbaghi, 2006-02-22

Although today the region is mostly identified with Islam it has been home to many other great cultures and the civilization of the Islamic world is itself indebted to the various peoples that the Arabs subdued in the 7th and 8th centuries Far from fading away after the Arab conquest the inhabitants of the Iranian plateau and of Mesopotamia were central players in the lives of their regions However the magnitude of their contribution to the emergence of the early Islamic world has hitherto been neglected In this fascinating and groundbreaking study Khanbaghi offers a comprehensive discussion of those groups that resisted assimilation to the new Islamic order yet continued to participate actively in the socio political life of their homeland He concentrates on Iran which due to its complex religious history offers unique opportunities for the study of non Muslim communities specifically of Zoroastrians Jews and Christians Aptin Khanbaghi has written an important and fascinating book which aims to present a thorough evaluation of the historical contributions made by religious minorities Zoroastrians Jews and Christians to the societal and cultural physiognomy of the lands of Iran in pre modern and early

modern times His general perspective and his broad treatment of the topic are quite new while his use of sources and of the secondary literature is genuinely impressive The Fire the Star and the Cross makes a very significant and original contribution to our knowledge and understanding of Iranian history and civilization during an era when the foundations were laid for the emerging modern Iranian state BERT G FRAGNER Director of the Institute of Iranian Studies Austrian Academy of Sciences Vienna
