Reluctant Resister Jeff Dietrich, 1983      **Southern California Quarterly** ,2009      **Nonviolent Action** Ronald M. McCarthy, Gene Sharp, Brad Bennett, 2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conflicts discusses the methods and techniques used by groups in various encounters Although violence and its causes have received a great deal of attention nonviolent action has not received its due as an international phenomenon with a long history An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources The first part of the book covers case study materials divided by region and subdivided by country Within each country materials are arranged chronologically and topically The second major part examines the methods and theory of nonviolent action principled nonviolence and several closely related areas in social science such as conflict analysis and social movements The book is indexed by author and subject      **Alternative Sociologies of Religion** James V Spickard, 2018-03-06 Uncovers what the sociology of religion would look like had it emerged in a Confucian Muslim or Native American culture rather than in a Christian one Sociology has long used Western Christianity as a model for all religious life As a result the field has tended to highlight aspects of religion that Christians find important such as religious beliefs and formal organizations while paying less attention to other elements Rather than simply criticizing such limitations James V Spickard imagines what the sociology of religion would look like had it arisen in three non Western societies What aspects of religion would scholars see more clearly if they had been raised in Confucian China What could they learn about religion from Ibn Khaldun the famed 14th century Arab scholar What would they better understand had they been born Navajo whose traditional religion certainly does not revolve around beliefs and organizations Through these thought experiments Spickard shows how non Western ideas understand some aspects of religions even of Western religions better than does standard sociology The volume shows how non Western frameworks can shed new light on several different dimensions of religious life including the question of who maintains religious communities the relationships between religion and ethnicity as sources of social ties and the role of embodied experience in religious rituals These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences      *Churchill and Industrial Britain* Jim Tomlinson, 2024-11-14 This book offers a new understanding of the main economic and political trends of 20th century Britain through the lens of Churchill's early career and approach to industrialisation Shedding fresh light on Churchill's political endeavours between 1900 and 1922 this study analyses his work within his political constituencies and highlights how he attempted to balance their local concerns with his larger imperial agenda Tomlinson guides readers through Britain's industrial challenges at the start of the twentieth century with a

particular focus on the textile economies of Churchill's constituencies in Lancashire and Scotland and shows how industrial competition within the Empire exemplified the tensions between domestic economic policy and attempts at globalization and influenced Churchill's later politics Tomlinson acknowledges the role of the First World War in boosting the industrial output and bargaining power of countries within the Empire and analyses these alongside key moments in Churchill's early career such as his defeat at Dundee and time at the Exchequer In doing so the author highlights the context in which Churchill's ideas on the politics and economics of Empire were first formed particularly in relation to the impact of imperial economic policy on British domestic prosperity Ultimately this book delivers a new assessment of twentieth century British economic history in the light of Britain's relationship to the Empire and the first great globalization [Each Other's Angels](#) Toni Kathleen Flynn, 2016-07-13 *Each Other's Angels* Practicing Personalism in the Catholic Worker Tradition introduces readers to author Toni Flynn's vision of justice and compassion informed by the Scriptures and inspired by the Catholic Worker Movement of Dorothy Day and Peter Maurin Part memoir and part tribute to various people she encountered on the margins of society this book shows readers how seemingly insignificant and ineffectual efforts to be an angel to others can turn out to be signs of God's grace Following Jesus going to places of cultural darkness and brokenness Toni inevitably takes us through troubling and troublesome terrain the desert homeless encampments jails and prisons and seedy hotels As you will see Toni fearlessly exposes her flaws while forging a conduit of compassion that connects her to the wounded human condition and allows her and her readers to hope for a better world where everyone is tended to and appreciated **Probing the Limits of Categorization** Christina Morina, Krijn Thijs, 2018-11-29 Of the three categories that Raul Hilberg developed in his analysis of the Holocaust perpetrators victims and bystanders it is the last that is the broadest and most difficult to pinpoint Described by Hilberg as those who were once a part of this history bystanders present unique challenges for those seeking to understand the decisions attitudes and self understanding of historical actors who were neither obviously the instigators nor the targets of Nazi crimes Combining historiographical conceptual and empirical perspectives on the bystander the case studies in this book provide powerful insights into the complex social processes that accompany state sponsored genocidal violence **The New Dominion** John G. Milliken, Mark J. Rozell, 2023-08-04 *The New Dominion* analyzes six key statewide elections to explore the demographic cultural and economic changes that drove the transformation of the state's politics and shaped the political Virginia of today Countering the common narrative that the shifting politics of Virginia is a recent phenomenon driven by population growth in the urban corridor the contributors to this volume consider the antecedents to the rise of Virginia as a two party competitive state in the critical elections of the twentieth century that they profile *Voices from the Catholic Worker* Rosalie Riegle Troester, 1993 This rich oral history weaves a tapestry of memories and experience from interviews roundtable discussions personal memoirs and thorough research In the sixtieth anniversary year of the Catholic Worker Rosalie Riegle Troester reconfirms the diversity and commitment of a movement that applies basic

Christianity to social problems Founded in 1933 by Dorothy Day and Peter Maurin the Catholic Worker has continued to apply the principles of voluntary poverty and nonviolence to changing social and political realities Over 200 interviews with Workers from all over the United States reveal how people came to this movement how they were changed by it and how they faced contradictions between the Catholic Worker philosophy and the call of contemporary life Vivid memoirs of Dorothy Day Peter Maurin and Ammon Hennacy are interwoven with accounts of involvement with labor unions war resistance and life on Catholic Worker farms The author also addresses the Worker s relationship with the Catholic Church and with the movement s wrenching debates over abortion homosexuality and the role of women Author note Rosalie Riegle Troester is Professor of English at Saginaw Valley State University in Michigan

### **Conspiracies of Conspiracies** Thomas Milan

Konda,2019-03-15 The most comprehensive intellectual history of American conspiracy theories yet produced The American Historical Review It s tempting to think we live in an unprecedentedly fertile age for conspiracy theories with seemingly each churn of the news cycle bringing fresh manifestations of large scale paranoia But the sad fact is that these narratives of suspicion and the delusional psychologies that fuel them have been a constant presence in American life for nearly as long as there s been an America In this sweeping book Thomas Milan Konda traces the country s obsession with conspiratorial thought from the early days of the republic to our own anxious moment Conspiracies of Conspiracies details centuries of sinister speculations from antisemitism and anti Catholicism to UFOs and reptilian humanoids and their often incendiary outcomes Rather than simply rehashing the surface eccentricities of such theories Konda draws from his extraordinary assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self sealing worlds of denial What is distinctively American about these theories he argues is not simply our country s homegrown obsession with them but their ongoing prevalence and virulence Konda proves that conspiracy theories are no harmless sideshow They are instead the dark and secret heart of American political history one that is poisoning the bloodstream of an increasingly sick body politic Meticulous scholarship essential context for understanding our present mess Survival Global Politics and Strategy Incisive and engaging Konda s assessment of the new dynamics of conspiracy theories in contemporary US politics is a significant contribution Written with a clarity of expression rare in academic writing the book is accessible to a wide readership Choice

**Dorothy Day and the Catholic Worker** Nancy L. Roberts,1984-01-01 Fifty years ago Dorothy Day sold the first issue of the Catholic Worker in New York and one of the most remarkable newspapers in American history was born It advocated

something revolutionary for 1933 America the union of Catholicism with a passionate concern for social justice and with personal activism Today the Catholic Worker still a monthly with some 100 000 subscribers remains a leader in pacifism and social justice activism The dean of American journalism historians Edwin Emery recently acknowledged the extremely significant role of the Catholic Worker in the history of advocacy and religious journalism Dorothy Day and the Catholic Worker examines Dorothy Day s vital role as editor publisher and chief writer the person who guided the paper s content and tone until her death in 1980 at the age of 83 A devout Catholic Dorothy Day never criticized the Church s teachings only its failure to live up to them Her determined leadership gave the Catholic Worker its consistency and continuity through even those periods in American history most hostile to its message Dorothy Day and the Catholic Worker is the first full length scholarly study of the newspaper Drawing primarily on the Dorothy Day Catholic Worker Collection at Marquette University and on interviews with former Catholic Worker editors from the 1930s on it traces the paper s history highlighting crisis points such as the Spanish Civil War and World War II when individuals selling the Catholic Worker were sometimes beaten in the streets During the McCarthy era the Korean War and the war in Vietnam the Catholic Worker maintained its commitment to peace and social justice A final chapter links the Catholic bishops recent pastoral letter on nuclear warfare with the peace leadership provided by the Catholic Worker Religion, Pacifism, and Nonviolence James

Kellenberger, 2018-08-27 This book is about religion pacifism and the nonviolence that informs pacifism in its most coherent form Pacifism is one religious approach to war and violence Another is embodied in just war theories and both pacifism and just war thinking are critically examined Although moral support for pacifism is presented a main focus of the book is on religious support for pacifism found in various religious traditions A crucial distinction for pacifism is that between force and violence Pacifism informed by nonviolence excludes violence but the book argues allows forms of force Peacekeeping is an activity that on the face of it seems compatible with pacifism and several different forms of peacekeeping are examined The implications of nonviolence for the treatment of nonhuman animals are also examined Two models for attaining the conditions required for a world without war have been proposed Both are treated and one the model of a biological human family is developed The book concludes with reflections on the role of pacifism in each of five possible futurescapes
