Historical Dictionary of Ethiopia David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa First of all with about 75 million people it is the third most populous country in Africa Second it is very strategically located in the Horn of Africa and bordering Eritrea Sudan Kenya and Somalia with some of whom it has touchy and sometimes worse relations Yet its capital Addis Ababa is the headquarters of the African Union the prime meeting place for Africa's leaders So if things went poorly in Ethiopia this would not be good for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia

Famine and forced relocations in Ethiopia 1984-1986 Laurence Binet, 2013-11-08 The Famine and Forced Relocations in Ethiopia 1984 1986 case study is describing the difficulties and dilemmas met by Médecins Sans Frontières MSF during the famine that decimated the Ethiopian population in 1984 1985 This famine triggered an unprecedented humanitarian mobilisation and huge media attention But the Ethiopian regime at the time also used the international aid as a bait to attract the populations and forcibly resettle them in appalling conditions In this context what should have been done when it appeared that aid was being used against the population for whom it was intended Could MSF's denunciation have endangered international aid operations in Ethiopia By taking such positions could MSF put its own existence and thus its other activities at risk

Paying Attention to Foreign Affairs Thomas Knecht, 2015-09-10 Do American presidents consider public opinion when making foreign policy decisions In a democracy it is generally assumed that citizen preferences inform public policy For a variety of reasons however foreign policy has always posed a difficult challenge for democratic governance In *Paying Attention to Foreign Affairs* Thomas Knecht offers new insights into the relationship between public opinion and U S foreign policy He does so by shifting our focus away from the opinions that Americans hold and toward the issues that grab the public's attention Policy making under the glare of public scrutiny differs from policy making when no one is looking As public interest in foreign policy increases the political stakes also rise A highly attentive public can then force presidents to choose foreign policies that are less politically risky but usually less effective By tracking the ebb and flow of public attention to foreign policy this book offers a method of predicting when presidents are likely to lead follow or simply ignore the American public

Children in the International Political Economy G. Kent, 1995-09-13 The first line of responsibility for children lies with their parents but what if the parents fail to look after their children Who else is involved and what should

they do Children in the International Political Economy examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties If all else fails children must look to the international community for help Thus international agencies should recognize specific obligations to look after the well being of children around the world

In This Land of Plenty Benjamin Talton, 2019-07-26 On August 7 1989 Congressman Mickey Leland departed on a flight from Addis Ababa with his thirteen member delegation of Ethiopian and American relief workers and policy analysts bound for Ethiopia s border with Sudan This was Leland s seventh official humanitarian mission in his nearly decade long drive to transform U S policies toward Africa to conform to his black internationalist vision of global cooperation antiracism and freedom from hunger Leland s flight never arrived at its destination The plane crashed with no survivors When Leland embarked on that delegation he was a forty four year old deeply charismatic fiercely compassionate black radical American He was also an elected Democratic representative of Houston s largely African American and Latino Eighteenth Congressional District Above all he was a self proclaimed citizen of humanity Throughout the 1980s Leland and a small group of former radical activist African American colleagues inside and outside Congress exerted outsized influence to elevate Africa s significance in American foreign affairs and to move the United States from its Cold War orientation toward a foreign policy devoted to humanitarianism antiracism and moral leadership Their internationalism defined a new era of black political engagement with Africa In This Land of Plenty presents Leland as the embodiment of larger currents in African American politics at the end of the twentieth century But a sober look at his aspirations shows the successes and shortcomings of domestic radicalism and aspirations of politically neutral humanitarianism during the 1980s and the extent to which the decade was a major turning point in U S relations with the African continent Exploring the links between political activism electoral politics and international affairs Benjamin Talton not only details Leland s political career but also examines African Americans successes and failures in influencing U S foreign policy toward African and other Global South countries

Africare Penelope Campbell,2017-07-05 Africare is a US based non profit organization specializing in development aid for Africa It is also the oldest and largest African American led organization in the development field Since its founding in 1970 Africare has delivered more than 710 million in assistance through over 2 500 projects to thirty six African countries The organization employs over 1 000 people largely indigenous to the countries affected This is a study in leadership and competing African and American black interests Africare has sought to become the leading voice speaking on Africa within the US a goal more difficult to attain than becoming the premier NGO in Africa Sources of opinion and channels of expression about American policy in Africa are fragmented They do not have name recognition or influential sponsors There is poor coverage of African affairs in the US except for key often tragic events Africare has a heritage and has filled a niche in American society Penelope Campbell argues that unless the organization reclaims these unique assets it may lose the distinctiveness enabling its survival The challenge for Africare is spreading its story and message The author raises disturbing fundamental issues Has foreign aid become such an industry that the patient is not allowed to get well As the military cannot afford peace it seems the world cannot afford the cessation of poverty Campbell argues that success in Africa has been elusive not because of the failures of development organizations but the magnitude of the issues involved The author presents a convincing case for aid to Africa the pitfalls involved and for Africare s potential as a leader in meeting the continent s needs

Reluctant Aid Or Aiding the Reluctant? Steven Varnis,1989

Bureaucratizing The Good Samaritan Tony Waters,2018-05-04 Bureaucratizing the Good Samaritan is about the organization of refugee relief programs It describes the practical political and moral assumptions of the international refugee relief regime Tony Waters emphasizes that the agencies delivering humanitarian relief are embedded in rationalized bureaucracies whose values are determined by their institutional frameworks The demand for victims is observed in the close relation between the interests of the popular press and the decisions made by bureaucracies This presents a paradox in all humanitarian relief organizations but perhaps no more so than in the Rwanda Relief Operations 1994 96 which ended in the largest mass forced repatriation since the end of World War II This crisis is analyzed with an assumption that there is a basic

contradiction between the demands of the bureaucratized organization and the need of relief agencies to generate the emotional publicity to sustain the interest of northern donors The book concludes by noting that if refugee relief programs are to become more effective the connection between the press s emotional demands for victims and the bureaucratic organizations s decision processes need to be identified and reassessed **America, History and Life** ,1991

Humanitarianism in the Modern World Norbert Götz, Georgina Brewis, Steffen Werther, 2020-07-23 This is an innovative new history of famine relief and humanitarianism The authors apply a moral economy approach to shed new light on the forces and ideas that motivated and shaped humanitarian aid during the Great Irish Famine the famine of 1921 1922 in Soviet Russia and the Ukraine and the 1980s Ethiopian famine They place these episodes within a distinctive periodisation of humanitarianism which emphasises the correlations with politico economic regimes the time of elitist laissez faire liberalism in the nineteenth century as one of ad hoc humanitarianism that of Taylorism and mass society from c 1900 1970 as one of organised humanitarianism and the blend of individualised post material lifestyles and neoliberal public management since 1970 as one of expressive humanitarianism The book as a whole shifts the focus of the history of humanitarianism from the imperatives of crisis management to the pragmatic mechanisms of fundraising relief efforts on the ground and finance This book is also available as Open Access on Cambridge Core Foundation News ,1992 **Africa** Air University (U.S.).
