Reluctant Saviour Clinton Fernandes, 2004 No Marketing Blurb Reluctant Saviour: Australia, Indonesia, and the Independence of East Timor, (by) Clinton Fernandes Clinton Fernandes, 2004 East Timor, René Girard and Neocolonial Violence Susan Connelly, 2022-01-13 In a new historical interpretation of the relationship between Australia and East Timor Susan Connelly draws on the mimetic theory of Ren Girard to show how the East Timorese people were scapegoated by Australian foreign policy during the 20th century Charting key developments in East Timor's history and applying three aspects of Girard's framework the scapegoat texts of persecution and conversion Connelly reveals Australia's mimetic dependence on Indonesia and other nations for security She argues that Australia's complicity in the Indonesian invasion and occupation of East Timor perpetuated the sacrifice of the Timorese people as victims thus calling into question the traditional Australian values of egalitarianism and fairness Connelly also examines the embryonic conversion process apparent in levels of recognition of the innocent victim and of the Australian role in East Timor's suffering as well as the consequent effects on Australian self perception Emphasising Girardian considerations of fear suffering forgiveness and conversion this book offers a fresh perspective on Australian and Timorese relations that in turn sheds light on the origins and operations of human violence A Not-so-distant Horror Joseph Nevins, 2005 In his view much if not all of the horror that plagued East Timor in 1999 and in the 24 preceding years could have been avoided had countries like Australia Japan the United Kingdom and especially the United States not provided Indonesia with valuable political economic and military assistance as well as diplomatic cover **Human Rights in Twentieth-Century Australia** Jon Piccini, 2019-10-10 Human rights in Australia have a contested and controversial history the nature of which informs popular debates to this day International Terrorism Post-9/11 Asaf Siniver, 2010-04-05 This edited volume brings together both western and non western approaches to counter terrorism in the post 9 11 era This multi cultural study of counter terrorism strategies identifies common lessons from failed and successful attempts to counter the terrorist threat and provides guidelines for an effective counter terrorism strategy The book explores the changing dynamics of terrorism from a range of perspectives from the global threat posed by home grown terrorism in North Africa and the larger security dimensions in the Middle East to the various strategies employed by western and non western societies in their efforts to develop effective counter terrorism strategies Core themes in the book include the divergent dynamics of the phenomena categorised under the terrorism label and the domestic national and regional variants of international terrorism As such the book offers in depth analysis of the relationship between the local and the global both in the root causes of and responses to terrorism since 9 11 This book will be of much interest to students of terrorism and political violence security studies and IR Asaf Siniver is Lecturer in International Security in the Department of Political Science and International Studies at the University of Birmingham **Modern Genocide** Paul R. Resisting Violence and Victimization Joel Hodge, 2016-03-23 The reality and nature of religious faith raises difficult questions for the modern world questions that re present themselves when faith has grown under the most challenging circumstances In East Timor widespread Christian faith emerged when suffering and violence were inflicted on the people by the state This book seeks a deeper understanding of faith and violence exploring how Christian faith and solidarity affected the hope and resistance of the East Timorese under Indonesian occupation in their response to state sanctioned violence Joel Hodge argues for an understanding of Christian faith as a relational phenomenon that provides personal and collective tools to resist violence Grounded in the work of mimetic theorist Ren Girard Hodge contends that the experience of victimisation in East Timor led to an important identification with Jesus Christ as self giving victim and formed a distinctive communal and ecclesial solidarity The Catholic

Church opened spaces of resistance and communion that allowed the Timorese to imagine and live beyond the violence and death perpetrated by the Indonesian regime Presenting the East Timorese stories under occupation and Girard s insights in dialogue this book offers fresh perspectives on the Christian Church s ecclesiology and mission **Australia and the Insular Imagination** S. Perera,2009-10-26 This book maps the seascape borders of Australia s insular imagination It explores how the boundaries and contours of the nation were made and remade in the first years of the war on terror offering a striking reassessment of the territoriality of the island continent **Narrative of Denial** Peter Job,2021-06-01 The Indonesian invasion of East Timor in 1975 led to a prolonged conflict severe human rights abuses and a large loss of life From 1975 to 1983 the Indonesian military s campaign of encirclement and annihilation destroyed rural food resources creating the famine that took most of the lives lost during the occupation The Australian governments of Gough Whitlam and Malcolm Fraser presented themselves as advocates for human rights and the international rule of law while viewing relations with Indonesia as key to their foreign policy objectives These positions came into conflict due to the Indonesian invasion of East Timor Based upon an extensive study of Australian foreign affairs archives as well as interviews A Narrative of Denial demonstrates how the Australian government responded to the conflict by propagating a version of events that denied the reality of the catastrophe occurring in East Timor It worked to protect the Suharto regime internationally thereby allowing it to continue its repression relatively unhindered This remarkable story will unsettle existing perceptions of how Australia operates in world affairs **Zombie Myths of Australian Military History** Craig A. J. Stockings,2010 In this fascinating account leading Australian military historians tackle 10 of the most enduring historical zombies or national myths that have staggered their way through the halls of military history for more than 200 years From Aboriginal resistance and invasion to Australia s recent involvement in East Timor this record disproves the incorrectly memorialized and so called gallant deeds of past Australian servicemen Provocative and opinionated this record attempts to correct the historical record **Journalism and Conflict in Indonesia** Steve Sharp,2013 This book examines through the case study of Indonesia over recent decades how the reporting of violence can drive the escalation of violence and how journalists can alter their reporting practices in order to have the opposite effect and promote peace It discusses the nature of press freedom in Indonesia from 1966 onwards considers the relationship between the press and politicians and explores journalistse tm working methods It goes on to outline in detail the communal wars in eastern Indonesia in the period 1999 2000 arguing that communication as much as physical preparations for violence were key to bringing about the wars with journalistse tm rigid professional routines and newswriting conventions causing them to reproduce and enlarge the battle cries of those at war The book concludes by advocating a development communication approach to journalism in transitional settings in order to help journalists to counter the disintegrative tendencies of failing states and the communal strife that can result **Violence after War** Michael J. Boyle,2014-04-15 Developing a better understanding of the dynamics of violence in post war states can lead to a

more durable peace The end of one war is frequently the beginning of another because the cessation of conflict produces two new challenges a contest between the winners and losers over the terms of peace and a battle within the winning party over the spoils of war As the victors and the vanquished struggle to establish a new political order incidents of low level violence frequently occur and can escalate into an unstable peace or renewed conflict Michael J Boyle evaluates the dynamics of post conflict violence and their consequences in *Violence after War* In this systematic comparative study Boyle analyzes a cross national dataset of violent acts from 52 post conflict states and examines in depth violence patterns from five recent post conflict states Bosnia Rwanda Kosovo East Timor and Iraq In each of the case studies Boyle traces multiple pathways through which violence emerges in post conflict states and highlights how the fragmentation of combatants especially rebel groups produces unexpected and sometimes surprising shifts in the nature type and targets of attack His case studies are based on unpublished data on violent crime including some from fieldwork in Kosovo East Timor and Bosnia and a thorough review of narrative and witness accounts of the attacks The case study of Iraq comes from data that Boyle obtained directly from U S Central Command published here for the first time *Violence after War* will be essential reading for all those interested in political violence peacekeeping and post conflict reconstruction

Violence in the Name of God Joel Hodge, 2020-01-23

This book traces the trajectory of militant jihadism to show how violence is more intentionally embraced as the centre of worship social order and ideology Undertaking an in depth analysis of militant jihadist groups and utilising the work of Ren Girard Joel Hodge argues that the extreme violence of militant jihadists is a response to modernity in two ways that have not been sufficiently explored by the existing literature Firstly it is a manifestation of the unrestrained and escalating state of desire and rivalry in modernity which militant jihadists seek to counter with extreme violence Secondly it is a response to the unveiling and discrediting of sacred violence which militant jihadists seek to reverse by more purposefully valorising sacred violence in what they believe to be jihad Relevant to anyone interested in Islam philosophy of religion theology and terrorism *Violence in the Name of God* imagines new ways of thinking about militancy in the name of Islam in the twenty first century

Visiting the Neighbours Agnieszka Sobocinska, 2014-09-01 A million Australians went to Bali last year following the millions of others who have made their way across Asia over the past century Many travellers returned thinking they knew Asia and their personal experiences helped shape popular attitudes This absorbing book unpacks their experiences showing how their encounters changed the way Australians thought about themselves in the world *Visiting the Neighbours* tells the story of Australian relations with Asia from the bottom up examining the experiences of some of the millions of travellers and tourists who headed to the region over more than a hundred years Merchants missionaries pilgrims soldiers hippies diplomats backpackers all had an impact on diplomacy and international relations Agnieszka Sobocinska's book is a bold and important step in understanding the intersection between popular opinion prejudice and international relations as Australia stands at the precipice of the Asian Century Sets out a range of fascinating and different roles played by Australians in Asia

Michael Wesley author of *There Goes the Neighbourhood* Australia and the rise of Asia Puts travel to Asia firmly on the Asia literacy map This is not only a richly detailed subtly argued and historically informed study of the Australian traveller in Asia It is also smart sharp and a very good read David Walker BHP Billiton Chair of Australian Studies Peking University

To the Islands Paul Battersby, 2007-08-21 *To the Islands* offers a unique perspective on the evolution of economic social and political interconnections between Australia and its island region spanning two centuries from the early years of British colonization to the present day The book advances the argument that globalizing processes are drawing Australia incrementally closer to modern day South East Asia and the wider Asia Pacific While globalization is a term commonly associated with the twentieth century world this study traces the history of Australia's regionalisation back to the nineteenth century to the lived experiences of Australian travelers tourists prospectors mining entrepreneurs in the Netherlands Indies Malaya and Siam or Thailand as it is known today *To the Islands* challenges the orthodox view that Australia's relations with its regional neighbors were insignificant before the outbreak of war in the Pacific in 1941 By the early 1900s Java was a popular tourist destination for Australians while Malaya and Siam were emerging as major Australian foreign investment destinations In placing economic and social interactions ahead of political and security concerns in the analysis of Australia's regional relations the book highlights the role of non state actors and people to people connections in shaping the contours of Australian diplomatic engagement with South East Asia and the South West Pacific *To the Islands* is an essential book for advanced students and researchers of the history and politics of the Asia Pacific and Australia

Overcoming Obstacles to Peace James Dobbins, 2013 This volume analyzes the impediments that local conditions pose to successful outcomes of nation building interventions in conflict affected areas Previous RAND studies of nation building focused on external interveners activities This volume shifts the focus to internal circumstances first identifying the conditions that gave rise to conflicts or threatened to perpetuate them and then determining how external and

local actors were able to modify or work around them to promote enduring peace It examines in depth six varied societies Cambodia El Salvador Bosnia and Herzegovina East Timor Sierra Leone and the Democratic Republic of the Congo It then analyzes a larger set of 20 major post Cold War nation building interventions The authors assess the risk of renewed conflict at the onset of the interventions and subsequent progress along five dimensions security democratization government effectiveness economic growth and human development They find that transformation of many of the specific conditions that gave rise to or fueled conflict often is not feasible in the time frame of nation building operations but that such transformation has not proven essential to achieving the primary goal of nation building establishing peace Most interventions in the past 25 years have led to enduring peace as well as some degree of improvement in the other dimensions assessed The findings suggest the importance of setting realistic expectations neither expecting nation building operations to quickly lift countries out of poverty and create liberal democracies nor being swayed by a negative stereotype of nation building that does not recognize its signal achievements in the great majority of cases Page 4 of cover *Reflections on War, Diplomacy, Human Rights and Liberalism* Adam Hughes Henry, 2020-12-01 For most people the idea that extremist ideologies glorify themselves through warfare and commit crimes against humanity and genocide is the natural extension of their moral and philosophical failings As this volume outlines liberal democracies such as Australia and others also glorify in war and they may also at various times engage in support or turn a blind eye to crimes against humanity or genocide However liberal democracies such as Australia the US and the UK among others routinely present themselves as arbiters of liberal values defenders of human rights and guardians of virtue This book explores the obvious contradiction between the ideals of liberalism and how liberal democracies ignore and at times even justify their failure to uphold the principles they espouse
