Rem Koolhaas:

Delirious New York Rem Koolhaas, 2014-07-01 Since its original publication in 1978 *Delirious New York* has attained mythic status. Back in print in a newly designed edition, this influential cultural, architectural, and social history of New York is even more popular, selling out its first printing on publication. Rem Koolhaas's celebration and analysis of New York depicts the city as a metaphor for the incredible variety of human behavior. At the end of the nineteenth century, population information and technology explosions made Manhattan a laboratory for the invention and testing of a metropolitan lifestyle: the culture of congestion and its architecture. Manhattan, he writes, is the 20th century's Rosetta Stone, occupied by architectural mutations: Central Park, the Skyscraper, utopian fragments, Rockefeller Center, the UN Building, and irrational phenomena. Radio City Music Hall, Koolhaas interprets and reinterprets the dynamic relationship between architecture and culture in a number of telling episodes of New York's history, including the imposition of the Manhattan grid, the creation of Coney Island, and the development of the skyscraper. *Delirious New York* is also packed with intriguing and fun facts and illustrated with witty watercolors and quirky archival drawings, photographs, postcards, and maps. The spirit of this visionary investigation of Manhattan equals the energy of the city itself.

Countryside Rem Koolhaas, AMO., 2020 From animals to robotization, climate change to migration, Rem Koolhaas presents a new collaborative project exploring how countryside everywhere is transforming beyond recognition. The pocketbook gathers in depth essays spanning from Fukushima to the Netherlands, Siberia to Uganda, an urgent dispatch from this long neglected realm revealing its radical potential for changing everything about how we live.

Rem Koolhaas/OMA Roberto Gargiani, 2008-01-01 *Projekter og bygninger af den hollandske arkitekt Rem Koolhaas og de vrige medlemmer af OMA gennemgås i kronologisk orden*

Rem Koolhaas/OMA Rem Koolhaas, Francisco Asensio Cervera, Aurora Cuito, Office for Metropolitan Architecture, 2002 Rem Koolhaas Rotterdam 1944 studied architecture at the AA in London where he went on to become a lecturer and at the IAUS in New York during Peter Eisenman's time there. Koolhaas has always been connected with the theory of architecture as lecturer at the innovative AA, as a speaker, and with his published work *Delirious New York*, a retrospective manifesto for Manhattan 1978 and the recent *S M L XL* 1995. In 1972 Koolhaas set up the OMA Office for Metropolitan Architecture, whose name clearly expresses the planning intentions of the team comprising Koolhaas, Elia and Zoe Zenghelis, and Madelon Vriessendorp.

Junkspace with Running Room Rem Koolhaas, Hal Foster, 2016-09-13 *Junkspace* first appeared in the Harvard Design School *Guide to Shopping* 2001, a vast compendium of text, images, and data concerning the consumerist transformation of city and suburb from the first department store to the latest mega mall. The architect Rem Koolhaas itemized in *delirious* detail how our cities are being overwhelmed. His celebrated jeremiad is updated here and twinned with *Running Room*, a fresh response from the cultural critic Hal Foster. *Junkspace* describes the bleak and featureless world of capitalism while *Running Room* seeks to find a space within the junk in which the individual might still exist.

and the city that remain significant today **Oswald Mathias Ungers and Rem Koolhaas** Lara Schrijver, 2021-10-07
Lara Schrijver examines the work of Oswald Mathias Ungers and Rem Koolhaas as intellectual legacy of the 1970s for
architecture today Particularly in the United States this period focused on the autonomy of architecture as a correction to the
social orientation of the 1960s Yet these two architects pioneered a more situated autonomy initiating an intellectual
discourse on architecture that was inherently design based Their work provides room for interpreting social conditions and
disciplinary formal developments thus constructing a plausible relationship between the two that allows the life within to
flourish and adapt In doing so they provide a foundation for recalibrating architecture today *OMA-Rem Koolhaas*
