trying to remove some of the incorrect reporting putting the record straight based on evidence How many have been shot down and where The book then looks at strategic uses of drones at present Iran is being monitored they are already in action over parts of Africa what are other countries doing China Iran Turkey The RAF s use of drones their deployment and operations is considered along with important questions such as where this goes for the future What are the issues Will all air forces be drone based in the future What other applications may arise in the civilian market **The World's Work** ,1915
