

A dramatic landscape photograph featuring a narrow, sandy path that leads from the foreground into a deep canyon. The canyon walls are steep and rugged, with dark, textured rock faces. In the distance, a bright sunset or sunrise is visible through the opening of the canyon, casting a warm, golden glow. The sky is filled with soft, wispy clouds. The overall mood is contemplative and serene.

**The Remembered Dead** Sally Minogue, Andrew Palmer, 2018-05-31

The Remembered Dead explores the ways poets of the First World War and later poets writing in the memory of that war address the difficult question of how to remember and commemorate those killed in conflict. It looks closely at the way poets struggled to meaningfully represent dying death and the trauma of witness while responding to the pressing need for commemoration. The authors pay close attention to specific poems while maintaining a strong awareness of literary and philosophical contexts. The poems are discussed in relation to modernism and myth, other forms of commemoration, photographs, memorials, and theories of cultural memory. There is fresh analysis of canonical poets which at the same time challenges the confines of the canon by integrating discussion of lesser-known figures including non-combatants and poets of later decades. The final chapter reaches beyond the war's centenary in a discussion of one remarkable commemoration of Wilfred Owen.
