Remembering The Days An Illustrated History Of The University:

A History of the University of South Carolina, 1940-2000 Henry H. Lesesne, 2001 Describes the transformation of one of the nation's oldest public institutions of higher learning into a modern research university The history of the modern University of South Carolina originally chartered as South Carolina College in 1801 describes the significant changes in the state and in the character of higher education in South Carolina World War II the civil rights struggle and the revolution in research and South Carolina's economy transformed USC from a small state university in 1939 with a student body of less than 2 000 and an annual budget of 725 000 to a 1990 population of more than 25 000 and an annual budget of 454 million Then the University was little more than a small liberal arts college today the university is at the head of a statewide system of higher education with eight branch campuses Henry H Lesesne recounts the historic transformation of USC into a modern research university grounding that change in the context of the modernization of South Carolina and the South in general The half century from 1940 to 1990 wrought great changes in South Carolina and its most prominent university State and national politics the challenges of funding modern higher educations and the explosive growth of intercollegiate sports are among other elements of the University that were transformed Lesesne describes with candor and impressive research how the University of South Carolina and indeed all of the state's higher education system emerged from a past limited by racism and poverty and began to measure its aspirations by national educational standards

The Power of the Plan Richard F. Galehouse, 2019-07-01 The history and future of the unique partnership between the City of Columbia and the University of South Carolina State universities are more than just places of higher learning more indeed than just campuses or buildings and more than just students scurrying from class to class They are a symbol of the future of the nation and a statement about the commitment the sponsoring state has made to its people In turn each city or town that hosts develops and nurtures these institutions recognizes that it holds within the community one of the more precious jewels in a state's crown So it is with the city of Columbia and the University of South Carolina Richard F Galehouse has been involved in the university's master planning work for more than twenty five years making him more than qualified to take a lapidary look not only at the present and unfolding plans for the university but also at the historic path that has brought it to its current luster Encompassing its earliest days as Columbia College in 1801 almost two decades before Thomas Jefferson's University of Virginia the devastating effects of the Civil War the crisis years between 1861 and 1915 when the institution was closed twice and reorganized five times and some bungled urban planning in the 1950s and 60s Galehouse's candid examination details the growth of the university and speaks hopefully about its present and its future The city of Columbia and the University of South Carolina are unique in how they were designed to grow together yet cosmopolitan in how they

grapple collectively with the challenges and difficulties of combining the city's needs with the university's to create a symbiotic but nevertheless holistic community. The plan for this meeting of minds and needs is the meat of this narrative. The original and iconic Horseshoe grid of the city is echoed in the Innovista master plan outlined here which will create in the city a shining setting for the university, one of its own most highly prized treasures. A foreword is provided by Patrick L. Phillips, global chief executive officer of the Urban Land Institute 2009-2018 and an instructor at the Harvard Graduate School of Design Executive Education Program and at the Carey Business School at Johns Hopkins University.

Abolitionists Remember Julie Roy Jeffrey, 2012-02-01. In *Abolitionists Remember*, Julie Roy Jeffrey illuminates a second little-noted antislavery struggle as abolitionists in the postwar period attempted to counter the nation's growing inclination to forget why the war was fought, what slavery was really like, and why the abolitionist cause was so important. In the rush to mend fences after the Civil War, the memory of the past faded, and turned-romantic slaves became quaint owners, kindly and the war itself a noble struggle for the Union. Jeffrey examines the autobiographical writings of former abolitionists such as Laura Haviland, Frederick Douglass, Parker Pillsbury, and Samuel J. May, revealing that they wrote not only to counter the popular image of themselves as fanatics but also to remind readers of the harsh reality of slavery and to advocate equal rights for African Americans in an era of growing racism, Jim Crow, and the Ku Klux Klan. These abolitionists, who went to great lengths to get their accounts published, challenged every important point of the reconciliation narrative, trying to salvage the nobility of their work for emancipation and African Americans and defending their own participation in the great events of their day. **Journal of Library History, Philosophy, and Comparative Librarianship**, 1987 **A Legacy of Caring** Lois J. Widing, Carol A. Williams, 2006 *Feminist Education*, 1985 The South Carolina Librarian, 1982.

Baseball and Rhetorics of Purity Michael L. Butterworth, 2010-08-13. Butterworth argues that baseball cannot be viewed as an innocent diversion or escape and that by promoting myths of citizenship and purity post-9/11 discourse

concerning baseball ironically threatens the health of the democratic system Instead he highlights how the game on the field reflects a more complex and diverse worldview and he makes a plea for the game s recovery both as a national pastime and as a site for celebrating the best of who we are and who we can be Book Jacket *Power to the People* Audrey Kurth Cronin,2020 Never have so many possessed the means to be so lethal The diffusion of modern technology robotics cyber weapons 3 D printing autonomous systems and artificial intelligence to ordinary people has given them access to weapons of mass violence previously monopolized by the state In recent years states have attempted to stem the flow of such weapons to individuals and non state groups but their efforts are failing Based on hard lessons from previous waves of weapons technology such as dynamite and the assault rifle *Power to the People* explains what the future may hold and how we should respond *Two-Gun Cohen* Daniel S.
