Christians find a theological scientific debate about creation's ancient origins far more engaging than a speech about how to live responsibly in the creation today. Are we more fascinated by academic debates that focus our gaze on what happened long ago than by the hands-on discussions that focus our gaze on the world of wonders outside our windows right now? In *Remember Creation*, Scott Hoezee challenges readers to make today's world more central to the Christian faith by enjoying and preserving God's cosmos as a part of daily discipleship. Solidly grounded in a wealth of Scripture passages, this book reveals God's ecology of praise which all Christians should want to explore and preserve. Throughout the book, Hoezee also offers suggestions to help congregations, families, and all Christians to take more delight in God's world while working to keep alive the wonders that bring God joy. Scott Hoezee adds a refreshing new twist to the discussion on the environment. Shouldn't we start by simply enjoying creation and honoring it for what it is? With illustrations both biblical and personal, Hoezee makes a compelling case. Philip Yancey

Exorcism and Deliverance William K. Kay, Robin Parry, 2011-04-01 A significant examination of exorcism and deliverance from a range of disciplines focuses on an important but often neglected area of the church's mission to the world. The diversity of essays makes sure that every facet is presented to encourage the reader thoroughly to consider this aspect of the church's approach to evil in our society. Since Jesus of Nazareth made exorcism a cornerstone of his own ministry, the Church has seen itself as engaged in a battle against the demonic. Exorcism has continued to play a role throughout Christian history in this conflict, although it has received different emphases in different times and places and has been practiced in a range of different ways. *Exorcism and Deliverance* aims to shed new light on the phenomena of possession and exorcism by looking at them from a range of disciplinary perspectives.
