Rereading the Harlem Renaissance Sharon L. Jones, 2002-12-30 African American writers of the Harlem Renaissance generally fall into three aesthetic categories the folk which emphasizes oral traditions African American English rural settings and characters from lower socioeconomic levels the bourgeois which privileges characters from middle class backgrounds and the proletarian which favors overt critiques of oppression by contending that art should be an instrument of propaganda Depending on critical assumptions regarding what constitutes authentic African American literature some writers have been valorized others dismissed This rereading of the Harlem Renaissance gives special attention to Fauset Hurston and West Jones argues that all three aesthetics influence each of their works that they have been historically mislabeled and that they share a drive to challenge racial class and gender oppression The introduction provides a detailed historical overview of the Harlem Renaissance and the prevailing aesthetics of the period Individual chapters analyze the works of Hurston West and Fauset to demonstrate how the folk bourgeois and proletarian aesthetics figure into their writings The volume concludes by discussing the writers in relation to contemporary African American women authors

LaShawn Harris, 2016-06-15 During the early twentieth century a diverse group of African American women carved out unique niches for themselves within New York City's expansive informal economy LaShawn Harris illuminates the labor patterns and economic activity of three perennials within this kaleidoscope of underground industry sex work numbers running for gambling enterprises and the supernatural consulting business Mining police and prison records newspaper accounts and period literature Harris teases out answers to essential questions about these women and their working lives She also offers a surprising revelation arguing that the burgeoning underground economy served as a catalyst in working class black women's creation of the employment opportunities occupational identities and survival strategies that provided them with financial stability and a sense of labor autonomy and mobility At the same time urban black women all striving for economic and social prospects and pleasures experienced the conspicuous and hidden dangers associated with newfound labor opportunities

Spiritual, Blues, and Jazz People in African American Fiction A. Yemisi Jimoh, 2002 In this book A Yemisi Jimoh demonstrates the critical influence of music on the fiction of various twentieth century African American writers Exploring novels and short stories by Toni Morrison John Edgar Wideman Zora Neale Hurston James Baldwin Ralph Ellison and others Jimoh shows how black musical traditions specifically Spirituals Blues and Jazz are used to shape characterizations and thematic content and to evince ideas emotions and experiences The author's analysis situates the literary texts she discusses within the diverse social energies of their times and locates important intersections where music history politics and literature meet Jimoh carefully distinguishes among the different musical forms and shows how in fiction they are transformed into rich metaphors She explains for example how characters and themes drawing on the Spiritual Gospel tradition de-emphasize human agency depicting earthly survival as a transitory state and heavenly triumph as a victory By contrast in Blues fiction characters must often negotiate an environment of alienation change and uncertainty in

order to achieve a more earthly triumph even if that triumph is only survival Jazz fiction meanwhile goes beyond Blues and Spiritual expressions to explore new realms revealing a space for infinite options radical change resistance and revolution This innovative book examines novels that have not previously received extensive attention including Albert Murray s *Train Whistle Guitar* Wallace Thurman s *The Blacker the Berry* and Ann Petry s *The Street* At the same time it brings fresh and intriguing readings to such widely studied works as Ellison s *Invisible Man* and Morrison s *Sula* Finally it suggests some exciting directions for future study as new generations of African American musicians and writers continue to develop and expand on established traditions and forms

The Author A Yemisi Jimoh is an associate professor of English at the University of Arkansas Fayetteville Her articles have appeared in *African American Review* *Contemporary African American Novelists* and other publications
