Argentina's Parallel Currency Georgina M Gomez, 2015-10-06

Analyzes the rise and fall of the Red de Trueque launched in 1995 by a group of environmentalists who exchanged goods and services at their own market using a system of mutual credit in Argentina This book identifies rules of governance and sustainability for institutional settings in which state regulation is minimal **Falling Behind**, Falling Behind Francis Fukuyama, 2008-08-11 In 1700 Latin America and British North America were roughly equal in economic terms Yet over the next three centuries the United States gradually pulled away from Latin America and today the gap between the two is huge Why did this happen Was it culture Geography Economic policies Natural resources Differences in political development The question has occupied scholars for decades and the debate remains a hot one In Falling Behind Francis Fukuyama gathers together some of the world's leading scholars on the subject to explain the nature of the gap and how it came to be Tracing the histories of development over the past four hundred years and focusing in particular on the policies of the last fifty years the contributors conclude that while many factors are important economic policies and political systems are at the root of the divide While the gap is deeply rooted in history there have been times when it closed a bit as a consequence of policies chosen in places ranging from Chile to Argentina Bringing to light these policy success stories Fukuyama and the contributors offer a way forward for Latin American nations and improve their prospects for economic growth and stable political development Given that so many attribute the gap to either vast cultural differences or the consequences of U S economic domination Falling Behind is sure to stir debate And given the pressing importance of the subject in light of economic globalization and the immigration debate its expansive in depth portrait of the hemisphere's development will be a welcome intervention in the conversation **Mobilizing Resources in Latin America** O. Sanchez, 2011-07-04 This book seeks to expand analytically on standard institutionalist accounts of taxation by bringing into the explanatory framework the importance of institutional strength not just design as well as informal institutions in addition to formal ones for policy reform

El orden conservador Natalio R. Botana, 2023-08-24 El orden conservador es un hito en la historiografía argentina Es el libro que analiza y explica definitivamente un período clave de la política nacional el que va de 1880 a 1916 Hasta el momento de su publicación se descontaba que en esos años había comenzado la Argentina moderna Y se intuían una serie de razones para tal transformación Certezas dispersas valiosas aproximaciones aunque no una interpretación cabal y exhaustiva Podría decirse que Natalio R Botana emprendió la tarea de volver inteligible una época tan rica como compleja marcado por el progreso El proceso histórico de esta transformación impactar como es natural en la sociedad y en el desarrollo del Estado Durante más de tres décadas la dialéctica entre la reforma y la conservación del sistema político heredado signar el país Al mismo tiempo llegan oleadas de inmigrantes se amplían los derechos cívicos y se incrementa la conflictividad social Nació otro país aunque en aquel momento quizás esto no fuera tan claro como ahora En esta coyuntura que incluye crisis avances y

retrocesos a veces dramáticos. Cú l fue el papel de los sucesivos presidentes. Cómo fueron las relaciones entre la joven administración nacional y las provincias. Qué negociaciones entró la búsqueda de un equilibrio que permitiera el buen gobierno. Cú les fueron las disputas dentro de la elite gobernante. Hubo una elite o hubo un juego de hegemonías cambiantes. Cada una de estas preguntas implica actores políticos alianzas y rupturas ideas en pugna. El resultado ser entre otras cosas un país con un nuevo perfil productivo un lugar preminente en el mundo un sistema federal renovado y la sanción de la llamada Ley Sáenz Peña de voto obligatorio para los hombres. También el fin de una era porque tras 1916 los conservadores como partido organizado no volverían a gobernar. El orden conservador devela ese mapa y permite entender una trama que involucra fuerzas políticas ambiciones sociales oportunidades económicas. Libro mayor esta es su edición definitiva e incluye un nuevo posfacio que analiza las contribuciones que otros investigadores han hecho al mejor entendimiento de un momento clave de nuestra historia.

Violence in Argentine Literature and Film (1989-2005) Elizabeth Montes Garcés, Carolina Rocha, 2010. Why has violence been a predominant topic in contemporary Argentine film and literature? What conclusions can be drawn from the dissemination of violent images and narratives that depict violence in Argentina? In Argentina the problem of violence is rooted in the country's long experience with authoritarian rule as well as in more recent trends such as the weakening of the state and the rule of law brought about by neoliberal reforms. The eleven essays that make up *Violence in Argentine Literature and Film 1989-2005* seek to interpret and analyze the extent to which violence communicates structural inequalities or lines of fissure in contemporary Argentina resulting from the transformations that the state the economy and society in general have experienced during the past two decades. Applying a variety of critical approaches the contributors explore violence in Argentine cultural productions as it relates to four broad themes: the body as site of physical violence the legacies of Argentina's authoritarian past the collapse of the myth of the Argentine nation and the current battles over how to define particular social and geographical places in the context of an increasingly violent society. *Cambiando* Mario

Riorda, 2016-12-01. La Argentina que volví a empezar otra vez como si se tratara de un pronóstico infalible esperaba un ensayo que pudiera desentrañarla. Mario Riorda elaboró un texto a la altura de su trayectoria y actualidad como profesor y director de posgrados en universidades prestigiosas del continente y como consultor de gobiernos y partidos políticos en América Latina. Con las cualidades que se le reconocen profundidad agudeza y estilo. Este trabajo toma los hechos argentinos de este tiempo piensa las tendencias internacionales e intenta categorizar el escenario político. Por eso el foco está en *Cambiemos*. Analiza el presente desde una mirada que combina la comunicación política y la ciencia política. Y rescata el pasado para que pueda ayudar a explicar la coyuntura y sea posible proyectar el futuro. Pretende generar discusiones pero por sobre todas las cosas piensa hacer preguntas y cuando el círculo cierra de manera perfecta saca conclusiones. Sobre los contrastes de discursos los argumentos y las formas. Sobre las grandes tendencias internacionales y nacionales que modelan la acción política que la condicionan y la determinan. Sobre cómo caracterizar la alianza gobernante. La revolución de la alegría no llegó pero algo podrá
