*Requiem to a Republic* Ronald Runge, 2003-03-23 A refreshing depiction of America as seen through the eyes of a young Midwesterner Carl Steiner and how he views school girls religion the Army and growing up in a traumatic time The story begins with America s entry into World War II and covers the world as Carl sees it up to and including the presidential tenure of Bill Clinton Carl views these events as a man who represents a diminishing group of American citizens who always put America first last and always They understand America s founders gift a unique Republic unduplicated anywhere based on the individual s freedom and the freedom of the market place The story relates how over a short period of years the fabric of the Republic has been rent and torn by greedy election at all costs politicians and their news media labor and big business handlers by an increasing population of un caring and un knowing kept voters who have no conception of what their freedoms are and that they are voting them away and by self styled elites who think they know better how you should live and think and what is in your best interest These elites have taken over and occupied American schools foundations and bureaucracies Carl finds at crucial moments in our history some Americans provide that spark that courage and that individualism which gives us a safety net for the Republic even as she is licking her wounds [Catalog of Copyright Entries.](#)
