**The Second Battle of New Orleans** William E. Borah, Lloyd Sensat, Louisiana Landmarks Society, 1994      **The Second Battle of New Orleans** Richard O. Baumbach, William E. Borah, 1981      **Massive Resistance and Southern Womanhood** Rebecca Brückmann, 2021-01-01 Massive Resistance and Southern Womanhood offers a comparative sociocultural and spatial history of white supremacist women who were active in segregationist grassroots activism in Little Rock New Orleans and Charleston from the late 1940s to the late 1960s Through her examination Rebecca Brückmann uncovers and evaluates the roles actions self understandings and media representations of segregationist women in massive resistance in urban and metropolitan settings Brückmann argues that white women were motivated by an everyday culture of white supremacy and they created performative spaces for their segregationist agitation in the public sphere to legitimize their actions While other studies of mass resistance have focused on maternalism Brückmann shows that women's invocation of motherhood was varied and primarily served as a tactical tool to continuously expand these women's spaces Through this examination she differentiates the circumstances tactics and representations used in the creation of performative spaces by working class middle class and elite women engaged in massive resistance Brückmann focuses on the transgressive street politics of working class female activists in Little Rock and New Orleans that contrasted with the more traditional political actions of segregationist middle class and elite women in Charleston who aligned white supremacist agitation with long standing experience in conservative women's clubs including the United Daughters of the Confederacy and the Daughters of the American Revolution Working class women's groups chose consciously transgressive strategies including violence to elicit shock value and create states of emergency to further legitimize their actions and push for white supremacy      Divided Highways Tom Lewis, 2013-04-19 In Divided Highways Tom Lewis offers an encompassing account of highway development in the United States In the early twentieth century Congress created the Bureau of Public Roads to improve roads and the lives of rural Americans The Bureau was the forerunner of the Interstate Highway System of 1956 which promoted a technocratic approach to modern road building sometimes at the expense of individual lives regional characteristics and the landscape With thoughtful analysis and engaging prose Lewis charts the development of the Interstate system including the demographic and economic pressures that influenced its planning and construction and the disputes that pitted individuals and local communities against engineers and federal administrators This is a story of America's hopes for its future life and the realities of its present condition It is an engaging history of the people and policies that profoundly transformed the

American landscape and the daily lives of Americans In this updated edition of *Divided Highways* Lewis brings his story of the Interstate system up to date concluding with Boston's troubled and yet triumphant Big Dig project the growing antipathy for big federal infrastructure projects and the uncertain economics of highway projects both present and future

**Race and Education in New Orleans** Walter Stern, 2018-05-04 Surveying the two centuries that preceded Jim Crow's demise *Race and Education in New Orleans* traces the course of the city's education system from the colonial period to the start of school desegregation in 1960 This timely historical analysis reveals that public

schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century Walter C Stern begins his account with the mid eighteenth century kidnapping and enslavement of Marie Justine Sirnir who eventually secured her freedom and played a major role in the development of free black education in the Crescent City As Sirnir s story and legacy illustrate schools such as the one she envisioned were central to the black antebellum understanding of race citizenship and urban development Black communities fought tirelessly to gain better access to education which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo even as they conceded to demands from the black community for expanded educational opportunities The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth when conflicts over land and resources sharply intensified Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation s capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history Race and Education in New Orleans provides a comprehensive look at the ways the New Orleans school system shaped the city s racial and urban landscapes

**Katrina** Andy Horowitz, 2020-07-07 Winner of the Bancroft Prize Louisiana Endowment for the Humanities Book of the Year A Publishers Weekly Book of the Year The main thrust of Horowitz s account is to make us understand Katrina the civic calamity not the storm itself as a consequence of decades of bad decisions by humans not an unanticipated caprice of nature Nicholas Lemann New Yorker Hurricane Katrina made landfall in New Orleans on August 29 2005 but the decisions that caused the disaster can be traced back nearly a century After the city weathered a major hurricane in 1915 its Sewerage and Water Board believed that developers could safely build housing near the Mississippi on lowlands that relied on significant government subsidies to stay dry When the flawed levee system failed these were the neighborhoods that were devastated The flood line tells one important story about Katrina but it is not the only story that matters Andy Horowitz investigates the response to the flood when policymakers made it easier for white New Orleanians to return home than for African Americans He explores how the profits and liabilities created by Louisiana s oil industry have been distributed unevenly prompting dreams of abundance and a catastrophic land loss crisis that continues today Masterful Disasters have the power to reveal who we are what we value what we re willing and unwilling to protect New York Review of Books If you want to read only one book to better understand why people in positions of power in government and industry do so little to address climate change even with wildfires burning and ice caps melting and extinctions becoming a daily occurrence this is the one Los Angeles Review of Books

**Desire and Disaster in New Orleans** Lynnell L. Thomas, 2014-08-25 Most of the narratives packaged for New Orleans s many tourists cultivate a desire for black culture jazz cuisine dance while simultaneously targeting black people and their communities as sources and sites of political social and natural disaster In this timely book the Americanist and New Orleans native Lynnell L Thomas delves into the relationship between tourism cultural production and racial politics She carefully interprets the racial narratives

embedded in tourism websites travel guides business periodicals and newspapers the thoughts of tour guides and owners and the stories told on bus and walking tours as they were conducted both before and after Katrina She describes how with varying degrees of success African American tour guides tour owners and tourism industry officials have used their own black heritage tours and tourism focused businesses to challenge exclusionary tourist representations Taking readers from the Lower Ninth Ward to the White House Thomas highlights the ways that popular culture and public policy converge to create a mythology of racial harmony that masks a long history of racial inequality and structural inequity The Second Battle of the Alamo Judy Alter, Debra L. Winegarten, 2020-01-10 By 1900 the tale of the 300 Texians who died in the 1836 battle of the Alamo had already become legend But to corporate interests in the growing City of San Antonio the land where that blood was shed was merely a desirable plot of land across the street from new restaurants and hotels with only a few remaining crumbling buildings to tell the tale When two women Adina Emilia De Zavala the granddaughter of the first vice president of the Texas Republic and Clara Driscoll the daughter of one of Texas's most prominent ranch families and first bankers learned of the plans they hatched a plan to preserve the site and in doing so they reinvigorated both the legend and lore of the Alamo and cemented the site's status as hallowed ground These two strong willed pioneering women were very different but the story of how they banded together and how the Alamo became what it is today despite those differences is compelling reading for those interested in Texas history and Texas's larger than life personality *After the Education Wars* Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers *After the Education Wars* helps us to see a better way forward Cathy N Davidson The New York Times Book Review *After the Education Wars* is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world *After the Education Wars* explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform *After the Education Wars* makes

clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

**The Crisis**, 1961-01 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens

*Inside the Carnival* Wayne Parent, 2006-09-01 With both an entertainer's eye and a social scientist's rigor Wayne Parent subjects Louisiana's politics to rational and empirical analysis seeking and finding coherent reasons for the state's well known unique history He resists resorting to vague hand waving about exoticism while at the same time he brings to life the juicy stories that illustrate his points Parent's main theme is that Louisiana's ethnic mix natural resources and geography define a culture that in turn produces its unique political theater He gives special attention to immigration patterns and Louisiana's abundant supply of oil and gas as well as to the fascinating variations in political temperaments in different parts of the state Most important he delivers thorough and concise explanations of Louisiana's unusual legal system odd election rules overwrought constitutional history convoluted voting patterns and unmatched record of political corruption In a new epilogue Parent discusses how the hurricanes of 2005 will affect state politics and politicians as Louisiana struggles to regain its footing in the New South
