On the Line Eileen Edwards,2016-10-14 ON THE LINE is a detailed autobiography written by Eileen Edwards about her tennis officiating career presented almost in diary format over four decades from 1972 Eileen tells of her initial interest in tennis when in 1987 she joined the British Tennis Umpires Association BTUA This game set and match narrative continues through until 2012 with the Association of British Tennis Officials ABTO as a top tennis official and having served as a member of the Committee of Management Eileen wrote everything down with meticulous detail throughout her distinguished officiating career reminiscing details of matches she officiated including pro celebrity tournaments and several conversations with officials players royalty celebrities and her beloved Cliff Richard What you do find in this book is a very revealing account of the tennis officiating industry You also get the distinct feeling that writing the book was actually cathartic for Eileen putting her concerns to print and righting some wrongs with those within the industry Her book reads like the history of British tennis over the last four decades and it is a revealing account of the camaraderie favouritism in fighting and back biting within the tennis association Sadly Eileen s exceptional and eventful career was tinged with bitterness and seems sad that her fantastic experiences and years of devotion to the tennis association would end in such a way There are stories she tells that will shock you However with her three children also as top tennis officials there are plenty of amusing stories Eileen

tells that will make you laugh and even the odd words with her and her children s wonderful sense of humour and fun This book is a really interesting read for any tennis aficionado *BOOK REFERENCE: COLLECTION OF INTERNATIONAL JOURNAL RESULTS OF SPORTS AND PHYSICAL EDUCATION RESEARCH YEARS 2021* Tomoliyus,Irmantara Subagio, Buku ini dipersiapkan terutama untuk mahasiswa Fakultas Ilmu Keolahragaaan dan Fakultas Pendidikan Jasmani dan Olahraga yang sedang menulis Skripsi Tesis dan Desertasi karena sepanjang pengalaman penulis dalam membimbing skripsi Tesis dan Desertasi banyak mahasiswa yang mengeluh dan kesulitan mencari jurnal international sebagai referensi Mechanical Choices Michael S. Moore,2020-05-08 Mechanical Choices details the intimate connection that exists between morality and law the morality we use to blame others for their misdeeds and the criminal law that punishes them for these misdeeds This book shows how both law and morality presuppose the accuracy of common sense a centuries old psychology that defines people as rational agents who make honorable choices and act for just reasons It then shows how neuroscience is commonly taken to challenge these fundamental psychological assumptions Such challenges four in number are distinguished from each other by the different neuroscientific facts from which they arise the fact that human choices are caused by brain events the fact that those choices don t cause the actions that are their objects but are only epiphenomenal to those choices the fact that those choices are identical to certain physical events in the brain and the fact that human subjects are quite fallible in their knowledge of what they are doing and why The body of this book shows how such challenges are either based on faulty facts or misconceived as to the relevance of such facts to responsibility The book ends with a detailed examination of the neuroscience of addiction an examination which illustrates how neuroscience can help rather than challenge both law and morality in their quest to accurately define excuses from responsibility The Cambridge Review ,1890 Vols 1 26 include a supplement The University pulpit vols 1 26 no 1 661 which has separate pagination but is indexed in the main vol **The Leatherneck** ,1963
