French Blockbusters Michael Charlie Michael, 2019-07-17 The digitised spectacles conjured by a word like blockbuster may create a certain cognitive dissonance with received ideas about French cinema long celebrated as a model for philosophical economic and aesthetic resistance to globalised popular culture While the Gallic cultural exception remains a forceful current to this day this book shows how the onslaught of Hollywood mega franchises and new media platforms since the 1980s has also provoked an overtly commercialised response from French producers eager to redefine the stakes and scope of their own traditions From English language action vehicles like Valrian and the City of a Thousand Planets Besson 2017 to revisionist historical films like Of Gods and Men Beauvois 2011 and crowd pleasing comedies like Intouchables Toldano Nakache 2011 the variously filiated local blockbusters from contemporary France brim with the seeds of cultural contradiction but also with the energy of a forceful counter history Cutting across a swath of recent French produced cinema French Blockbusters offers the first book length consideration of the theoretical implications historical impact and cultural consequences of a recent grouping of popular films that are rapidly changing what it means to make or to see a French film today
