**Sex** Richard Togman, 2019-02-13 Government sponsored breeding programs medals of motherhood forced abortions and surgical sterilization on park benches all of these policies have come out of government efforts to nationalize sex and harness procreation as a tool of the state Over 170 countries or 85% of governments worldwide have active policies designed to manipulate the fertility of their citizenry with the aim of influencing the rate of growth of their populations While over 90% of least developed states are trying to combat population growth with policies designed to reduce fertility over two thirds of all developed countries are actively crafting legislation to increase their populations Despite over a hundred years of relative failure and innumerable studies questioning the viability and utility of government attempts to manipulate the fertility rate of the population as a whole the majority of governments worldwide continue to uphold and develop such policies What drives government to try to control how many children people will have Nationalizing Sex traces why population emerged as an object of governance and how natalist policy has changed over time and place using case studies from France Germany Russia India and China It analyzes the origins growth and development of fertility as a national and international political issue the rise and fall of the narratives used to ascribe meaning to natality and the global proliferation of oddly similar policies adopted by widely dissimilar states As importantly it explains why after hundreds of years countries continue to pursue natalist policy even though it has been such a widespread failure Infertility around the Globe Marcia Inhorn, Frank van Balen, 2002-05-30 This exceptional collection of essays breaks new ground by examining the global impact of infertility as a major reproductive health issue one that has profoundly affected the lives of countless women and men Based on original research by seventeen internationally acclaimed social scientists it is the first book to investigate the use of reproductive technologies in non Western countries Provocative and incisive it is the most substantial work to date on the subject of infertility With infertility as the lens through which a wide range of social issues is explored the contributors address a far reaching array of topics why infertility has been neglected in population studies how the deeply gendered nature of infertility sets the blame squarely on women s shoulders how infertility and its treatment transform family dynamics and relationships and the distribution of medical and marital power The chapters present informed and sophisticated investigations into cultural perceptions of infertility in numerous countries including China India the nations of sub Saharan Africa Vietnam Costa Rica Egypt Israel the United States and the nations of Europe Poised to become the quintessential reference on infertility from an international social science perspective Infertility around the Globe makes a powerful argument that involuntary childlessness is a complex phenomenon that has far reaching significance worldwide **Fertility, Family Planning and Population Policy in China** Chiung-Fang Chang, Che-Fu Lee, Sherry L. McKibben, Dudley L. Poston, Carol S. Walther, 2005-12-16 China s one child population policy first initiated in 1979 has had an enormous effect on the country s development By reducing its fertility in the past two decades to less than two children per woman and developing a family planning program focused heavily on sterilization and abortion China has undergone a significant transition in status to a

**Encyclopedia of Chinese History** Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture

**Women in the Face of Change** Annie Phizacklea, Hilary Pilkington, Shirin Rai, 2013-10-08 The years 1989 and 1990 will probably be best remembered for the speed and breadth of

political and economic change which swept through what used to be referred to as the Communist Bloc With the disintegration of this bloc there has been no shortage of western advice on how to democratize economy and politiy in these societies However little thought has been given to what this change means for the millions of women who have toiled for decades alongside men in the factories and fields as well as performing their womanly mission in the home This collection from women in Eastern and Western Europe and covering both Europe and China poses many questions about the impact of change It contributes to the debate that seeks to combat inertia and ethnocentrism within western feminism and also to the separate and the critical women s voice which is re emerging in the Soviet Union Eastern Europe and China
