Second Opinion Reflecting On Contemporary Issues In Bioethics:

Second Opinion Bruce Hilton,2001 Bruce Hilton director of the National Center for Bioethics discusses the moral questions involved in medicine and science The text intended for the general reader covers such topics as alternative reproductive technology DNA health care reform mental health refusing treatment and violence **Index to Jewish Periodicals** ,2002 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests **The British National Bibliography** Arthur James Wells,2003 **American Book Publishing Record** ,2001

Bioethics Jeffrey Bulger,2024 Delve into the intriguing world of bioethics with a twist where each ethical dilemma is introduced with a dramatic moral mystery story Far from the usual medical case studies these tales are crafted not just to educate but to captivate This innovative resource presents sixty riveting topics designed to educate and captivate medical healthcare students and practitioners Each issue focuses on high yield content crucial for boards licensing exams and continuing medical education for students and practitioners The book is an essential reference for clinical practice ethics consultations **Second Texts and Second Opinions** Laurie Zoloth,2022 This book takes as its subject the intensely private discussions that arise when ordinary people confront life and death choices and struggle with decisions in a world of medical and scientific complexity Laurie Zoloth began her work in bioethics in a large public California hospital system where she was part of a group tasked with the creation of an ethics committee in every hospital in the system that would hear hundreds of cases every year including pediatric cases from the hospital s intensive care neonatal intensive care burn and oncology units The book explores the dilemmas presented in these cases and reflects on the competing often incommensurate moral appeals offered by the participants It then analyzes the cases against and with similar concepts within Jewish thought using rabbinic texts to make legible the factors at play as one makes ethical judgments This philosophical position is feminist as it considers and at times advocates for the inclusion of family and community in the rationale of the clinical setting Intertwined with legal statements in the Talmud are aggadot or midrashic texts literary narratives used to argue a point or to complicate a point or to deepen the meaning of the communal discourse adding history case studies or fictive tales to the discussion Zoloth argues that these texts can be usefully applied to problems in bioethics She develops the case for a textual turn that is fully imagined and enriched by the many possible re interpretations of narrative biblical rabbinic medieval modern and post modern Observing Bioethics Renee C. Fox,Judith P. Swazey,2008-07-23 Based on original primary and extensive secondary source materials the book views bioethics as a complex phenomenon that is not only related to advances in modern biology medicine and biotechnology but also to the fundamental values and beliefs and larger moral and existential questions which American society has been collectively grappling in its courts legislatures and media Although they center their analysis on U S bioethics the authors also trace the field s international spread including case studies of bioethics in France and Pakistan two of the many societies in which it

has developed While recognizing the intellectual moral and sociological importance of American bioethics they are critical of certain of its characteristics and concerned about their implications especially the problems of thinking socially culturally and internationally that have existed since bioethics inception the field s tenuous interdisciplinarity and the extent to which the culture wars on the larger American scene have recently penetrated it

Readings in Health Care Ethics - Second Edition Elisabeth (Boetzkes) Gedge, Wilfrid J. Waluchow, 2012-03-14 Readings in Health Care Ethics provides a wide ranging selection of important and engaging contributions to the field of health care ethics The second edition adds a chapter on health care in Canada and the introduction has been expanded to include discussion of a new direction in feminist naturalized ethics The book presupposes no prior knowledge only an interest in the bioethical issues that are shaping our world

Secular Bioethics in Theological Perspective E.E. Shelp, 2012-12-06 Theologians and theologically educated participants in discussions of bioethics have been placed on the defensive during recent years The dominance of religious perspectives and theological voices that marked the emergence and establishment of bioethics in the late 1960s and 1970s has eroded steadily as philosophers lawyers and others have relativized their role and influence at best or dismissed it entirely at worst The secularization of bioethics which has occurred for a variety of reasons has prompted some prominent writers to reflect on what has been lost Daniel Callahan for example writes whatever the ultimate truth status of religious perspectives they have provided a way of looking at the world and understanding one s own life that has a fecundity and uniqueness not matched by philosophy law or political theory Those of us who have lost our religious faith may be glad that we have discovered what we take to be the reality of things but we can still recognize that we have also lost something of great value as well the faith vision insights and experience of whole peoples and traditions who no less than we unbelievers struggled to make sense of things That those goods are part of a garment we no longer want to wear does not make their loss anything other than still a loss and it is not a negligible one 2 p 2

Contemporary Issues in Bioethics Tom L. Beauchamp, LeRoy Walters, 1989 Now in its third edition this extensive anthology continues to feature a wide range of contemporary ethical and social issues in the biomedical field Contrasting views of all major bioethical subjects are presented in an easy to read format by medical ethical and legal experts

Trends in Contemporary Ethical Issues Aidan E. Wurtzel, 2006 This book presents theoretical and applied issues including ethical theory moral social political and legal philosophy This book covers issues such as biology and medicine business education environment government mass media science agriculture and food production and religion

Religious Methods and Resources in Bioethics P.F. Camenisch, 2013-03-09 A volume on religious theological methods in biomedical ethics inevitably of whether the methodological dimension can be distinct raises the question quished from the various other things that go on in ethical discourse It is difficult to answer this question definitively since many elements in moral conversation can be interpreted in different ways Barbara Hilkert Andolsen illustrates this issue in this volume when she defines one of her crucial categories

gender justice as being both procedural and substantive normative This difficulty of finally separating the methodological from the normative arises in many areas of contemporary ethical writing both feminist and otherwise Nevertheless it seems that in many cases we can separate out the methodological issues with considerable precision Albert Jonsen and James Childress achieve just such a sharp focus in their essays This does not mean that a careful dissecting of their papers would not reveal normative elements lurking about their methodological points It is simply to say that the issues they analyze and the positions they take are at least prima facie overwhelmingly methodological They are much more about how we think about ethical matters than they are about what we think about them

Contemporary Catholic Health Care Ethics, Second Edition David F. Kelly, Gerard Magill, Henk ten Have, 2013-03-28 Contemporary Catholic Health Care Ethics Second Edition integrates theology methodology and practical application into a detailed and practical examination of the bioethical issues that confront students scholars and practitioners Noted bioethicists Gerard Magill Henk ten Have and David F Kelly contribute diverse backgrounds and experience that inform the richness of new material covered in this second edition The book is organized into three sections theology basic issues underlying Catholic thought methodology how Catholic theology approaches moral issues including birth control and applications to current issues New chapters discuss controversial end of life issues such as forgoing treatment killing versus allowing patients to die ways to handle decisions for incompetent patients advance directives and physician assisted suicide Unlike anthologies the coherent text offers a consistent method in order to provide students scholars and practitioners with an understanding of ethical dilemmas as well as concrete examples to assist in the difficult decisions they must make on an everyday basis

Second Opinion, 2002 Health faith ethics
Code of Medical Ethics, Current Opinions with Annotations American Medical Association. Council on Ethical and Judicial Affairs, 2010
Bioethics Mark G. Kuczewski, Ronald M. Polansky, 2000 Contemporary bioethicists and scholars of ancient philosophy explore the import of classical ethics on such pressing bioethical concerns

Silence, Scapegoats, Self-reflection Volker Roelcke, Sascha Topp, Etienne Lepicard, 2015-01-28 Since the end of World War II Nazi medical atrocities have been a topic of ambivalent reactions and debates both in Germany and internationally An early period of silence was followed by attempts of victims and representatives of medical organisations to describe what happened Varying narratives developed some of which had a stabilizing function for the identity of the profession whereas others had a critical and destabilizing function In today's international debates in the field of medical ethics there are frequent references to Nazi medical atrocities in particular in the context of discussions about research on human subjects and on euthanasia The volume analyses the narratives on Nazi medical atrocities their historicity in different stages of post war medicine as well as in the international discourse on biomedical ethics
Building Bioethics L.M. Kopelman, 2006-04-11 K Danner Clouser is one of the most important figures in establishing and shaping the fields of medical ethics bioethics and the philosophy of education in the second half of the twentieth century Clouser challenged many established approaches to moral theory and offered

innovative strategies for integrating the humanities into professional education especially that of physicians and nurses The contributions published in *Building Bioethics Conversations with Clouser and Friends on Medical Ethics* are unique both in their devotion to a critical review of his contributions and in bringing together internationally known figures in bioethics medical ethics and philosophy of medicine to comment upon Clouser's work These leaders of the field include Tom Beauchamp Daniel Callahan James Childress Nancy Dubler H Tristram Engelhardt Al Jonsen Loretta Kopelman Larry McCullough John Moskop and Robert Veatch This book merits special attention from those interested in bioethics philosophy of medicine medical ethics philosophy medical education religious studies and nursing education *Ethics and Aging* James Edward Thornton, Earl Raye Winkler, 2011-11-01 This book is an important and timely look at issues of ethics in aging It reflects the complexity of these questions but develops them in relation to a single general theme that of the involvement of the elderly in the design of social policy and the research which affects them Moral problems involving the elderly are many faceted Accurate understanding and social response demand some integration of experience sensibility and knowledge provided by different perspectives *Ethics and Aging* incorporates viewpoints from gerontology philosophy law theology sociology psychology medicine nursing and economics *Advanced Practice Nursing - E-Book* Ann B.
