Secondary Teaching Methods:

Secondary Teaching Methods Kenneth T. Henson, 1981 **Secondary School Teaching Methods** Leonard H. Clark, Irving S. Starr, 1967 **Secondary and Middle School Teaching Methods** Leonard H. Clark, Irving S. Starr, 1996

The seventh edition of this comprehensive secondary and middle school methods book continues to focus on planning implementing and evaluating but has been updated to include the latest research and developments in secondary and middle school education Continues to emphasize principles and guidelines over recipes **Targeted Teaching** Tremaine Baker, Gareth Evers, Richard Brock, 2017-02-09 There is no single best approach in teaching This new text challenges the idea that there is a best way to teach Instead the authors explain a more pragmatic approach is required Teachers need a range of skills and strategies to select from work with and adapt Every school cohort class and child is different Beyond that strategies that worked well with a class one week may prove ineffective the next This book presents a range of strategies well grounded in research for trainees and beginning teachers to use in their own classroom settings and contexts presents a model of teaching that views teaching not as a profession in which there is always a single correct answer but as a complex interaction between teacher and students addresses common issues that beginning teachers face when developing their practice If you are a teacher wanting to find out what works best for your class in your school right now this text will show you how to harness the power of small or large scale research to help you find the answer **Secondary School Teaching Methods** Leonard H. Clark, Irving S. Starr, 1976 Basic Ways to Teach in the 80's Sharon K. Zenger, Weldon F. Zenger, 1985 **Secondary and Middle School Teaching Methods** Leonard H. Clark, Irving S. Starr, 1986 **Designing and Teaching the Secondary Science Methods Course** Aaron J. Sickel, Stephen B. Witzig, 2017-04-13 The improvement of science education is a common goal worldwide Countries not only seek to increase the number of individuals pursuing careers in science but to improve scientific literacy among the general population As the teacher is one of the greatest influences on student learning a focus on the preparation of science teachers is essential in achieving these outcomes A critical component of science teacher education is the methods course where pedagogy and content coalesce It is here that future science teachers begin to focus simultaneously on the knowledge dispositions and skills for teaching secondary science in meaningful and effective ways This book provides a comparison of secondary science methods courses from teacher education programs all over the world Each chapter provides detailed descriptions of the national context course design teaching strategies and assessments used within a particular science methods course and is written by teacher educators who actively research science teacher education The final chapter provides a synthesis of common themes and unique features across contexts and offers directions for future research on science methods courses This book offers a unique combination of behind the scenes thinking for secondary science methods course designs along with practical teaching and assessment strategies and will be a useful resource for teacher educators in a variety of international contexts
