**The Secret Doctrine (Vol. 1-3)** Helena Blavatsky, 2023-12-03 Helena Blavatsky's monumental work The Secret Doctrine Volumes 1-3 serves as an intricate tapestry weaving together elements of theology philosophy and science integrating esoteric traditions with a profound exploration of the cosmos and human evolution Written in a dense yet poetic literary style the text is structured around the dual doctrines of the universal and the individual rooted deeply in theosophical thought Blavatsky draws upon a wide array of religious and philosophical sources including Eastern and Western esotericism to expound upon the idea of a hidden knowledge that transcends the physical realm presenting her insights as both a critique of materialism and an invitation to spiritual awakening Helena Blavatsky a seminal figure in the Theosophical Society was profoundly influenced by her travels to India and her studies of ancient wisdom traditions Her quest for universal truths led her to challenge prevailing scientific and religious dogmas of the 19th century positioning her as a pioneer of modern spirituality and a bridge between Eastern spirituality and Western thought The Secret Doctrine is a must read for anyone intrigued by metaphysics spirituality and the quest for knowledge that transcends conventional wisdom Blavatsky's comprehensive examination of the world's mystical traditions invites readers to explore the depths of their own consciousness and the interconnectedness of all existence

, 2018-11-30 The Apocalypse of Enoch and Bhuhunda The Apocalypse of Enoch and Bhuhunda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hiranyaksha and Hiranyaksha's ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geopotential migrations which has resulted in a shift of the earth's equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trishanku the Book of Genesis Senmut's Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning

conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts     **The Secret Doctrine** Helena Petrovna Blavatsky,1938

**Torch and Colonial Book Circular** ,1888     **The One True Adventure** Joy Mills,2014-04-01 Theosophy expresses modern versions of the ancient wisdom found in world religions Ultimately it concerns living fully by learning the meaning of life and thereby achieving self transformation These essays by a premier American teacher are grouped according to the four stages of the quest for meaning The Human Condition Our Hidden Potential Esoteric Teachings and Self Transformation Written over a lifetime these essays comprise a reliable inspiring guide for anyone on a spiritual path     **Lost Knowledge** Benjamin B. Olshin,2019-02-19 Lost Knowledge The Concept of Vanished Technologies and Other Human Histories examines the idea of lost knowledge reaching back to a period between myth and history It investigates a peculiar idea found in a number of early texts that there were civilizations with knowledge of sophisticated technologies and that this knowledge was obscured or destroyed over time along with the civilization that had created it This book presents critical studies of a series of early Chinese South Asian and other texts that look at the idea of specific lost technologies such as mechanical flight and the transmission of images There is also an examination of why concepts of a vanished golden age were prevalent in so many cultures Offering an engaging and investigative look at the propagation of history and myth in technology and culture this book is sure to interest historians and readers from many backgrounds     *The United States Catalog* ,1908     *Alien Chic* Neil Badmington,2004-08-13 From The War of the Worlds Mars Attacks Mission to Mars and Independence Day Neil Badmington explores our relationship with aliens and how thinkers such as Descartes Barthes Freud Lyotard and Derrida have conceptualised what it means to be human and post human     **RESULTS OF SPIRITUAL RESEARCH** Rudolf Steiner,2022-04-26 In a previously unavailable series of talks to the general public Rudolf Steiner builds systematically lecture by lecture on the fundamentals of spiritual science from the nature of spiritual knowledge and its relationship to conventional science the path of personal development and the task of metaphysical research to specific questions on the mystery of death the meaning of fairy tales the significance of morality and the roles of individual figures in human evolution such as Leonardo da Vinci Raphael and Jacob Boehme At the time of these presentations Steiner had already worked in Berlin for many years and thus could reckon with a regularly returning audience to whom what mattered was to enter ever more deeply into the areas of knowledge that were newly opening up to them Marie Steiner As a consequence and through a series of inter connecting lectures whose themes are entwined with one another he was able to communicate a coherent and

challenging spiritual perception of reality based on his personal research Presented here with notes an index and an introduction by Simon Blaxland de Lange the 14 lectures include How is Spiritual Science Refuted On What Foundation is Spiritual Science Based The Tasks of Spiritual Research for both Present and Future Errors of Spiritual Research Results of Spiritual Research for Vital Questions and the Riddle of Death The World Conception of a Cultural Researcher of the Present Herman Grimm and The Legacy of the Nineteenth Century *Handbook of the Theosophical Current* Olav Hammer, Mikael Rothstein, 2013-01-09 This title represents pioneering research into an important but under researched current The three sections in the book are devoted to the Theosophical Society Theosophically influenced religious currents and the interaction between Theosophy and surrounding culture *The Blavatskian and Biblical Roots of Krishnamurti's Imagined Role* Al Boag, 2025-09-16 This book focuses on Jiddu Krishnamurti 1895 1986 and charts the development of his teaching It covers the period from 1922 when Krishnamurti claimed he was God until his death including his declarations to be the World Teacher and eventual departure from the Theosophical Society The author explores the understanding transmitted to Krishnamurti by his mentors as an inheritance from Helena Petrovna Blavatsky 1831 1891 the Theosophical Society co founder who is associated with the practice of occult breathless meditation This book highlights that Krishnamurti's writings and talks reveal his unacknowledged appropriation of the vocabulary of profound biblical motifs It considers how Krishnamurti fashioned his life and teaching on the New Testament Gospels composite biography of Jesus and on biblical eschatological and Christological texts The study will be of particular interest to students and scholars of esotericism new religious movements and the history of religions **Free Trade in the Bermuda Triangle-- and Other Tales of Counterglobalization** Brett Neilson, 2004 An alternative approach to mapping the world offers a new way to contest capitalism and globalization Shangri La the Bermuda Triangle Transylvania the Golden Triangle far flung in popular conception these anomalous places nonetheless occupy the same mysterious zone a mythography of unruly cartographic practices And because this mythography becomes associated with a particular area of the earth's surface it may well suggest an alternative means of mapping the world dissociated from the dominant geographical paradigms of nation state economic region and the global local marketing nexus Large scale nonnational geographical spaces that find their genesis in popular feeling mystery and belief these four sites provide Brett Neilson with the basis not only for rethinking the current global reorganization of space and time but also for questioning the dominant narrative by which globalization marks the victory of capitalism Free Trade in the Bermuda Triangle moves between analysis of popular fantasies and engagement with on the ground realities weaving together topics as diverse as airplane disasters off the U S Atlantic coast the global drug trade vampire culture in postsocialist Europe and the search for utopia in Chinese occupied Tibet The study of globalization is largely a solemn affair occupied with increasing economic polarities environmental degradation and global insecurity Free Trade in the Bermuda Triangle maintains a critical focus on these sobering issues but at the same time asks how popular

pleasure and enjoyment can create viable alternatives to the current global order Neilson takes seriously the proposition that capitalism must be contested at its own level of generality finding provisional grounds for resistance in nonlocal transnational spaces that embody quotidian hopes desires and anxieties By studying the real and imagined dimensions of these popular geographies his book seeks resources for social betterment in the fallen mythologies of the contemporary postutopian world

**The Physics of God and the Quantum Gravity Theory of Everything** James Redford, 2011-12-19 ABSTRACT Analysis is given of the Omega Point cosmology an extensively peer reviewed proof i e mathematical theorem published in leading physics journals by professor of physics and mathematics Frank J Tipler which demonstrates that in order for the known laws of physics to be mutually consistent the universe must diverge to infinite computational power as it collapses into a final cosmological singularity termed the Omega Point The theorem is an intrinsic component of the Feynman DeWitt Weinberg quantum gravity Standard Model Theory of Everything TOE describing and unifying all the forces in physics of which itself is also required by the known physical laws With infinite computational resources the dead can be resurrected never to die again via perfect computer emulation of the multiverse from its start at the Big Bang Miracles are also physically allowed via electroweak quantum tunneling controlled by the Omega Point cosmological singularity The Omega Point is a different aspect of the Big Bang cosmological singularity the first cause and the Omega Point has all the haecceities claimed for God in the traditional religions From this analysis conclusions are drawn regarding the social ethical economic and political implications of the Omega Point cosmology

**Invoking the Beyond:** Paul D. Collins, Phillip D. Collins, 2020-11-22

The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond
