Modernism in Irish Women's Contemporary Writing Paige Reynolds, 2023-11-23 Modernism in Irish Women's Contemporary Writing examines the tangled relationship between contemporary Irish women writers and literary modernism In the early decades of the twenty first century Irish women's fiction has drawn widespread critical acclaim and commercial success with a surprising number of these works being commended for their innovative redeployment of literary tactics drawn from early twentieth century literary modernism But this strategy is not a new one Across more than a century writers from Kate O'Brien to Sally Rooney have manipulated and remade modernism to draw attention to the vexed nature of female privacy exploring what unfolds when the amorphous nature of private consciousness bumps up against external ordering structures in the public world Living amid the tenaciously conservative imperatives of church and state in Ireland their female characters are seen to embrace reject and rework the ritual of prayer the fixity of material objects the networks of the digital world and the ordered narrative of the book Such structures provide a stability that is valuable and even necessary for such characters to flourish as well as an instrument of containment or repression that threatens to and in some cases does destroy them The writers studied here among them Elizabeth Bowen Edna O'Brien Anne Enright Anna Burns Claire Louise Bennett and Eimear McBride employ the modernist mode in part to urge readers to recognize that female interiority the prompt for many of the movement's illustrious formal experiments continues to provide a crucial but often overlooked mechanism to imagine ways around and through seemingly intransigent social problems such as class inequity political violence and sexual abuse

The Modernity of English Art, 1914-30 David Peters Corbett, 1997 The modernity of English art reconceptualises the history of English painting from 1914 to the end of the 1920s Whereas most accounts have tended to see the period as marked by a tension between the native tradition and Modernism this ground breaking book rethinks the 1920s by situating both Modernist and non Modernist painters within a wider cultural history Established figures such as Paul Nash Edward Wadsworth and Wyndham Lewis as well as lesser known artists like Charles Sims John Armstrong and Ethelbert White are discussed and illustrated in a series of innovative readings within this context The modernity of English art offers a new account of painting in England after 1914 and argues for a strongly revisionist view of the significance of the modern during this important but neglected period in English art

A History of Art History Christopher S. Wood, 2019-09-03 An authoritative history of art history from its medieval origins to its modern predicaments In this wide ranging and authoritative book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book

shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich Wölfflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history

Visions of Japanese Modernity Aaron Andrew Gerow, 2010 In this study Aaron Gerow focuses on the early period in which the institutional and narrational structure of Japanese cinema was in flux arguing that the transnational intertext is less important than the power laden operations by which the meaning of cinema itself was discursively defined Both progressive critics of the pure film movement and the more conservative Japanese cultural bureaucrats demanded a unitary text that suppressed the hybrid and unpredictable meanings attendant on early Japanese cinema's informal exhibition contexts Gerow points out the irony that the progressive and individualist pure film movement critics worked in concert with the Japanese state to undo the theft of Japanese cinema proposing to replace representations of Japan in Western films by exporting a Japanese cinema reformed to emulate the international norm

Modernism's History Bernard Smith, 1998-01-01 The history of twentieth century visual arts can no longer be written as a succession of avant garde movements contends eminent art historian Bernard Smith in this stimulating book He argues that a return to the concept of period style is inevitable and that modernism the dominant style of art that emerged at the end of the nineteenth century and continued through the 1960s deserves recognition as a period style Smith renames this period Formalesque since it is no longer modern and since it emphasizes the formal values of art more than any previous period does In a wide ranging reformulation of art history in the twentieth century the author defines the nature and development of Formalesque an avant garde style that arose between 1890 and the First World War was institutionalized between the world wars and flourished anew between 1945 and 1960 Identifying the Formalesque period says Smith makes it possible also to identify dialectical adversaries such true oppositional avant garde styles of the twentieth century as Dada Surrealism and the Neue Sachlichkeit These constitute the formative elements of the modernism now called postmodernism that became increasingly dominant after 1960 The author locates twentieth century artistic movements and developments in

a broad cultural context and concludes with a thought provoking examination of the relation between the Formalesque and European and American cultural imperialism *Modernism's Print Cultures* Faye Hammill, Mark Hussey, 2016-08-25 The print culture of the early twentieth century has become a major area of interest in contemporary Modernist Studies *Modernism's Print Cultures* surveys the explosion of scholarship in this field and provides an incisive well informed guide for students and scholars alike Surveying the key critical work of recent decades the book explores such topics as Periodical publishing from little magazines such as *Rhythm* to glossy publications such as *Vanity Fair* The material aspects of early twentieth century publishing small presses typography illustration and book design The circulation of modernist print artefacts through the book trade libraries book clubs and cafes Educational and political print initiatives Including accounts of archival material available online targeted lists of key further reading and a survey of new trends in the field this is an essential guide to an important area in the study of modernist literature **Clearing a Space** Amit Chaudhuri, 2008 This book brings together many of Chaudhuri's best essays written over the past decade in journals such as the *London Review of Books* and the *Times Literary Supplement* Often beginning with the personal Chaudhuri enquires into the nature of the secular in India into the history of such categories as the West the foreign the global and the exotic and into the frequently torn and self divided nature of modern Indian identity Chaudhuri also makes a powerful case for thinking about Indian literature and culture in a way that departs strikingly from the parameters created since the publication of *Midnight's Children* and the consolidation of postcolonial studies While his mode is broadly oppositional it is also one of constant engagement with the positions he is arguing against **Come as You Are** Alexandra Schwartz, 2015-01-02 *Come as You Are* Art of the 1990s is the largest and most ambitious contemporary art exhibition ever to be mounted by the Montclair Art Museum The exhibition and book spotlight a pivotal moment in the recent history of art Chronicling the long 1990s between 1989 and 2001 from the fall of the Berlin Wall to 9 11 *Come As You Are* examines how the art of this period both reflected and helped shape the dramatic societal events of the era when the combined forces of new technologies and globalization gave rise to the accelerated international art world that we know today
