The New Handbook of Research on Music Teaching and Learning Richard Colwell, Carol Richardson, 2002-04-18. Featuring chapters by the world's foremost scholars in music education and cognition, this handbook is a convenient collection of current research on music teaching and learning. This comprehensive work includes sections on arts advocacy, music and medicine, teacher education, and studio instruction among other subjects, making it an essential reference for music education programs. The original Handbook of Research on Music Teaching and Learning, published in 1992 with the sponsorship of the Music Educators National Conference (MENC), was hailed as a welcome addition to the literature on music education because it serves to provide definition and unity to a broad and complex field. This new companion volume, again with the sponsorship of MENC, explores the significant changes in music and arts education that have taken place in the last decade. Notably, several chapters now incorporate insights from other fields to shed light on multi-cultural music education, gender issues in music education, and non-musical outcomes of music education. Other chapters offer practical information on maintaining musicians' health, training music teachers, and evaluating music education programs. Philosophical issues such as musical cognition, the philosophy of research, theory, curriculum, and educating musically are also explored in relationship to policy issues. In addition to surveying the literature, each chapter considers the significance of the research and provides suggestions for future study. Covering a broad range of topics and addressing the issues of music education at all age levels from early childhood to motivation and self-regulation, this handbook is an invaluable resource for music teachers, researchers, and scholars.

Johnson,2011-11-21 Unlike the media would have you believe most black males find great value in education They want to believe that they have a special gift and that they can make a difference in the world The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own education As a consequence of repeatedly being marginalized criticized and put down by society and teachers they do not feel motivated to attend school

or to produce outstanding academic work The Secrets for Motivating Educating and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they don't slip through the cracks in the educational system Historically we are still dealing with what happens to the image of Black people in the minds of white people A book like this helps to make certain that the information teachers provide to all students regardless of their race will help them understand that the history of this country has made generation after generation of black students see themselves as academically and socially inferior to white people Most importantly it's the teachers not just black teachers but all teachers who have to understand the power they have to change the mindset of society Changing how society thinks about Black people particularly Black males is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about each other For such lessons are important for changing the attitudes and beliefs of the entire community in which we live REVEREND C T VIVIAN A Pioneer of the Civil Rights Movement Author Educator and a Close Friend of Reverend Dr Martin Luther King Jr This book provides a fresh perspective for understanding the problems associated with the education of Black males As a minister I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males When all their ideas come together they are bound to create a storm of new thinking about how all of us can work together As a spiritual leader my role is to help young Black males understand that the same God that was in Dr King is the same God that is in them This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives This book will help us including those in the ministry to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century REVEREND ROBERT KILGORE Assistant Pastor at Hillside International Truth Center Atlanta GA
