Sokolow, 2016-07-08 Traditional histories of North and South America often leave the impression that Native American peoples had little impact on the colonies and empires established by Europeans after 1492 This groundbreaking study which spans more than 300 years demonstrates the agency of indigenous peoples in forging their own history and that of the Western Hemisphere By putting the story of the indigenous peoples and their encounters with Europeans at the center a new history of the New World emerges in which the Native Americans become vibrant and vitally important components of the British French Spanish and Portuguese empires In fact their presence was the single most important factor in the development of the colonial world By discussing the great encounter of peoples and cultures this book provides a valuable new perspective on the history of the Americas Astronomy of the Inca Empire Steven R. Gullberg, 2020-08-06 Astronomy in the Inca Empire was a robust and fundamental practice The subsequent Spanish conquest of the Andes region disrupted much of this indigenous culture and resulted in a significant loss of information about its rich history Through modern archaeoastronomy this book helps recover and interpret some of these elements of Inca civilization Astronomy was intricately woven into the very fabric of Andean existence and daily life Accordingly the text takes a holistic approach to its research considering first and foremost the cultural context of each astronomy related site. demonstrates that there is substantial proof that our ancestors were far more technologically advanced than in currently accepted and that certain cultures interacted with non human intelligences Our ancestors were clearly not alone Have we been visited by extraterrestrial beings Did these ancient aliens contribute to the birth of human civilization Do our ancient monuments contain evidence of their presence Fifty years after Erich von D niken posed these questions in Chariots of the Gods Coppens provides clear concise answers to the great historical enigmas in an accessible readable format This new edition features a preface by Kathleen McGowan along with a new afterword that is the last essay Philip Coppens wrote Book Strange Names of God Sangkeun Kim, 2004 One of the most precarious and daunting tasks for sixteenth century European missionaries in the cross cultural mission frontiers was translating the name of God Deus into the local language When the Italian Jesuit Matteo Ricci 1552 1610 introduced the Chinese term Shangti as the semantic equivalent of Deus he made one of the most innovative cross cultural missionary translations Ricci s employment of Shangti was neither a simple rewording of a Chinese term nor the use of a loan word but was indeed a risk taking identification of the Christian God with the Confucian Most High Shangti Strange Names of God investigates the historical progress of the semantic configuration of Shangti as the divine name of the Christian God in China by focusing on Chinese intellectuals reaction to the strangely translated Chinese name of God Awakening the Planetary Mind Barbara Hand Clow, 2011-09-21 Completing our conscious evolution by releasing our collective fear of catastrophes Explains how we are on the cusp of an era of incredible creative growth Shows how we are about to overcome the collective fear caused by ancient catastrophes as we awaken to the memories of our lost prehistory Examines legendary cataclysms and scientific evidence of a highly advanced global culture that disappeared 11 500 years ago In this completely revised and expanded edition of Catastrophobia bestselling author Barbara Hand Clow explains how we are on the cusp of an age of incredible creative growth made possible by restoring our lost prehistory Examining legendary cataclysms such as the fall of Atlantis and the biblical Flood and the mounting geological and archaeological evidence that many of these mythic catastrophes were actual events she reveals the existence of a highly advanced global maritime culture that disappeared amid great earth changes and rising seas 14 000 to 11 500 years ago nearly causing our species extinction and leaving humanity s collective psyche deeply scarred Tracing humanity s reemergence after these prehistoric catastrophes Clow explains how these events in the deep past influence our consciousness today Guided by Carl Johan Calleman's analysis of the Mayan Calendar she reveals that as the Earth's 26 000 year precessional cycle shifts our evolution is accelerating to prepare us for a new age of harmony and peace She explains how we are beginning a collective healing as ancient memories of prehistory awaken in our minds and release our unprocessed fear Passed from generation to generation this fear has been responsible for our constant expectations of apocalypse She shows that by remembering and moving beyond the trauma of our long lost past we bring the era of cataclysms to an end and cross the threshold into a time of extraordinary creative activity Catastrophobia Barbara

Hand Clow, 2001-05-01 Bestselling author Barbara Hand Clow examines legendary cataclysms and shows how we are about to overcome the collective fear they have instilled in us The long awaited follow up that continues the revelations begun in The Pleiadian Agenda which has sold more than 60 000 copies Explains why contrary to many prophets of doom we are actually on the cusp of an era of incredible creative growth The recent discovery of the remains of ancient villages buried beneath the Black Sea is the latest instance of mounting evidence that many of the mythic catastrophes of history the fall of Atlantis the Biblical Flood were actual events In Catastrophobia Barbara Hand Clow shows that a series of cataclysmic disasters caused by a massive disturbance in the Earth's crust 11 500 years ago rocked the world and left humanity's collective psyche permanently scarred We are a wounded species and this unprocessed fear passed from generation to generation is responsible for our constant expectations of apocalypse from Y2K to the famed end of the Mayan calendar in 2012 Catastrophobia reveals the insidious global forces that have used these collective fears to control humanity for thousands of years But we are in the midst of a tremendous shift in the Earth s 26 000 year precessional cycle and there is every indication that the changes in consciousness over the last 30 years are the beginnings of a collective healing from these deep fears heralding a new age where we will see that the era of cataclysms is ending and a time of extraordinary creative activity is at hand Maya Cosmogenesis 2012 John Major Jenkins, 1998-08-01 While researching the 2012 end date of the Maya Calendar John Major Jenkins decoded the Maya's galactic cosmology. Spirit and Art Van James, 2002 Stumbling through life gazing at the stars we can miss the greatest treasure beneath our feet For the ordinary faculties of our soul how we think how we feel how we act are the rough and fallen forms of our highest spiritual capacities. This book shows how six of these common abilities thinking feeling doing loving opening thanking can be intensified infinitely. We already think we can learn to think more deeply more livingly. We already feel we can learn to train our feeling life away from ourselves so that we feel the world in its richness. We already thank we can learn a depth of gratitude that makes life and love intensely real. These exercises are simple but demanding. By strengthening our capacity to pay attention they allow us to say the right word and have the fresh thought just when we need to They gradually lead us out of the mire of distraction and confusion and allow us to practice what we need most continual presence of mind.
