Secret Cemetery:

The Secret Cemetery Doris Francis, Leonie Kellaher, Georgina Neophytou, 2020-07-12 Burial sites have long been recognized as a way to understand past civilizations Yet the meanings of our present day cemeteries have been virtually ignored even though they reveal much about our cultures Exploring an extraordinarily diverse range of memorial practice Greek Orthodox Muslim Jewish Roman Catholic and Anglican as well as the unchurched The Secret Cemetery is an intriguing study of what these places of death mean to the living Most of us experience cemeteries at a ritualized moment of loss What we forget is that these are often places to which we return either as a general space in which to contemplate or as a specific site to be tended These are also places where different communities can reinforce boundaries and even recreate a sense of homeland Over time ritual artefact and place shape an intensely personal landscape of memory and mourning a landscape more alive more actively engaged with than many of the other places we inhabit

The Ethics of Everyday Life Michael Banner, 2014-10-23 The moments in Christ s human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested In other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies or body parts post mortem plainly indicate Thus the following questions arise how do the instances in Christ s life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life How does the Christian imagination of human life which dwells on and draws from the life of Christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human Michael Banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology Drawing from social

anthropology and Christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the UK's Human Tissue Authority. Banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the grave. Why discuss birth and death when they lie outside discourse? And why look at them together when they are so much unlike each other: one the moment of fresh beginnings, joys and the relative certainties of existence; the other the moment of life's end, grief and the relative uncertainties of non-existence? Because it turns out that both events while virtually unrepresentable have spawned a host of representations, narratives, rites and attempts at making sense of them and because they may have more similarities than appears at first sight. The 13 interdisciplinary articles collected in this volume prove that looking at the two phenomena in tandem throws into sharp relief the distinct patterns and functions of each while also highlighting some of the fundamental historical developments, cultural functions and socio-political issues shared by both. The contributions take stock of the discourses of birth and death prevalent in British and Western culture, probing into the way the two phenomena have been subjected to strategies of medialisation, commodification and bio-politics. **Sacred Sonoma** Beth Winegarner, 2007-05-14. Too Poor to Die Amy Shea, 2025-09-09 Death is the great equalizer but not all deaths are created equal In recent years there has been an increased interest and advocacy concerning end of life and after death care An increasing number of individuals and organizations from health care to the funeral and death care industries are working to promote and encourage people to consider their end of life wishes Yet there are limits to who these efforts reach and who can access such resources These conversations come from a place of good intentions but also from a place of privilege Too Poor to Die The Hidden Realities of Dying in the Margins a collection of closely connected essays takes the reader on a journey into what happens to those who die while experiencing homelessness or who end up indigent or unclaimed at the end of life Too Poor to Die bears witness to the disparities in death and dying faced by some of society's most vulnerable and marginalized and asks the reader to consider their own end of life and disposition plans within the larger context of how privilege and access plays a role in what we want versus what we get in death
