**Marianne Is Watching** Deborah Bauer, 2021-12 Polly Corrigan Book Prize shortlist Professional intelligence became a permanent feature of the French state as a result of the army's June 8 1871 reorganization following France's defeat in the Franco Prussian War Intelligence practices developed at the end of the

nineteenth century without direction or oversight from elected officials and yet the information gathered had a profound influence on the French population and on pre World War I Europe more broadly In Marianne Is Watching Deborah Bauer examines the history of French espionage and counterespionage services in the era of their professionalization arguing that the expansion of surveillance practices reflects a change in understandings of how best to protect the nation By leading readers through the processes and outcomes of professionalizing intelligence in three parts covering the creation of permanent intelligence organizations within the state the practice of intelligence and the place of intelligence in the public sphere Bauer fuses traditional state focused history with social and cultural analysis to provide a modern understanding of intelligence and its role in both state formation and cultural change With this first English language book length treatment of the history of French intelligence services in the era of their inception Bauer provides a penetrating study not just of the security establishment in pre World War I France but of the diverse social climate it nurtured and on which it fed Attempt to Uproot Sunni-Arab Influence Nabil Khalifé, 2017-01-24 In the aftermath of popular uprisings that unleashed the quest for freedom Arab governments scrambled to limit sectarian divisions though much of these efforts came to naught Regrettably weak governments fell into carefully laid traps aimed to divide and rule Protracted wars further destroyed Arab wealth and cohesiveness and Sunni communities saw their power bases marginalised On cue and predicted by some commentators extremist movements like the so called Islamic State emerged targeting Sunnis with extreme violence In 2014 Nabil Khalife an established Lebanese thinker published a widely praised thesis that identified the root causes of renewed sectarian tensions at a time when confrontations polarised awakened Arab societies Based on an extensive discussion of the 1979 Iranian Revolution that toppled the Shah Khalife advanced the notion that the revolution was not Islamic but an Iranian Shiah rebellion that ended the Pahlavi military monarchy and that the post 2011 Sunni Shiah struggle was planned by leading Western powers including Russia to preserve Israel and impose the latter's acceptance in the Middle East as a natural element In this translation of *Istihdaf Ahl al Sunna Targeting Sunnis* Joseph A Kechichian analyses the fundamental questions raised by the author to better place the current sectarian collision in a geo strategic global perspective Based on the books avowals of how the worlds three monotheistic religions perceive each other and Political Sunnism Kechichian assesses Henry Kissinger's famous appellation of the Middle World that houses significant and indispensable oil resources and why that allegedly makes it Political Sunnism dangerous In a comprehensive introduction to the translation he describes various initiatives that led global powers to check the undeniable force of Political Sunnism *A Patent System for the 21st Century* National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Intellectual Property Rights in the Knowledge-Based Economy, 2004-09-01 The U S patent system is in an accelerating race with human ingenuity and investments in innovation In many respects the system has responded with admirable flexibility but the strain of continual technological change and the greater importance ascribed to patents in a knowledge economy are

exposing weaknesses including questionable patent quality rising transaction costs impediments to the dissemination of information through patents and international inconsistencies A panel including a mix of legal expertise economists technologists and university and corporate officials recommends significant changes in the way the patent system operates A Patent System for the 21st Century urges creation of a mechanism for post grant challenges to newly issued patents reinvigoration of the non obviousness standard to quality for a patent strengthening of the U S Patent and Trademark Office simplified and less costly litigation harmonization of the U S European and Japanese examination process and protection of some research from patent infringement liability
