Secrets to a Successful Long-Term Relationship Joshua Strachan, 2017-02-07 A long lasting relationship is the ultimate goal and we all strive to achieve success and happiness with the people we love This book teaches the exact simple things you should do to achieve a long term relationship with deep passion and happiness You are also going to learn how to use your personality as leverage in attracting your significant other and also to build your relationship on a solid ground of trust How to Have a Successful Long Term Relationship Success in relationship is a gradual process starting from the development of the mind to the exhibition of traits aimed to creating a favorable atmosphere for the two In order to achieve success in your relationship you need to have a particular mind set about the meaning of relationship You need to open up to the fact that relationship is built by two soul

mates and its progress depends on the decisions of the two not by condition but by love and in any circumstance A relationship built on the foundation of proper awareness can neither be disrupted nor manipulated either due to financial physical or mental challenge Primarily problems do create a pathway for a partner to prove the promised love affection and dedication Also difficulties play a very important role in stimulating the creativity of the two to a higher level Thus weaknesses and shortcomings are to be expected in every relationship as tools of growth and personal elevation A success in a short term relationship determines how well the long term relationship is going to be carried on when effort is being applied It is important to note that business relationship intertwines with personal intimate relationship Whether you choose to fall in love or grow in love the right person that deserves you always comes with some uncommon qualities which we are going to elaborate in this book You will understand that being attractive plays a significant but not so significant role in determining who you date People can be attractive and still lack the personality required to have a successful relationship We are also going to learn how to use your personality as leverage in attracting your significant other and also to build your relationship in your desired shape and form What Makes a Successful Relationship Work The groundwork for a successful relationship also deals with the exploration of your fears In order to have a genuine long lasting and never ending success in relationship you need to eliminate every skeptical thought and superstitious believes about people and situations You need to cross the line of critical thinking in your love life And most importantly you need to understand how different people experience different things choose different things and have different tastes even when they are made of the same ingredients It is wise to learn from people s success and failure but never conclude on external information Do not allow others failure to become your source of fear and their success a reason to be reluctance What is Important After reading this book you ll be automatically exposed to a new view of the entire dating life relationship marriage and commitment You will never have to worry about who you date how much you can trust and whether you have met your Soul mate or not because you will know them when you see them and they will be exactly what you have imagined them to be even better I personally dedicate this book to all men and women seeking a better life in a relationship Although it usually comes at a price I can assure you that better life is found in a successful relationship That price is nothing more than allowing yourself to follow the steps that are revealed in this book It is not the overwhelming and sophisticated philosophy of the universe but a simple relationship blueprint for a long lasting passion
