Congress. Senate. Committee on Homeland Security and Governmental Affairs. Ad Hoc Subcommittee on State, Local, and Private Sector Preparedness and Integration,2011 *EDUCATIONAL MANAGEMENT: A Unified Approach of Education* S. L. Sharma,2009-12 This book focuses on management in school administration It explains that school administrators play a vital role in the success of a school Therefore it is of the utmost importance that these leaders and future school leaders understand how to be integrative thinkers It has been proven that integrative thinkers are more effective leaders and effective leaders create successful work environments Further it elaborates on school based management which involves the formal change in the structures of school governance that leads to a more democratic administrative approach in which planning and decision making are devolved to the individual school and role of principal where the conceptual notion at work here is that of creating a bridge between the performance field and a practice field It also emphasizes on superintendent preparation and training school leadership preparation etc *Visual Art and the Urban Evolution of the New South* Deborah C. Pollack,2015-01-18 Visual Art and the Urban Evolution of the New South recounts the enormous influence of artists in the evolution of six southern

cities Atlanta Charleston New Orleans Louisville Austin and Miami from 1865 to 1950 In the decades following the Civil War painters sculptors photographers and illustrators in these municipalities employed their talents to articulate concepts of the New South aestheticism and Gilded Age opulence and to construct a visual culture far beyond providing pretty pictures in public buildings and statues in city squares As Deborah C Pollack investigates New South proponents such as Henry W Grady of Atlanta and other regional leaders she identifies cultural strivers philanthropists women s organizations entrepreneurs writers architects politicians and dreamers who united with visual artists to champion the arts both as a means of cultural preservation and as mechanisms of civic progress Aestheticism made popular by Oscar Wilde s southern tours during the Gilded Age was another driving force in art creation and urban improvement Specific art works occasionally precipitated controversy and incited public anger yet for the most part artists of all kinds were recognized as providing inspirational incentives for self improvement civic enhancement and tourism art appreciation and personal fulfillment through the love of beauty Each of the six New South cities entered the late nineteenth century with fractured artistic heritages Charleston and Atlanta had to recover from wartime devastation The infrastructures of New Orleans and Louisville were barely damaged by war but their social underpinnings were shattered by the end of slavery and postwar economic depression Austin was not vitalized until after the Civil War and Miami was a post Civil War creation Pollack surveys these New South cities with an eye to understanding how each locale shaped its artistic and aesthetic self perception across a spectrum of economic political gender and race issues She also discusses Lost Cause imagery present in all the studied municipalities While many art history volumes concerning the South focus on sultry landscapes outside the urban grid Visual Art and the Urban Evolution of the New South explores the art belonging to its cities whether exhibited in its museums expositions and galleries or reflective of its parks plazas marketplaces industrial areas gardens and universities It also identifies and celebrates the creative urban humanity who helped build the cultural and social framework for the modern southern city

Resilience and Opportunity Amy Liu, Roland Vanglin, Richard M. Mizelle, 2011-08-18 Hurricanes Katrina and Rita devastated the Gulf Coast in 2005 Commentary and analysis typically focused on what went wrong in the post disaster emergency response This forward looking book however presents a more cautiously optimistic view about the region s ability to bounce back after multiple disasters Catastrophes come in different forms hurricanes recessions and oil spills to name a few It is imperative that we learn how best to rebuild in the wake of disasters and what capacities and conditions are needed to improve future resilience Since the devastating summer of 2005 leaders have made important inroads to restoring communities in more prosperous ways Resilience and Opportunity is an important contribution to our collective learning from a teachable moment Contributors Iyve Allen Foundation for the Mid South Lance Buhl Duke University Ann Carpenter Federal Reserve Bank of Atlanta Robert A Collins Dillard University Mark S Davis Tulane University Law School Breonne DeDecker Brandeis University Karen B DeSalvo Tulane University School of Medicine Kathryn A Foster University at Buffalo Regional Institute

American Energy, Imperiled Coast Jason P. Theriot,2014-04-14 In the post World War II era Louisiana s coastal wetlands underwent an industrial transformation that placed the region at the center of America s energy producing corridor By the twenty first century the Louisiana Gulf Coast supplied nearly one third of America s oil and gas accounted for half of the country s refining capacity and contributed billions of dollars to the U S economy Today thousands of miles of pipelines and related infrastructure link the state s coast to oil and gas consumers nationwide During the course of this historic development however the dredging of pipeline canals accelerated coastal erosion Currently 80 percent of the United States wetland loss occurs on Louisiana s coast despite the fact that the state is home to only 40 percent of the nation s wetland acreage making evident the enormous unintended environmental cost associated with producing energy from the Gulf Coast In *American Energy Imperiled Coast* Jason P Theriot explores the tension between oil and gas development and the land loss crisis in Louisiana His book offers an engaging analysis of both the impressive albeit ecologically destructive engineering feats that characterized industrial growth in the region and the mounting environmental problems that threaten south Louisiana s communities culture and working coast As a historian and coastal Louisiana native Theriot explains how pipeline technology enabled the expansion of oil and gas delivery examining previously unseen photographs and company records and traces the industry s far reaching environmental footprint in the wetlands Through detailed research presented in a lively and accessible narrative Theriot pieces together decades of political economic social and cultural undertakings that clashed

in the 1980s and 1990s when local citizens scientists politicians environmental groups and oil and gas interests began fighting over the causes and consequences of coastal land loss The mission to restore coastal Louisiana ultimately collided with the perceived economic necessity of expanding offshore oil and gas development at the turn of the twenty first century Theriot s book bridges the gap between these competing objectives From the discovery of oil and gas below the marshes around coastal salt domes in the 1920s and 1930s to the emergence of environmental sciences and policy reforms in the 1970s to the vast repercussions of the BP Deepwater Horizon oil spill in 2010 American Energy Imperiled Coast ultimately reveals that the natural and man made forces responsible for rapid environmental change in Louisiana s wetlands over the past century can only be harnessed through collaboration between public and private entities
