purchase that led to fundamental questions about what America would become In 1803 President Thomas Jefferson bought the Louisiana Territory from the French for 15 million extending the United States beyond the Mississippi River for the first time Now the United States had big questions to answer How would Louisiana be governed How would it be divided Would it be comprised of free states or slave states What would happen to the Native Americans With biographical sketches of the people who helped forge the answers to these questions such as Lewis and Clark Napoleon Bonaparte and of course Thomas Jefferson this is the tale of the expansion of the United States into a new territory as well as a new era *Jefferson's*

*Louisiana Purchase* Elaine Landau,2014-12-15 Should the United States expand across the continent of North America or stay a small country That was the big question in 1804 when the United States had a chance to buy the huge Louisiana Territory from France Who would make this big decision And how would it change the United States Author Elaine Landau poses this and other exciting questions to the reader in this lively account of the Louisiana Purchase **The Louisiana**

**the Louisiana Purchase, 1803-1812** Everett Somerville Brown,1920 **The Louisiana Purchase** Thomas

Fleming,2007-08-20 From The Louisiana Purchase Like many other major events in world history the Louisiana Purchase is a fascinating mix of destiny and individual energy and creativity Thomas Jefferson would have been less than human had he not

claimed a major share of the credit In a private letter the president reviving a favorite metaphor said he very early saw Louisiana was a speck that could turn into a tornado He added that the public never knew how near this catastrophe was But he decided to calm the hotheads of the west and endure Napoleon s aggression betting that a war with England would force Bonaparte to sell This policy saved us from the storm Omitted almost entirely from this account is the melodrama of the purchase so crowded with what ifs that might have changed the outcome and the history of the world The reports of the Lewis and Clark expedition electrified the nation with their descriptions of a region of broad rivers and rich soil of immense herds of buffalo and other game of grassy prairies seemingly as illimitable as the ocean From the Louisiana Purchase would come in future decades the states of Arkansas Missouri Iowa Nebraska South Dakota and large portions of what is now North Dakota Montana Wyoming Minnesota Colorado and Louisiana For the immediate future the purchase by doubling the size of the United States transformed it from a minor to a major world power The emboldened Americans soon absorbed West and East Florida and fought mighty England to a bloody stalemate in the War of 1812 Looking westward the orators of the 1840s who preached the Manifest Destiny of the United States to preside from sea to shining sea based their oratorical logic on the Louisiana Purchase TURNING POINTS features preeminent writers offering fresh personal perspectives on the defining events of our time
