The Story of my Soul Helen P. Slater, 2023-02-07 Channelling 6th December 2022 Great Mystery You must know that all I say is true that the End of the World is nigh and all shall be saved for to raise our consciousness is the goal not only of Creator but of all souls who see Yeshua as their Saviour and Mary his Mother as their own I commend this book to the destitute and to the wicked that they may know their Creator and their lives be washed clean with Creator's Light and they shall be as One as others are as One that know God and that know and love themselves For this

love is the greatest of all and Divine Love knows those that suffer and wishes to relieve them of their burdens and all those that come to her shall be freed of their burdens to live on Earth in joy love and abundance This book is written from a spiritual perspective that all who come to her will be healed They will feel all their problems lift off they will just disappear Everyone will feel whole and content once more *The Origins of the World's Mythologies* E.J. Michael Witzel,2012-12-13 This remarkable book is the most ambitious work on mythology since that of the renowned Mircea Eliade who all but single handedly invented the modern study of myth and religion Focusing on the oldest available texts buttressed by data from archeology comparative linguistics and human population genetics Michael Witzel reconstructs a single original African source for our collective myths dating back some 100 000 years Identifying features shared by this Out of Africa mythology and its northern Eurasian offshoots Witzel suggests that these common myths recounted by the communities of the African Eve are the earliest evidence of ancient spirituality Moreover these common features Witzel shows survive today in all major religions Witzel s book is an intellectual hand grenade that will doubtless generate considerable excitement and consternation in the scholarly community Indeed everyone interested in mythology will want to grapple with Witzel s extraordinary hypothesis about the spirituality of our common ancestors and to understand what it tells us about our modern cultures and the way they are linked at the deepest level *Generosity and the Christian Future* George M.

Newlands,2008-07-17 Based on the 1995 Henson Lectures delivered in the University of Oxford this study takes as its theme the Christian future and the development of a theology of generosity in response to the challenges likely to face Christian faith in the twenty first century In particular Professor Newlands wishes to explore the suggestion that Christ represents the ultimate generosity of God for humankind This leads him to concentrate on the contribution made by Christian doctrine to public issues and especially the relationship between Christology and human rights The author is centrally concerned that faith should remain in the public square and that the circle of faith should always be outward facing The result is a liberal pluralistic theology which regards the generous love of God in incarnation and reconciliation as a powerful stimulus to imaginative Christian thought and action In its robust portrayal of what Christianity ought properly to look like this book which emerges from the pen of the leading Scottish liberal theologian of his generation will be sure to stimulate and engage a wide variety of readers **Golden Age of Chinese Drama** Chung-wen Shih,2015-03-08

The 171 extant plays of the Yuan period 1279 1368 are the oldest and most brilliant examples of Chinese dramatic literature In this first comprehensive study Chung wen Shih systematically explores the riches of Yuan drama from its unexcelled lyric poetry to its colorful characterization After tracing the popular genres that contributed to the flowering of Yuan drama the author describes conventional features of dramatic construction methods of characterization and recurring themes The central focus is on the use of language prose passages and lyrics are cited to show how innovative use of spoken language invests the prose with a remarkable strength and suppleness and how imaginative use of figurative language endows the poetry with an incomparable
