The Quest for God William Switala, 2020-11-10 The Quest for God is a study of the explosion of interest in newer approaches to spirituality that took place in the west among Christians, Jew and Muslims in the twelfth century. The book explores the historic internal and external forces that influenced members of the three major faith groups who were looking for new ways to approach their personal relationship with God. It contains a detailed explanation of the new attitudes and religious practices that emerged among the three groups during that century. This includes special emphasis placed on the mysticism of Christian monks and nuns, the Kabbalah of the Jews, and the tenets of Sufism in Islam. It also paints a clear picture of the role played by the leading figures, both male and female, who pioneered this effort. A unique feature of the book is the linkage of similar imagery, biblical references, mystical attitudes, and actual religious practices utilized by all three faith systems to achieve a newer, more mystical approach to spirituality. The fundamental development of spiritual approaches initiated by these three faiths laid the foundation for many of the spiritual practices we have today. Each of the three faiths is covered in a separate section. Preceding the discussion of the spiritual elements of each is a chapter dealing with the historical setting in which that faith operated. A final chapter summarizes the entire work and shows the common characteristics that each group had and links them together.
