Love Sex And Identity:

Sexuality and Identity Leslie J. Moran, 2017-11-30 Born in the late nineteenth century sexuality is a relatively new category within the human sciences in general and law and society scholarship in particular Despite its novelty it is now a central category through which we understand ourselves both as individuals and as members of communities This volume offers a collection of essays selected to reflect the ever widening horizons and diverse methodologies of law and society scholarship on sexual and identity in law The essays offer an insight into some of the key themes and recent developments in this body of work Each in different ways offers an evaluation of the nature meaning and effects of sexuality thereby providing a critical evaluation of the politics of sexual identity as it appears in and through the law LoveSex Cabby Laffy, 2018-05-08 This book looks at how our brains minds bodies and emotions interact to create our experience of sexuality and how we can create a sense of sexual self esteem and a nutritious sexual diet for ourselves As the author notes in her Introduction we think and talk about sex as something we do rather than sexuality being something that we have and being sexual as something that we are We talk little about feeling sexual or the emotional and relational reasons for sexual desire about the fact that it is usually an other that we want to be sexual with Our focus seems to be on how much sex we can have rather than how we want to express ourselves sexually This book challenges the cultural commodification of sex and sexuality and encourages the reader to experience being sexual rather than doing sex or looking sexy This is crucial to our development of sexual self esteem particularly in an era of ubiquitous online pornography Love, Sex, and Identity, 1972 *Love Sex & Marriage Middle Age* Conor McCarthy, First published in 2004 Routledge is an imprint of Taylor Francis an informa company

Love Sex & Marriage in the Middle Ages Conor McCarthy, 2013-10-28 First published in 2004 Routledge is an imprint of Taylor Francis an informa company *Technologies of Sexuality, Identity and Sexual Health* Lenore Manderson, 2012 *Technologies of Sexuality Identity and Sexual Health* highlights the complex ways in which sexuality is expressed and enacted through local ideologies global identities and material cultures and their influence on people s sexual health and well being Its impetus is the renewed interest in technology and the social life of things including pharmaceuticals expanded sexual and related surgery the growing exploitation of markets for sexual and contraceptive products and the impact of these on sexual and health practices and outcomes Organised loosely into three parts the opening chapters concentrate on female contraception its availability and the varied cultural significance attached to the ability to control its use exploring the politics of reproductive health and birth control and the ties between technology and power The middle section turns its attention to men and the impact of traditional and contemporary concerns about masculinity and the social and sexual roles of men The final chapters look at the commonalities across cultural borders and sexual gendered identities how products and procedures travel not only through the formal channels of globalisation but also informally carried by individuals across cultural and social boundaries through sexual social and commercial interactions The volume brings together anthropologists

sociologists and cultural studies scholars both senior and emerging from around the globe Offering an important and topical contribution to the developing global literature on sexuality sexual identity culture and health it is of interest to researchers and advanced students in these areas **Edward II and a Literature of Same-Sex Love** Michael G. Cornelius,2016-10-21

The narrative re tellings of the life reign and death of the English King Edward II reigned 1307 1327 present a unique opportunity for scholars of sexuality in the early modern era This is because the works of authors like Christopher Marlowe Michael Drayton Sir Francis Hubert Elizabeth Cary and Richard Niccols were all inspired by the public cultural memory fashioned from Edward s same sex love affair with Piers Gaveston As such each of them presents a particular representation of and a specific discourse about male male sexual relations in the Renaissance In other words what these works present is a concentrated body of literature about same sex love in the early modern era works that openly and frankly explore the possible origins of the love the reasons and causes for it works that explore the ramifications of male male romantic relationships works that explore the sexual politics and sociocultural dynamics of same sex romantic partnerships and works that describe and denote same sex love from an English Renaissance perspective This study looks at each of the major Renaissance texts about Edward II and examines the means through which each text understands and analyzes the nature of male male same sex love From Marlowe s crafting of a lover identity for Edward to Drayton s obsession with Marlowe s version of gay history from Hubert s Augustinian construction of Edward s nature to Cary s identification with the fallen king to Niccols inspired exemplum what each of these works demonstrates is that the love that dare not speak its name would not be silenced at least not in the case of Edward and Gaveston When one sees the name Edward II one also sees his same sex loves The correlation has become ingrained into our public recall of history Thus as far as the world is concerned Edward II was and ever will be the gay king Sex, Identity and Hermaphrodites in Iberia, 1500-1800 Francisco Vazquez

Garcia,2015-10-06 Early modern European thought held that men and women were essentially the same During the seventeenth century medical and legal arguments began to turn against this one sex model with hermaphroditism seen as a medieval superstition This book traces this change in Iberia in comparison to the earlier shift in thought in northern Europe

Gender Identity, Sexuality and Autism Eva A. Mendes,Meredith R. Maroney,2019-01-21 Bringing together a collection of narratives from those who are on the autism spectrum whilst also identifying as lesbian gay bisexual transgender queer intersex and or asexual LGBTQIA this book explores the intersection of the two spectrums as well as the diverse experiences that come with it By providing knowledge and advice based on in depth research and personal accounts the narratives will be immensely valuable to teenagers adults partners and families The authors round these stories with a discussion of themes across narratives and implications for the issues discussed In the final chapter the authors reflect on commonly asked questions from a clinical perspective bringing in relevant research as well as sharing best practice tips and considerations that may be helpful for LGBTQIA and ASD teenagers and adults These may also be used by family members and clinicians

when counselling teenagers and adults on the dual spectrum With each chapter structured around LGBTQIA and autism spectrum identities Gender Identity Sexuality and Autism highlights the fluidity of gender identity sexual orientation and neurodiversity and provides a space for people to share their individual experiences *Love, Sex, Gender, and Superheroes* Jeffrey A. Brown, 2021-11-19 With examples taken from both the Golden Ages of DC and Marvel comics as well as more recent superhero comics films television and merchandising this study provides a comprehensive look at the contradictory messages the superhero genre sends about love sexuality and gender Virtue as Identity Aleksandar Fatic, 2016-07-11 Virtue as Identity offers a study of how virtue is learned and identity acquired through the selection and internalization of values A large part of this process is externally imposed through culture Another perhaps more important part of the process is the result of individual and collective sensibilities The book emphasizes the role of emotions and emotional sensibility in our choice of values The book reaffirms traditional morality as the foundation of our individual and collective identities The author argues that emotions as well as rational decisions guide the value choices we make and the ideals of character that we presuppose on a political level as much as they do in our private lives Thus the societies we live in are a reflection of our identities or the identities of the majority This opens up radical questions about the identities of the dissenting minorities the proper concept of a moral or value community and the real reach and value of tolerance in modern democracy **Gender and Identity in Central and Eastern Europe** Chri Corrin, 2014-02-04 This collection highlights changes in Central and Eastern Europe since 1989 from the perspectives of gender and identity Resistance to the negative consequences of certain changes demonstrate that women's activities have played a large part in democratic developments in various countries Place and Identity in the Lives of Antony, Paul, and Mary of Egypt Peter Anthony Mena, 2019-04-24 In this book Peter Anthony Mena looks closely at descriptions of space in ancient Christian hagiographies and considers how the desert relates to constructions of subjectivity By reading three pivotal ancient hagiographies the Life of Antony the Life of Paul the Hermit and the Life of Mary of Egypt in conjunction with Gloria Anzaldá's ideas about the US Mexican borderlands la frontera Mena shows readers how descriptions of the desert in these texts are replete with spaces and inhabitants that render the desert a borderland or frontier space in Anzaldá's terms As a borderland space the desert functions as a device for the creation of an emerging identity in late antiquity the desert ascetic Simultaneously the space of the desert is created through the image of the saint Literary critical religious studies and historical methodologies converge in this work in order to illuminate a heuristic tool for interpreting the desert in late antiquity and its importance for the development of desert asceticism Anzaldá's theories help guide a reading especially attuned to the important relationship between space and subjectivity **Love's Virtues** Mike W. Martin, 1996 This book brings together a sensitive understanding of love and an unusually careful even painstaking analysis of the enormous but often neglected role of morality and the virtues in love Martin's discussions of such virtues as caring courage fidelity and honesty are superb the examples well chosen the argument personal but nevertheless
