Empires of the Plain Lesley Adkins, 2025-06-25 Well told story of a life dedicated to scholarship with great adventures and derring do an unexpected bonus Kirkus Reviews From 1827 Henry Rawlinson fearless soldier sportsman and imperial adventurer of the first rank spent twenty five years in India Iran Iraq and Afghanistan in the service of the East India Company During this time he survived the dangers of disease and warfare including the disastrous First Anglo Afghan War A gifted linguist fascinated by history and exploration he became obsessed with cuneiform the world s earliest writing An immense inscription high on a sheer rock face at Bisitun in the mountains of western Iran carved on the orders of King Darius the Great of Persia over 2 000 years ago was the key to understanding the many cuneiform scripts and languages Only Rawlinson had the physical and intellectual skills courage self motivation and opportunity to make the perilous ascent and copy the monument Here Lesley Adkins relates the story of Rawlinson s life and how he triumphed in deciphering the lost languages of Persia and Babylonia overcoming his brilliant but bitter rival Edward Hincks While based in Baghdad Rawlinson became involved in the very first excavations of the ancient mounds of Mesopotamia from Nineveh to Babylon an area that had been fought over by so many powerful empires His decipherment of the inscriptions resurrected unsuspected civilizations revealing intriguing details of everyday life and forgotten historical events By proving to the astonished Victorian public that people and places in the Old Testament really existed and furthermore that documents and chronicles had survived from well before the writing of the Bible Rawlinson became a celebrity and assured his own place in history

Sumerian Origins Norah Romney, 2020-06-07 A Mysterious Group of People came to settle in southern Mesopotamia sometime around 5400BC What is now the modern state of Iraq the first city of Mesopotamia was founded named Eridu Although historians have generally regarded this as the world s first city we have seen this challenged on numerous occasions by recent discoveries too numerous to mention here Eridu had all the things we ordinarily associate with an ancient city temples administrative buildings housing agriculture markets art and of course walls

to keep out unsavoury characters The elusive aspect is we have absolutely no idea where they acquired their language and bizarre language it is we have no idea what they originally looked like Their language which we call Sumerian and the subsequent Akkadian derivative were linguistic isolates Sumerian is the oldest known written language on Earth and any languages it might have derived from or developed alongside have been lost to time Figuring out what their baffling ethnic identity based on their art is a doomed effort because their art was so stylized that a good case could be made that it portrays people of any ethnicity or the people they encountered The Sumerian language was not Semitic and the Akkadian conquests of 2334 BCE disrupted the ethnic and cultural isolation of the Sumerian people By about 2000 BCE the Sumerians were speaking Akkadian and the Sumerian and Akkadian civilizations were regarded as a single enterprise Does this mean that we will never know how the Sumerian language developed or where the Sumerians originally came from Well if any reasonably well preserved Sumerian bones can be found DNA testing could tell us their ethnic origin Although this all sounds murky we have literature left in the form of cuneiform writing that speaks volumes on their day to day life and their highly unusual gods The Sumerian pantheon reads like wild science fiction at times and although they often speak of their own origins in terms of their gods and family ties many have chosen to label this as mythology ignore it or merely treat it in a literature aspect
