Christian Education Kevin Ethan Lawson, Wesley Black, 2008*

Sacred Systems Eric J. Kyle, 2013-12-06 From early Jewish Christian texts such as the Didache which present well defined catechetical programs to contemporary authors such as Dallas Willard who offer in depth insights into the transformations of one's heart and soul systematic texts on spiritual formation in the Western Christian tradition abound These texts can offer ministers researchers and laypersons much clarity and guidance for their craft However the spiritual

formation systems that we use are also always contextually influenced such contextual factors may make them difficult to adapt to one's local work. Rather than turning to only a single text or community then it can be helpful for practitioners and theorists to look to a broader set of systematic presentations of spiritual formation. By turning to a group of specific individuals and communities in each era of Western Christian history this book will help those working in this field to better understand how personal spiritual formation has been conceptualized and embodied. Such an exploration will help us not only to compile a more complete history of spiritual formation at the level of the individual but also to glean a better understanding of personal transformation so that we might engage this craft in more informed and systematic ways.

Proleptic Pedagogy Sondra H. Matthaei, Nancy R. Howell, 2014-06-17 Could we have imagined how much theological education would change in the new millennium? Shifting needs of students, classrooms and churches have demanded constant revisions of the curriculum, course design, classroom technology and pedagogical strategies. Saint Paul School of Theology felt the tide of change within our own walls and designed a project called Proleptic Pedagogy to address three distinct pedagogical challenges for the future of theological education. First, instead of fitting new technologies into old pedagogies, how are teaching and learning transformed by shifting needs of students who are digital natives, digital immigrants or distance learners? Second, instead of reactive strategies, what pedagogy proactively eliminates accommodations because courses are designed with flexibility and openness to diverse learning styles, disabilities and needs? Third, instead of engaging student diversity with the tools of the 1960s, what new teaching and learning strategies anticipate future student racial and ethnic demographics and interracial educational experiences? This volume of essays narrates our classroom stories, teases out pedagogical issues, examines pedagogical literature, reflects on the theology of pedagogy and constructs pedagogical proposals with an open invitation for other theological educators to join our conversation about the future of theological education.

Toward an Adult Church Jane E. Regan, 2002 Penance Confirmation Eucharist Children participate in these sacraments and many other Catholic rites thanks to America's long standing model of parish catechesis Once children become adults however what becomes of their faith formation In *Toward an Adult Church A Vision of Faith Formation* Jane Regan explores the current structure of parish catechesis Basing her ideas on contemporary theory and traditional practice Regan sets forth an intriguing argument the vitality of the Church depends on establishing a new education paradigm one that is focused on adults How can parishes design a framework for adult catechesis Will such programs be accepted by local church communities Where does children's faith formation fit into the new structure Regan answers these questions and offers ideas for developing a balanced approach to religious education one that addresses the ongoing faith life of adults

And We Shall Learn through the Dance Kathleen S. Turner, 2021-07-28 Liturgical dance is a way to present reflect instruct learn study and share religious beliefs with one's self within one's worship community and with one's God Such a belief is confirmed and witnessed within a variety of religious settings throughout the world from the beginning of time to this present age However there is a vacuum of resources that connect liturgical dance within the Christian context as a tool for religious learning within the field of religious education With the continual rise of liturgical dance as an artistic form of expression this book proposes that liturgical dance offers unique attributes conducive to the teaching and learning of faith and to faith formation Kathleen S Turner shows how liturgical dance is religious education in two very important ways first by addressing the power and potential liturgical dance has in nourishing the faith life of Christian congregants through means that are both educative and reflective and second by

giving examples of how liturgical dance can be implemented as a religious education tool within the teaching life of the church
