Maya Saints And Souls In A Changing World:

Maya Saints and Souls in a Changing World John M. Watanabe, 2010-07-22 The Maya of Santiago Chimaltenango have experienced increasingly rapid even violent integration into Guatemalan society in the last fifty years yet they still distinguish themselves ethnically from Spanish speaking Guatemalans and other Maya Why this sense of ethnic identity persists and also changes over time is the focus of *Maya Saints and Souls in a Changing World* a beautifully written ethnography of a Mam speaking Maya town in the western highlands of Guatemala John Watanabe uniquely explores how Chimaltecos themselves define their local distinctiveness This approach uncovers significant continuities in lifeways and world view that might otherwise remain imperceptible to an outsider Another important feature of the study is that it updates Charles Wagley s pioneering research in the community during the 1930s Watanabe identifies both the external historical factors that have prompted change in the community since Wagley s time and the people s responses to these changes

Maya Saints and Souls in a Changing World John M. Watanabe, 1992 The Maya of Santiago Chimaltenango have experienced increasingly rapid even violent integration into Guatemalan society in the last fifty years yet they still distinguish themselves ethnically from Spanish speaking Guatemalans and other Maya Why this sense of ethnic identity persists and also changes over time is the focus of *Maya Saints and Souls in a Changing World* a beautifully written ethnography of a Mam speaking Maya town in the western highlands of Guatemala John Watanabe uniquely explores how Chimaltecos themselves define their local distinctiveness This approach uncovers significant continuities in lifeways and world view that might otherwise remain imperceptible to an outsider Another important feature of the study is that it updates Charles Wagley s pioneering research in the community during the 1930s Watanabe identifies both the external historical factors that have prompted change in the community since Wagley s time and the people s responses to these changes *Michoacán and Eden* Bernardino Verástique, 2010-01-01 Don Vasco de Quiroga 1470 1565 was the first bishop of Michoacán in Western Mexico Driven by the desire to convert the native Purhépecha Chichimec peoples to a purified form of Christianity free of the corruptions of European Catholicism he sought to establish New World Edens in Michoacán by congregating the people into pueblo hospital communities where mendicant friars could more easily teach them the fundamental beliefs of Christianity and the values of Spanish culture In this broadly synthetic study Bernardino Verástique explores Vasco de Quiroga s evangelizing project in its full cultural and historical context He begins by recreating the complex and not wholly incompatible worldviews of the Purhépecha and the Spaniards at the time of their first encounter in 1521 With Quiroga as a focal point Verástique then traces the uneasy process of assimilation and resistance that occurred on both sides as the Spaniards established political and religious dominance in Michoacán He describes the syncretisms or fusions between Christianity and indigenous beliefs and practices that arose among the Purhépecha and relates these to similar developments in other regions of Mexico Written especially for students and general readers this book demonstrates how cultural and

geographical environments influence religious experience while it adds to our understanding of the process of indigenous appropriation of Christian theological concepts in the New World Archaeology in a Living Landscape Brent K. S. Woodfill, Lucia R. Henderson, 2024-12-03 This volume focuses on how Indigenous communities of the Americas have long recognized degrees of personhood within their landscapes and its case studies show how researchers can incorporate this worldview in archaeological investigations community relations and interpretations A Beauty That Hurts W. George Lovell, 2014-05-14 Though a 1996 peace accord brought a formal end to a conflict that had lasted for thirty six years Guatemala's violent past continues to scar its troubled present and seems destined to haunt its uncertain future George Lovell brings to this revised and expanded edition of *A Beauty That Hurts* decades of fieldwork throughout Guatemala as well as archival research He locates the roots of conflict in geographies of inequality that arose during colonial times and were exacerbated by the drive to develop Guatemala's resources in the nineteenth and early twentieth centuries The lines of confrontation were entrenched after a decade of socioeconomic reform between 1944 and 1954 saw modernizing initiatives undone by a military coup backed by U S interests and the CIA A United Nations Truth Commission has established that civil war in Guatemala claimed the lives of more than 200 000 people the vast majority of them indigenous Mayas Lovell weaves documentation about what happened to Mayas in particular during the war years with accounts of their difficult personal situations Meanwhile an intransigent elite and a powerful military continue to benefit from the inequalities that triggered armed insurrection in the first place Weak and corrupt civilian governments fail to impose the rule of law thus ensuring that Guatemala remains an embattled country where postwar violence and drug related crime undermine any semblance of orderly peaceful life Buried Secrets V. Sanford, 2003-05-02 Between the late 1970s and the mid 1980s Guatemala was torn by a civil war which came to be known as La Violencia During this time of mass terror and extreme violence more than 600 massacres occurred in villages destroyed by the army one and a half million people were displaced and more than 200 000 civilians murdered 83% of the victims were Maya the indigenous people of Guatemala *Buried Secrets* brings these chilling statistics to life as it chronicles the journey of Mayan survivors seeking truth justice and community healing and demonstrates that the Guatemalan army carried out a systematic and intentional genocide against the Maya Victoria Sanford provides us with an insider's look at the workings of the Commission for Historical Clarification through the exhumation of clandestine cemeteries The book is based on exhaustive research including more than 400 testimonies from massacre survivors interviews with members of the forensic team human rights leaders high ranking military officers guerrilla combatants and government officials *Buried Secrets* traces truth telling and political change from isolated Maya villages to national political events and provides a unique look into the experiences of Maya survivors as they struggle to rebuild their communities and lives Houses in a Landscape Julia A. Helmke Nicholas A Hopkins Barbara MacLeod Jesper Nielsen Colin Snider Karl A Taube **The Oxford Handbook of Latin American Christianity** David Thomas Orique, Susan Fitzpatrick-Behrens, Virginia Garrard, 2020-01-10 By 2025 Latin America's population of observant Christians will be the largest in the world. Nonetheless, studies examining the exponential growth of global Christianity tend to overlook this region, focusing instead on Africa and Asia. Research on Christianity in Latin America provides a core point of departure for understanding the growth and development of Christianity in the Global South. In *The Oxford Handbook of Latin American Christianity*, an interdisciplinary contingent of scholars examines Latin American Christianity in all of its manifestations from the colonial to the contemporary period. The essays here provide an accessible background to understanding Christianity in Latin America. Spanning the era from indigenous and African descendant people's conversion to and transformation of Catholicism during the colonial period through the advent of Liberation Theology in the 1960s and conversion to Pentecostalism and Charismatic Catholicism, *The Oxford Handbook of Latin American Christianity* is the most complete introduction to the history and trajectory of this important area of modern Christianity.

In the Maw of the Earth Monster James E. Brady, Keith M. Prufer, 2013-04-01 As portals to the supernatural realm that creates and animates the universe, caves have always been held sacred by the peoples of Mesoamerica. From ancient times to the present, Mesoamericans have made pilgrimages to caves for ceremonies ranging from rituals of passage to petitions for rain and a plentiful harvest. So important were caves to the pre-Hispanic peoples that they are mentioned in Maya hieroglyphic writing and portrayed in the Central Mexican and Oaxacan pictorial codices. Many ancient settlements were located in proximity to caves. This volume gathers papers from twenty prominent Mesoamerican archaeologists, linguists, and ethnographers to present a state-of-the-art survey of ritual cave use in Mesoamerica from Pre-Columbian times to the present. Organized geographically, the book examines cave use in Central Mexico, Oaxaca, and the Maya region. Some reports present detailed site studies, while others offer new theoretical understandings of cave rituals. As a whole, the collection validates cave study as the cutting edge of scientific investigation of indigenous ritual and belief. It confirms that the indigenous religious system of Mesoamerica was and still is much more terrestrially focused than has been generally appreciated.

Comparative Indigenities of the Américas M. Bianet Castellanos, Lourdes Gutiérrez Nájera, Arturo J. Aldama, 2012-10-04 *Comparative Indigenities of the Américas* highlights intersecting themes such as indigenismo, mestizaje, migration, displacement, autonomy, sovereignty, borders, spirituality, and healing that have historically shaped the experiences of Native peoples across the Americas. In doing so, it promotes a broader understanding of the relationships between Native communities in the United States and Canada and those in Latin America and the Caribbean, and invites a hemispheric understanding of the relationships between Native and mestizo peoples.

Las Abejas Marco Tavanti, 2014-01-27 *Las Abejas* came to be known by the international community as the civil counterpart to the neozapatista movements and as a Christian pacifist movement. This book presents the voices of *Las Abejas* and of numerous collaborators alongside an

innovative theoretical analysis of the dynamics of identity construction The uniqueness of this study is the analysis of the role of international human rights observers in relation to indigenous communities in resistance In this fascinating study Marco Tavanti explains how cultural religious political human rights and nonviolent frameworks combine in a syncretic identity of resistance Guatemalan Vigilantism and the Global (Re)Production of Collective Violence Gavin Weston,2019-08-23 This book grounds an understanding of lynching as an increasingly globalised phenomenon through an examination of two cases in Guatemala The chapters cover issues of migration tourism gangs inter generational conflict media gossip and rumour to understand national and global patterns of mob based vigilantism and how diverse factors are funnelled into singular acts of violence Gavin Weston critically engages with the discussion of Guatemalan lynchings as a form of post conflict violence alongside other less direct chains of causation Lynchings have complex tiered causations based in contestations regarding ideas and provision of justice Underlying social problems and similarities in the way lynchings spread through talk and media make them relatively anticipatable in certain contexts and suggest possible spaces for mitigation against their viral spread This volume will be relevant to Latin Americanists and those interested in the anthropology and sociology of violence post conflict violence and peace studies The Neighborhood as a Social and Spatial Unit in Mesoamerican Cities M. Charlotte Arnauld,Linda R. Manzanilla,Michael E. Smith,2012-12-01 Recent realizations that prehispanic cities in Mesoamerica were fundamentally different from western cities of the same period have led to increasing examination of the neighborhood as an intermediate unit at the heart of prehispanic urbanization This book addresses the subject of neighborhoods in archaeology as analytical units between households and whole settlements The contributions gathered here provide fieldwork data to document the existence of sociopolitically distinct neighborhoods within ancient Mesoamerican settlements building upon recent advances in multi scale archaeological studies of these communities Chapters illustrate the cultural variation across Mesoamerica including data and interpretations on several different cities with a thematic focus on regional contrasts This topic is relatively new and complex and this book is a strong contribution for three interwoven reasons First the long history of research on the Teotihuacan barrios is scrutinized and withstands the test of new evidence and comparison with other Mesoamerican cities Second Maya studies of dense settlement patterns are now mature enough to provide substantial case studies Third theoretical investigation of ancient urbanization all over the world is now more complex and open than it was before giving relevance to Mesoamerican perspectives on ancient and modern societies in time and space This volume will be of interest not only to scholars and student specialists of the Mesoamerican past but also to social scientists and urbanists looking to contrast ancient cultures worldwide Economics and Morality Society for Economic Anthropology (U.S.). Meeting,2009 In Economics and Morality the authors seek to illuminate the multiple kinds of analyses relating morality and economic behavior in particular kinds of economic systems **Crosscurrents in Indigenous Spirituality** Edward Cook,2016-05-18 The resurgence of indigenous cultures and the reappearance of their ancient spiritualities during the 1990s

is of great interest to social scientists Several such cultures are featured in this book The indigenous populations of struggling multi ethnic democracies in Latin America are demanding to be integrated into the national mainstream together with their holistic values of family economics and ecology Institutional Christianity is being challenged by indigenous theologies that are critical of both traditional Christianity and liberation theology While some see here a danger of syncretism these developments can be experienced as a breath of fresh air Much has been said about the Mayas but they have not been allowed to speak for themselves anthropologist Rafael Girardi 1962 This book is an attempt to allow religious spokespersons from a very ancient and creative civilization to share their faith which has remained hidden for five centuries

Divided by Faith and Ethnicity Andrea Althoff, 2014-08-22 Two unprecedented striking developments form part of the reality of many Latin Americans Recent decades have seen the dramatic rise of a new religious pluralism namely the spread of Pentecostal Christianity Catholic and Protestant alike and the growth of indigenous revitalization movements This study analyzes these major transitions asking what roles ethnicity and ethnic identities play in the contemporary process of religious pluralism such as the growth of the Protestant Pentecostal and neo Pentecostal movements the Catholic Charismatic Renewal and the indigenous Maya movement in Guatemala This book aims to provide an understanding of the agenda of religious movements their motivations and their impact on society Such a pursuit is urgently needed in Guatemala a postwar country experiencing acrimonious religious competition and a highly contentious debate on religious pluralism This volume is relevant to scholars and students of Latin American Studies Sociology of Religion Anthropology Practical Theology and Political Sciences

After the Coup Timothy J. Smith, Abigail E Adams, 2011-08-11 This exceptional collection revisits the aftermath of the 1954 coup that ousted the democratically elected Guatemalan president Jacobo Arbenz Contributors frame the impact of 1954 not only in terms of the liberal reforms and coffee revolutions of the nineteenth century but also in terms of post 1954 U S foreign policy and the genocide of the 1970s and 1980s This volume is of particular interest in the current era of the United States re emerging foreign policy based on preemptive strikes and a presumed clash of civilizations Recent research and the release of newly declassified U S government documents underscore the importance of reading Guatemala s current history through the lens of 1954 Scholars and researchers who have worked in Guatemala from the 1940s to the present articulate how the coup fits into ethnographic representations of Guatemala Highlighting the voices of individuals with whom they have lived and worked the contributors also offer an unmatched understanding of how the events preceding and following the coup played out on the ground Contributors are Abigail E Adams Richard N Adams David Carey Jr Christa Little Siebold Judith M Maxwell Victor D Montejo June C Nash and Timothy J Smith
