Measurement Tools In Clinical Ethics

Barbara Klug Redman

Measurement Tools In Clinical Ethics:

Measurement Tools in Clinical Ethics Barbara Redman, 2002 The evolution of ethical issues in clinical and research work in health has accelerated dramatically due to the struggle toward patient autonomy in end of life decisions and patients access to choices in health care and in research How do we clarify the assumptions and consequences of these decisions in the development of measurement instruments that gather data of their psychometric characteristics This book presents a number of these instruments each chapter examines a specific topic category for example patient preference aggressiveness of care and others and then explains each of the various instruments that have been developed to measure that topic Next the description psychometric properties summary and critique references and a copy of the instrument are provided so as to facilitate the reader's search for a usable instrument Back cover

Measurement Tools in Clinical Ethics Barbara Redman, 2001-08-01 Measurement Instruments in Clinical Ethics presents an overview of studies of ethical concepts in clinical and research activities The studies covered use interview scales or other methods of gathering data that have undergone rigorous analysis of their psychometric characteristics This book describes these instruments and critiques their stage of development This work strives to further the debate regarding what evolving ethical standards mean for clinicians and researchers

Measurement Instruments in Clinical Ethics Barbara Klug Redman, 2002 Based upon studies that use interview scales or other methods of gathering data that feature psychometric characteristics Barbara Redman's text assesses these methodologies and the wider debate concerning evolving ethical standards in medicine

Research Methods in Palliative, Supportive, and End-of-Life Care, 2025-05-26 Palliative and end of life care are concerned with the physical social psychological and spiritual care of people with advanced disease and serious illness They affect people in all societies all countries and are growing fields post Covid Changing demographics and treatments mean that people are living longer with serious illness and multiple conditions often needing symptom control and complex care and support Research in these areas present a particular challenge both because of the ethical and practical difficulties inherent in working with very ill patients and their families and because of the range of research questions considered to be within the domain of palliative care Building on the first edition this book provides an introduction to research methods in the fields of palliative supportive and end of life care and complex patients Edited by six experienced palliative care academics with acknowledged expertise and international reputations in this field this book is both authoritative and accessible It encompasses methods used in both clinical and health services research covering methodological theory design measures and practice and case examples across the entire scope of research The book has

been fully updated and includes the latest developments such as use of big data and forming research collaborations This will be an essential methodological book for clinicians academics researchers and educators and especially those undertaking a MSc PhD or early career researchers in palliative care and related fields *Health Measurement Scales* David L. Streiner, Geoffrey R. Norman, John Cairney, 2024-02-08 *Health Measurement Scales* is the ultimate guide to appraising developing and validating measurement scales that are used in the health sciences Written in a clear and practical style this guide enables clinicians and researchers to both develop scales to measure subjective states and non tangible health outcomes as well as evaluate and differentiate among existing tools Topics presented in the order that scales are constructed how the individual items are developed biases that can affect responses various response options how to select the best items in the set how to combine them into a scale and finally how to determine the reliability and validity of the scale Fully updated to reflect recent developments in the field and the latest survey methods The new edition contains updated information on generalizability theory and item response theory and integration of qualitative research methods into scale design and testing Including guidelines appendices and checklists this useful book is a must read for any practitioner dealing with any kind of subjective measurement **Patient Self-management of Chronic Disease** Barbara Klug Redman, 2004 Approximately 15 diseases are covered in this theoretically based manual which includes evidence based standards for patient education for each disease **Leadership for Health Professionals: Theory, Skills, and Applications** Gerald R. Ledlow, (Jerry) R. R. R. Ledlow, Michele Bosworth, Thomas Maryon, 2023-01-10 *Leadership for Health Professionals Theory Skills and Applications* applies classical knowledge of leadership theory and time honored best practices of industry leaders to a health organization context Themes of leadership principles applications and constructs such as organizational culture cultural competency ethical frameworks and moral practice scientific methodology leader competencies external and internal assessment and evaluation communication planning decision making employee enhancement and knowledge management are woven through the entire text *The Complete MRCPsych* Ashok Patel, 2006-01-27 Studying for the MRCPsych exams can seem a daunting prospect especially when faced with the vast amounts of literature available to help but this book offers a complete solution in the form of a thoroughly comprehensive guide to the Part II Exam Completely up to date and taking in the recent changes to the exam the book reflects the exam format and content extremely accurately Written by an experienced examiner with contributions from trainees the book combines these elements to ensure that it is the perfect revision companion for any psychiatrist preparing for the MRCPsych Part II *Clinical Management in Mental Health Services* Chris Lloyd, Robert King, Frank Deane, Kevin Gournay, 2009-03-17 *Clinical Management in Mental Health Services* is a practical guide to the day to day operational management of mental health teams It explores both the theoretical aspects of management plus strategies for dealing with the wide range of management issues faced by managers working in mental health It looks at issues such as leading a multidisciplinary team Communication and Public Relations the importance of

clinical supervision evidence based practice and quality assurance It addresses the issue of workload management clinical information management how to plan a budget and how to manage stress Online Instruments, Data Collection, and Electronic Measurements: Organizational Advancements Bocarnea, Mihai C.,Reynolds, Rodney A.,Baker, Jason D.,2012-10-31 This book aims to assist researchers in both understanding and utilizing online data collection by providing methodological knowledge related to online research and by presenting information about the empirical quality the availability and the location of specific online instruments Provided by publisher *Colorectal Cancer Awareness Month 2023: Diagnosis, Clinical Course, and Surgical Management of Metastatic Colorectal Cancer* Aldo Rocca,Alfonso Reginelli,Samuel Aguiar Junior ,Luca Vigano,2024-10-24 March is Colorectal Cancer Awareness Month and at Frontiers in Oncology we want to highlight the recent discoveries in the field and raise awareness of the importance of early diagnosis multidisciplinary management and technological innovation support Colorectal cancer CRC is the third most common cancer worldwide and represents one of the most relevant challenges for present and future global health with 50 % of patients affected by CRC developing metastasis Despite the introduction of novel therapeutic approaches and anticancer drugs colorectal metastatic cancer mCRC continue to have a poor prognosis In the last years the extensive investigation on biomarkers that could identify patients at high risk for metastasis and predict the response to therapies has deeply impacted the therapeutic approaches to patients with mCRC The most established biomarkers for mCRC are microsatellite instability MSI or mismatch repair deficiency dMMR HER2 amplification RAS BRAF mutations and sidedness Immune checkpoint inhibitors ICIs have been extensively used to treat patients with microsatellite unstable or mismatch repair deficient dMMR CRC while patients harboring a BRAFV600E mutation benefit from combination therapy with chemotherapy and immunotherapy drugs The success of biomarker driven patient selection to improve the therapeutic response and the overall survival of patients with mCRC highlights the imperative need for further research to identify novel biomarkers for better patient tailored therapy

Adult Dysphagia Clinical Reasoning and Decision-Making Guide Yvette M. McCoy,Ed M. Bice,2024-05-07 Adult Dysphagia Clinical Reasoning and Decision Making Guide is the ideal resource for assessing and treating swallowing disorders Readily accessible for day to day evaluation this one of a kind text gives clinicians quick access to key clinical information to help them think critically and provide actionable solutions for their patients With a focus on the clinical process and implementing sound clinical reasoning skills to inform decision making this resource aids speech language pathologists in developing situation based assessment and treatment plans Concise and easy to use this professional guide can be leveraged as a practical tool by clinicians to facilitate positive actionable patient outcomes for treating dysphagia in adults Utilizing case studies with clinically relevant charts diagrams and flow sheets this text helps speech language pathologists develop a clinical process that involves critical thinking With essential evidence based material for swallowing assessment and treatment as well as alternate treatment solutions to implement in their clinical caseload clinicians will

acquire informed clinical reasoning and decision making skills Key Features Case studies Simple diagrams to describe complex abstract concepts Features Deeper Dive opportunities to go beyond the essential material Inclusion of clinical notes and boxed focal points for practical application Please note Ancillary material such as interactive clinical cases are not included as in the print version of this work

Individual Quality of Life Joyce,2013-01-11 The rubric Quality of Life first came to the explicit attention of the medical profession a little over thirty years ago Despite the undoubted fact that each one of us has his or her own Quality of Life be it good or bad there is still no general agreement about its definition or the manner in which it should be evaluated Although much has been written about quality of life this work has been largely concerned with population based studies especially in health policy and health economics The importance of individual quality of life has been neglected in part because of a failure to define quality of life itself with sufficient care in part perhaps because of a belief that it is impossible to develop a meaningful method of measuring individual variables The editors of this book believe that the primary focus of quality of life is and must continue to be the individual who alone can define it and assess its changing personal significance The challenge of presenting this belief

Smart Wearable Devices in Healthcare—Methodologies, Applications, and Algorithms Chang Yan,Ming Zeng,Hong Zeng,Aiguo Song,Lei Zhang,2023-12-14 Wearable health devices have been an emerging technology that enables an ambulatory acquisition of physiological signals to monitor health status over a long time hours days weeks years inside and outside clinical environments Big data and deep learning in particular are receiving a lot of attention in this rapidly growing digital health community A key benefit of deep learning is to analyze and learn massive amounts of data which makes it especially valuable in healthcare since raw data is largely gathered from personalized wearable health devices A wide range of users may benefit from unobstructed and even remote monitoring of pertinent or vital signs which makes it easier to detect life threatening diseases early track the progression of pathologies and stress levels evaluate the efficacy of therapies provide low cost and reliable diagnoses etc Today s personal health devices have provided an amazing insight into people s health and wellness which allow clinicians to use these smart wearables to collect and analyze measuring data like electroencephalogram EEG electrocardiogram ECG or EKG respiration heart rate temperature level blood oxygen and blood pressure for health monitoring or clinical trials This Research Topic mainly focuses on the technical revolution in wearable health systems which aims to design more smart and useful wearables contributing to a substantial change in the methodologies applications and algorithms of machine learning for wearable health devices With the help of deep learning and sensor fusion capabilities from wearable health platforms this data will be used more effectively which can help to construct smart novel specific solutions to improve the quality of healthcare and capabilities of utilizing new deep learning technologies

Generative AI for the Medical Student Campion Quinn,2025-09-26 This book provides medical students with a practical non technical roadmap for understanding applying and leading generative AI in clinical practice Despite explosive interest in AI there is no

accessible clinically focused primer tailored to medical students without programming backgrounds Educators and students need a resource that translates theory into actionable skills crafting effective prompts interpreting AI outputs embedding tools into workflows and upholding ethical and legal standards By filling this gap the book equips future physicians to use AI confidently and safely at the bedside and in documentation lead pilot projects and quality improvement initiatives navigate certification research and career development in digital health In short it transforms generative AI from a black box novelty into a dependable clinical partner fulfilling a critical educational need at the intersection of medicine and technology The text begins by demystifying core AI concepts transformers self attention NLP CNNs and Retrieval Augmented Generation It then moves through hands on chapters on securing stakeholder buy in prompt engineering error management and quality improvement cycles A capstone AI Journal Club and simulation exercises reinforce learning in real world vignettes while later chapters guide students through ethics research collaboration career pathways and a SMART goal driven lifelong learning plan This is an ideal guide for all medical students interested in integrating generative AI into their career

Advances in Ocular Imaging and Biometry Zhenzhen Liu,Xiangjia Zhu,Jiangyue Zhao,Haotian Lin,Ying Han,2022-11-09 Using Mixed Methods Research Synthesis for Literature Reviews Mieke Heyvaert,Karin Hannes,Patrick Onghena,2016-02-29 Using Mixed Methods Research Synthesis for Literature Reviews by Mieke Heyvaert Karin Hannes and Patrick Onghena is a practical guide that provides step by step instruction for conducting a mixed methods research synthesis MMRS that integrates both qualitative and quantitative evidence The book progresses through a systematic comprehensive approach to conducting an MMRS literature review to analyze and summarize the empirical evidence regarding a particular review question Readers will benefit from discussion of the potential advantages of MMRS and guidance on how to avoid its potential pitfalls Using Mixed Methods Research Synthesis for Literature Reviews is Volume 4 in the SAGE Mixed Methods Research Series Challenges to the Global Issue of End of Life Care Pierre Mallia,Nathan Emmerich,Bert

Gordijn,Francesca Pistoia,2022-02-10 This book addresses the problems faced by people and hospitals dedicated to providing optimal end of life care and asks whether ethicists can function as experts on this subject Though ethics consultation is a growing practice in medical contexts difficult questions surrounding the role of ethicists in professional decision making remain The chapters in this book examine the nature and plausibility of moral expertise the relationship between character and expertise the nature and limits of moral authority the question of how one might become a moral expert and the trustworthiness of moral testimony This volume not only engages with the growing literature in the debate on end of life care but also offers new perspectives from both academics and practitioners Such perspectives include ways on how to get together to optimize end of life care This book is of particular interest to bioethicists clinicians ethics committees students of social epistemology patient groups and institutions especially religious who may not be sufficiently imparting the social teachings of end of life care It also shows how they are indeed stakeholders for what is today called a good death These new

essays advance discussions and provide practical information on dying as well as acting as a guide to those interested in actively effecting change Models, Measurement, and Metrology Extending the SI William P. Fisher, Jr., Leslie Pendrill, 2024-09-23 The book focuses on the extension of quality assured measurement and metrology into psychological and social domains This is not only feasible and achievable but also a pressing concern Significant progress in developing a common conceptual system for measurement across the sciences has been made in recent collaborations between metrologists and psychometricians as reported in the chapters of this book Modeling estimation and interpretation of objectively reproducible unit quantities that support both general comparability and adaptation to unique local circumstances are demonstrated in fields as diverse as artificial intelligence justice and beauty perception

Immerse yourself in the artistry of words with Experience Art with is expressive creation, Immerse Yourself in **Measurement Tools In Clinical Ethics** . This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
