The Outlier Kai Bird, 2022-06-14 Important a landmark presidential biography Bird is able to build a persuasive case that the Carter presidency deserves this new look The New York Times Book Review An essential re evaluation of the complex triumphs and tragedies of Jimmy Carter's presidential legacy from the expert biographer and Pulitzer Prize winning co author of *American Prometheus* Four decades after Ronald Reagan's landslide win in 1980 Jimmy Carter's one term presidency is often labeled a failure indeed many Americans view Carter as the only ex president to have used the White House as a stepping stone to greater achievements But in retrospect the Carter political odyssey is a rich and human story marked by both formidable accomplishments and painful political adversity In this deeply researched brilliantly written account Pulitzer Prize winning biographer Kai Bird deftly unfolds the Carter saga as a tragic tipping point in American history As president Carter was not merely an outsider he was an outlier He was the only president in a century to grow up in the heart of the Deep South and his born again Christianity made him the most openly religious president in memory This outlier brought to the White House a rare mix of humility candor and unnerving self confidence that neither Washington nor America was ready to embrace Decades before today's public reckoning with the vast gulf between America's ethos and its actions Carter looked out on a nation torn by race and demoralized by Watergate and Vietnam and prescribed a radical self examination from which voters recoiled The cost of his unshakable belief in doing the right thing would be losing his re election bid and witnessing the ascendance of Reagan In these remarkable pages Bird traces the arc of Carter's administration from his aggressive domestic agenda to his controversial foreign policy record taking readers inside the Oval Office and through Carter's battles with both a political establishment and a Washington press corps that proved as adversarial as any foreign power Bird shows how issues still hotly debated today from national health care to growing inequality and racism to the Israeli Palestinian conflict burned at the heart of Carter's America and consumed a president who found a moral duty in solving them Drawing on interviews with Carter and members of his administration and recently declassified documents Bird delivers a profound clear eyed evaluation of a leader whose legacy has been deeply misunderstood *The Outlier* is the definitive account of an enigmatic presidency both as it really happened

about growing unrest under the Shah in mid 1970s Iran Have historians of American Iranian relations focused too narrowly on prevailing historical theory and personal recollection In a period of escalating tension between the United States and Iran what can the two nations history of conflict tell us about their diplomatic future Covering Carter s policy from the end of the Shah s reign to the revolution under Ayatollah Khomeini Babak Ganji explores the nature of their perpetually antagonistic relations and the mistrust and misunderstanding that fuels it Politics of Confrontation is a penetrating critique of international relations theory within the historical framework of US Iranian relations as well as a thorough examination of American policy towards Iran It is the first in depth look at documents seized by revolutionary students from the American Embassy during the infamous hostage crisis and debunks the myth that US officials were unaware of the nature of opposition to the Shah or of Soviet influence on senior clerics These findings are an essential addition to the discourse of foreign policy theorists and invaluable for historians of the US Iran and the Cold War

Demonic Ann Coulter, 2012-08-07 The demon is a mob and the mob is demonic The Democratic Party activates mobs depends on mobs coddles mobs publicizes and celebrates mobs it is the mob Sweeping in its scope and relentless in its argument Demonic explains the peculiarities of liberals as standard groupthink behavior To understand mobs is to understand liberals In her most provocative book to date Ann Coulter argues that liberals exhibit all the psychological characteristics of a mob for instance Liberal Groupthink The same mob mentality that leads otherwise law abiding people to hurl rocks at cops also leads otherwise intelligent people to refuse to believe anything they haven t heard on NPR Liberal Schemes No matter how mad the plan is Fraternit the New Soviet Man the Master Race the Great Leap Forward the Cultural Revolution Building a New Society ObamaCare a mob will believe it Liberal Enemies Instead of counterrevolutionaries liberals opponents are called haters those who seek to divide us tea baggers and right wing hate groups Meanwhile conservatives call liberals liberals and that makes them testy Liberal Justice In the world of the liberal as in the world of Robespierre there are no crimes only criminals Liberal Violence If Charles Manson s followers hadn t killed Roman Polanski s wife Sharon Tate Clinton would have pardoned him too and he d probably be teaching at Northwestern University Citing the father of mob psychology Gustave Le Bon Coulter catalogs the Left s mob behaviors the creation of messiahs the fear of scientific innovation the mythmaking the preference for images over words the lack of morals and the casual embrace of contradictory ideas Coulter traces the history of the liberal mob to the French Revolution and Robespierre s revolutionaries delineating a clear distinction from America s founding fathers who simply proclaimed that they were exercising the general will before slaughtering their fellow citizens for the good of mankind Similarly as Coulter demonstrates liberal mobs from student radicals to white trash racists to anti war and pro ObamaCare fanatics today have consistently used violence to implement their idea of the general will This is not the American tradition it is the tradition of Stalin of Hitler of the guillotine and the tradition of the American Left As the heirs of the French Revolution Democrats have a history that consists of pandering to mobs time and again while Republicans heirs to the American

Revolution have regularly stood for peaceable order Hoping to muddy this horrifying truth liberals slanderously accuse conservatives of their own crimes assassination plots conspiracy theorizing political violence embrace of the Ku Klux Klan Coulter shows that the truth is the opposite Political violence mob violence is always a Democratic affair Surveying two centuries of mob movements Coulter demonstrates that the mob is always destructive And yet she argues beginning with the civil rights movement in the sixties Americans have lost their natural inherited aversion to mobs Indeed most Americans have no idea what they are even dealing with Only by recognizing the mobs and their demonic nature can America begin to defend itself

Endless Holocausts David Michael Smith,2023 The U S Empire has relied upon an almost unimaginable loss of life from its inception during the European colonial period to the present And yet in the face of a series of endless holocausts at home and abroad the doctrine of American exceptionalism has plagued the globe for over a century In *Endless Holocausts* author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death far from being unfortunate exceptions to an otherwise benign historical record have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world At the same time Smith points to an extraordinary history of resistance by Indigenous peoples people of African descent people in other nations brutalized by U S imperialism workers and democratic minded people around the world determined to fight for common dignity and the sake of the greater good
