Posthistoire Has History Come To An End:

Posthistoire Lutz Niethammer, Dirk van Laak, 1994-05-17 Whether its ultimate resting place is deemed to be Fukuyama's liberal democracy or Baudrillard's hyperreality history according to a number of pundits has reached the end of the line. In the inflated debates that have ensued it is precisely history which has been ignored for the conception of posthistoire is far from new. Here Lutz Niethammer, Germany's leading practitioner of history from below, explores in fascinating detail the forms the conception has taken in the twentieth century and assembles what amounts to an intellectual history of disillusion and resignation. In his survey of thinkers as diverse as Kojève, Heidegger and Junger, he finds adherents to the idea of the end of history on the Right and Left. But whether they pinned all their hopes on the nation or the proletariat in different ways, they have all conflated the apparent collapse of a particular historical project with the collapse of history itself. Power and Time Dan Edelstein, Stefanos Geroulanos, Natasha Wheatley, 2021-01-01 Time is the backdrop of historical inquiry yet it is much more than a featureless setting for events. Different temporalities interact dynamically: sometimes they coexist tensely, sometimes they clash violently. In this innovative volume, editors Dan Edelstein, Stefanos Geroulanos, and Natasha Wheatley challenge how we interpret history by focusing on the nexus of two concepts: power and time as they manifest in a wide variety of case studies. Analyzing history, culture, politics, technology, law, art, and science, this engaging book shows how power is constituted through the shaping of temporal regimes in historically specific ways. *Power and Time* includes seventeen essays on human rights, sovereignty, Islamic, European, Chinese, and Indian history, slavery, capitalism, revolution, the Supreme Court, the Anthropocene, and even the Manson Family. *Power and Time* will be an agenda-setting volume highlighting the work of some of the world's most respected and original contemporary historians and posing fundamental questions for the craft of history. *Walter Benjamin: Modernity* Peter Osborne, 2005 No other single author has so commanding a critical presence across so many disciplines within the arts and humanities in so many national contexts as Walter Benjamin (1892-1940). The belated reception of his work as a literary critic, dating from the late 1950s, has been followed by a rapid series of critical receptions in different contexts: Frankfurt Critical Theory and Marxism, Judaism, Film Theory, Post-structuralism, Philosophical Romanticism, and Cultural Studies. This collection brings together a selection of the most critically important items in the literature across the full range of Benjamin's cultural-theoretical interests from all periods of the reception of his writings but focusing upon the most recent to produce a comprehensive overview of the best critical literature.

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama. Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz, whose theoretical contributions have informed historical debate. Additionally, the *Encyclopedia* includes

some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *History of Education: Debates in the history of education* Roy Lowe, 2000 This major work brings together some of the most significant and influential writing on the history of education during the past thirty years It illustrates key themes and their relevance for our understanding of the development of schooling Democracy, Capitalism, and the Welfare State Peter C. Caldwell, 2019-03-13 Democracy Capitalism and the Welfare State investigates political thought under the conditions of the postwar welfare state focusing on the Federal Republic of Germany 1949 1989 The volume argues that the welfare state informed and altered basic questions of democracy and its relationship to capitalism These questions were especially important for West Germany given its recent experience with the collapse of capitalism the disintegration of democracy and National Socialist dictatorship after 1930 Three central issues emerged First the development of a nearly all embracing set of social services and payments recast the problem of how social groups and interests related to the state as state agencies and affected groups generated their own clientele their own advocacy groups and their own expert information Second the welfare state blurred the line between state and society that is constitutive of basic rights and the classic world of liberal freedom rights became claims on the state and social groups became integral parts of state administration Third the welfare state potentially reshaped the individual citizen who became wrapped up with mandatory social insurance systems provisioning of money and services related to social needs and the regulation of everyday life Peter C Caldwell describes how West German experts sought to make sense of this vast array of state programs expenditures and bureaucracies aimed at solving social problems Coming from backgrounds in politics economics law social policy sociology and philosophy they sought to conceptualize their state which was now social one German word for the welfare state is indeed Sozialstaat and their society which was permeated by state policies **The Descent of Ideas** Donald R. Kelley, 2017-09-29 The history of ideas better known these days as intellectual history is a flourishing field of study which has been the object of much controversy but hardly any historical exploration This major new work from Donald R Kelley is the first comprehensive history of intellectual history tracing the study of the history of thought from ancient medieval and early modern times its emergence as the history of ideas in the 18th century and its subsequent expansion The point of departure for this study is the perspective opened up by Victor Cousin in the early 19th century on Eclecticism and its association with the history of philosophy established by Renaissance scholars Kelley considers a broad range of topics including the rivalry between ideas and language the rise of cultural history the contributions of certain 19th and 20th century practitioners of the history of ideas in interdisciplinary areas of philosophy literature and the sciences and finally the current state of intellectual history The central theme of the book is the interplay between the canon of philosophical thought and the tradition of language and textual study the divergence of the latter

Gregory, 2016-02-03 Relocating Popular Music uses the lens of colonialism and tourism to analyse types of music movements such as transporting music from one place or historical period to another hybridising it with a different style and furnishing it with new meaning It discusses music in relation to music video film graphic arts fashion and architecture **Giving a voice to the Oppressed?** Agnès Arp, Annette Leo, Franka Maubach, 2019-12-16 Due to its internationality and interdisciplinarity the International Oral History Association IOHA which was founded in the late 1970 s is one of a kind in the academic landscape Driven by the desire to democratize historical scholarship its members wanted to give a voice to groups such as women workers migrants or victims of political dictatorships who had not been heard up to that point The contributions deal with the academic approaches and the political convictions of the previous generation **The World Hitler Never Made** Gavriel D. Rosenfeld, 2005-05-23 A fascinating 2005 study of the place of alternate histories of Nazism within Western popular culture *The Politics of Time* Peter Osborne, 2020-05-05 If Aristotle sought to understand time through change might we not reverse the procedure and seek to understand change through time Once we do this argues Peter Osborne it soon becomes clear that ideas such as avant garde modern postmodern and tradition which are usually only treated as markets for empirically discrete periods movements or styles are best understood as categories of historical totalization More specifically Osborne claims such ideas involve distinct temporalizations of history giving rise to conflicting politics of time His book begins with a consideration of the main aspects of modernity and develops through a series of critical engagements with the major twentieth century positions in the philosophy of history He concludes with a fascinating history of the avant garde intervention into the temporality of everyday life in surrealism the situationists and the work of Henri Lefebvre **Workers and Canadian History** Gregory S. Kealey, 1995 This collection of twelve essays by Gregory Kealey will be of great interest to students and scholars of Canadian history labour history Marxist and socialist theory and history and political science

Cultures of Darkness Bryan D. Palmer, 2019-02-15 Peasants religious heretics witches pirates runaway slaves prostitutes and pornographers frequenters of taverns and fraternal society lodge rooms revolutionaries blues and jazz musicians beats and contemporary youth gangs those who defied authority choosing to live outside the defining cultural dominions of early insurgent and later dominant capitalism are what Bryan D Palmer calls people of the night These lives of opposition or otherness were seen by the powerful as deviant rejecting authority and consequently threatening to the established order Constructing a rich historical tapestry of example and experience spanning eight centuries Palmer details lives of exclusion and challenge as the night travels of the transgressors clash repeatedly with the powerful conventions of their times Nights of liberation and exhilarating desire sexual and social are at the heart of this study But so too are the dangers of darkness as marginality is coerced into corners of pressured confinement or the night is used as a cover for brutalizing terror as was the case in Nazi Germany or the lynching of African Americans Making extensive use of the interdisciplinary literature of

marginality found in scholarly work in history sociology cultural studies literature anthropology and politics Palmer takes an unflinching look at the rise and transformation of capitalism as it was lived by the dispossessed and those stamped with the mark of otherness

Critical Ethics Dominic Rainsford, Tim Woods, 2016-07-27 The current resurgence of ethics in the beleaguered humanities reflects an increasing anxiety about the value and utility of critical philosophical debate in the wake of poststructuralism This book addresses this return to ethics in relation to a wide variety of theories and texts It covers substantial areas of ethical debate particularly in relation to queer politics biography history postmodernism atrocity literature utilitarianism pedagogy and the philosophy of science Theorists discussed in the volume include Rorty Heidegger Levinas Mill Lyotard Leavis Kuhn Davidson Nussbaum and Freud
