Presumptive Income Taxation:

Presumptive Income Taxation Mr.Vito Tanzi,Ms.Milka Casanegra de Jantscher,1987-08-01 This paper discusses assessment of income on the basis of approximate indicators as opposed to conventional records Such a method of assessment known as presumptive income taxation is widely used in many developing and industrial countries however it has been neglected in public finance literature In most cases the presumptive approach has been followed for administrative reasons but this paper argues that more attention should be paid to the efficiency implications of presumptive taxes

Income Taxation in Nepal Rup Bahadur Khadka,2001 The major changes introduced in the Nepalese income tax system since its inception in 1959 are reviewed and its existing structure and operation are examined The current problems are analysed and recommendations for the rationalization and modernization of the income tax system are made

Presumptive Taxation Mr.S. Nuri Erbas,1993-08-01 Presumptive taxation has been adopted in many countries to tax hard to tax activities and reduce evasion Further in view of the possible efficiency gains from such techniques a case can be made for adopting presumptive taxation of global income This paper addresses two questions First could revenue be increased by adopting presumptive tax methods Second would presumptive income taxation contribute to macroeconomic instability because it lacks the automatic stabilizer property of standard progressive income taxation Two simple models suggest that there is scope for increasing revenue under presumptive taxation without necessarily undermining economic stability The relevance of the first model for presumptive excise taxation in Pakistan is also examined The Encyclopedia of Taxation & Tax Policy Joseph J. Cordes,Robert D. Ebel,Jane Gravelle,2005 From adjusted gross income to zoning and property taxes the second edition of The Encyclopedia of Taxation and Tax Policy offers the best and most complete guide to taxes and tax related issues More than 150 tax practitioners and administrators policymakers and academics have contributed The result is a unique and authoritative reference that examines virtually all tax instruments used by governments individual income corporate income sales and value added property estate and gift franchise poll and many variants of these taxes as well as characteristics of a good tax system budgetary issues and many current federal state local and international tax policy issues The new edition has been completely revised with 40 new topics and 200 articles reflecting six years of legislative changes Each essay provides the generalist with a quick and reliable introduction to many topics but also gives tax specialists the benefit of other experts best thinking in a manner that makes the complex understandable Reference lists point the reader to additional sources of information for each topic The first edition of The Encyclopedia of Taxation and Tax Policy was selected as an Outstanding Academic Book of the Year 1999 by Choice magazine Publisher s website **Income Tax I.** ,1914

Committee on Taxation,1916 **Shareholder Value and the Common Good** David Lutz,Paul Mimbi,2005 What is the objective or purpose of business Management According to the dominant theory of contemporary financial management scholarship agency theory business managers are obligated to maximise owner or shareholder value

According to most theories of business ethics however some owner value maximising actions should not be performed because they would be unethical. Because business management scholars and business ethics scholars have not resolved this contradiction students of commerce receive a contradictory education. The twenty five essays in this interdisciplinary international volume address the question of the objective or purpose of business management from a wide range of theoretical perspectives. Since some of the writers contradict one another it is not possible that all of them are correct. Nevertheless the fact that many of them argue persuasively that business managers should aspire to more than maximisation of a financial variable challenges everyone with a theoretical or practical interest in commerce to reconsider acceptance of the owner value paradigm and to develop a richer conception of the profession of business management.

Tax Policy in Sub-Saharan Africa Zmarak Shalizi, Lyn Squire, 1988 Trade is an essential driver for sustained economic growth and growth is necessary for poverty reduction. In Sub Saharan Africa where three fourths of the poor live in rural areas spurring growth and generating income and employment opportunities is critical for poverty reduction strategies. Seventy percent of the population lives in rural areas where livelihoods are largely dependent on the production and export of raw agricultural commodities such as coffee, cocoa and cotton whose prices in real terms have been steadily declining over the past decades. The deterioration in the terms of trade resulted for Africa in a steady contraction of its share in global trade over the past 50 years. Diversification of agriculture into higher value non traditional exports is seen today as a priority for most of these countries. Some African countries in particular Kenya, South Africa, Uganda, Cote d'Ivoire, Senegal and Zimbabwe have managed to diversify their agricultural sector into non traditional high value added products such as cut flowers and plants, fresh and processed fruits and vegetables. To learn from these experiences and better assist other African countries in designing and implementing effective agricultural growth and diversification strategies the World Bank has launched a comprehensive set of studies under the broad theme of Agricultural Trade Facilitation and Non Traditional Agricultural Export Development in Sub Saharan Africa. This study provides an in depth analysis of the current structure and dynamics of the European import market for flowers and fresh horticulture products. It aims to help client countries, industry stakeholders and development partners to get a better understanding of these markets and to assess the prospects and opportunities they offer for Sub Saharan African exporters.
