Queer Science The Use Abuse Of Research On Homosexuality:

Queer Science Simon LeVay, 1996-05-14 What makes people gay lesbian bisexual or heterosexual And who cares Written by one of the leading scientists in the research of sexual orientation Queer Science looks at how scientific discoveries about homosexuality influence society's attitude toward gays and lesbians beginning with the theories of the German sexologist and gay rights pioneer Magnus Hirschfeld and culminating with the latest discoveries in brain science genetics endocrinology and cognitive psychology

Queer Science Former Associate Professor Simon LeVay, Ph.D., 2014-05-13 What makes people gay lesbian bisexual or heterosexual And who cares These are the twin themes of Queer Science a scientific and social analysis of research in the field of sexual orientation Written by one of the leading scientists involved in this research it looks at how scientific discoveries about homosexuality influence society's attitude toward gays and lesbians beginning with the theories of the German sexologist and gay rights pioneer Magnus Hirschfeld and culminating with the latest discoveries in brain science genetics and endocrinology and cognitive psychology Research into homosexuality exemplifies both the promise and the danger of science applied to human nature LeVay argues that the question of causation should not be the crucial issue in the gay rights debate but that science does have an important contribution to make It can help to demonstrate that the traditional and still prevalent view of homosexuality as a mere set of behaviors that anyone might show is inadequate and that gays and lesbians are in a real sense a distinct group of people within the larger society with a privileged insight into their own natures

American Homo Jeffrey Escoffier, 2018-10-02 American Homo offers a sweeping interpretation of the political cultural and economic struggles of lesbian gay and bisexual people to reveal how sexual minorities have challenged and changed American society These provocative essays by long time activist writer and theorist Jeffrey Escoffier tracks the lesbian and gay movements across the contested terrain of American political life Starting from an urban subculture created by stigmatized and invisible men and women LGBT movements have had to negotiate the historical tension between the homoeroticism that courses through American culture and virulent outbreaks of homophobic populism Escoffier explores how every new success whether it's civil rights marriage or cultural recognition also enables new disciplinary and normalizing forms of domination and why only the active exercise of democratic rights and participation in radical coalitions allows LGBT people to sustain both the benefits of community and the freedom of sexual perversity

Historical Dictionary of the Lesbian and Gay Liberation Movements JoAnne Myers, 2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when it comes to information by reminding us of the past and

what has been going and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality **Handbook of Lesbian and Gay Studies** Diane Richardson, Steven

Queering Criminology Matthew Ball, Thomas Crofts, Angela Dwyer, 2016-01-26 Queer criminological work is at the forefront of critical academic criminology responding to the exclusion of queer communities from criminology and the injustices that they experience through the criminal justice system This volume draws together both theoretical and empirical contributions that develop the growing scholarship being produced at the intersection of queer and criminology Reflecting the diversity of research that is undertaken at this intersection the contributions to this volume offer a deeper theoretical and conceptual development of this field alongside empirical research that illustrates the continued relevance and urgency of such scholarship The contributions consider what it means to be queering criminology in the current political social and criminological climate and chart directions along which this field might develop in order to ensure that greater social and criminal justice for LGBTIQ communities is achieved *Peter Akinola: Who Blinks First?* Gbenga

Gbesan, 2020-03-30 To the astonishment and dismay of Anglican leadership in the Global North Nigeria's Archbishop Peter Akinola led the Global South's revolt against the campaign to normalize homosexuality within the global Anglican communion For this he was twice recognized by Time magazine as one of the 100 Most Influential People on earth As shepherd of an immense Nigerian flock he joined arms with like minded archbishops in Africa Asia and South America to insist that the church be guided by the Bible rather than culture Here is the remarkable story of this conflict from its social beginnings in nineteenth century Germany through the renegade behavior of national churches in Canada the United States and the United Kingdom on to gatherings addressing the issues from Dromantine Northern Ireland to Kuala Lumpur Malaysia At one point Archbishop of Canterbury Rowan Williams who had been enabling the progressives challenged Archbishop Akinola We shall see who blinks first Since that day it is clear that neither Akinola nor his colleagues have blinked Indeed through the formation of GAFCON Global Anglican Future Conference and union with biblically faithful Anglicans in the Global North they are pressing their cause with an eye toward the next decennial assembly of bishops at Lambeth **101 Frequently Asked Questions About Homosexuality** Mike Haley, 2004-06-01 101 Probing Questions 101 Compassionate and Scriptural Answers from Focus on the Family's Mike Haley Almost daily we hear news reports that confirm the acceptance of

homosexuality in our culture Homosexuals are adopting children appearing as characters on television programs taking vacations catering to an exclusively gay clientele and even seeking the right to marry their partners But is this acceptance healthy for society Few topics can raise so many questions so quickly And for many readers those questions hit close to home as they learn of the homosexuality of a loved one or close friend Here are the answers to the most often asked questions about homosexuality fielded by an expert on the subject and a former homosexual himself *Transtopia in the Sinophone Pacific* Howard Chiang,2021-04-06 As a broad category of identity transgender has given life to a vibrant field of academic research since the 1990s Yet the Western origins of the field have tended to limit its cross cultural scope Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance Defined as the antidote to transphobia transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum Against the backdrop of the Sinophone Pacific Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame At the same time he challenges China centrism in the study of East Asian gender and sexual configurations Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another Grounded in an eclectic range of sources from the archives of sexology to press reports of intersexuality films about castration and records of social activism this book reorients anti transphobic inquiry at the crossroads of area studies medical humanities and queer theory Timely and provocative *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity *Bodies and Pleasures* Ladelle McWhorter,1999-07-22 Sexual identities are dangerous Michel Foucault tells us Here Ladelle McWhorter reads Foucault from an original and personal angle and takes the reader beyond unexplored norms and imposed identities as she points the way toward a personal politics ethics and style that challenge our sexual selves Copyright Libri GmbH All rights reserved
