Quest For Life In Amber:

The Quest For Life In Amber George Poinar, Roberta Poinar, 1994-09-11 In passages that read more like an Indiana Jones screenplay than scientific research the Poinars describe how their hobby turned obsession ultimately led to a breakthrough scientific finding the discovery of preserved insect DNA in amber Photos **Ancient DNA** Elizabeth D. Jones, 2022-01-01 The untold story of the rise of the new scientific field of ancient DNA research and how Jurassic Park and popular media influenced its development Fun and thought provoking Jones builds a wry often wise study of science as a very human endeavor She makes a powerful case that ancient DNA research feeds off media attention as much as the media feeds off it Victoria L Herridge Nature Ancient DNA research the recovery of genetic material from long dead organisms is a discipline that developed from science fiction into a reality between the 1980s and today Drawing on scientific historical and archival material as well as original interviews with more than fifty researchers worldwide Elizabeth Jones explores the field s formation and explains its relationship with the media by examining its close connection to de extinction the science and technology of resurrecting extinct species She reveals how the search for DNA from fossils flourished under the influence of intense press and public interest particularly as this new line of research coincided with the book and movie Jurassic Park Ancient DNA is the first account to trace the historical and sociological interplay between science and celebrity in the rise of this new research field In the process Jones argues that ancient DNA research is more than a public facing science it is a celebrity science *Geology Lab for Kids* Garret Romaine, 2017-07 Geology Lab for Kids is a family friendly guide to the wonders of geology like crystals and fossils the layers of the earth s crust and the eruption of geysers and volcanoes *A World of Insects* Ring T.
