Questions You Should Ask About Charter Schools And Vouchers:

Questions You Should Ask about Charter Schools and Vouchers Seymour Bernard Sarason, 2002 Practicing educators are surprisingly ill informed about the practical problems charter schools and voucher policies face in implementation Nor have they been schooled to ask the many questions these policies raise As a consequence important questions are not being asked Unless charter school and voucher policies undergo close scrutiny and the issues become clear we will have no basis for judging the validity of outcomes and their explanations That is an old story in the history of reform Seymour Sarason a luminary in the field of public education and long considered the voice of reason is no opponent of charter schools and vouchers But his long and vast experience forces him to predict that we will end up unable to explain why one charter school succeeds while another fails and that we will have no secure basis for learning from success or failure Creating and sustaining a charter school is a complex and demanding task but that issue has been scandalously ignored as if it were a narrow engineering process for which good intentions are all that matters And vouchers may introduce more problems than they solve including under funded schools inexperienced teachers and a lack of long term planning Sarason is no dyspeptic critic either He speaks not from an armchair but from his personal experience in creating new settings and studying what others have attempted His book addresses the issues of the predictable problems of creating a new setting for educating our nation's children

The Skeptical Visionary Seymour Bernard Sarason, 2003 Seymour Sarason in the words of Carl Glickman is one of America's seminal thinkers about public education For over four decades his has been a voice of much needed skepticism about our plans for school reform teacher training and educational psychology Now for the first time Sarason's essential writings on these and other issues are collected together offering student and researcher alike with the range depth and originality of Sarason's contributions to American thinking on schooling As we go from debate to debate on issues such as school choice charter schools inclusive education national standards and other problems that seem to drag on without solution Sarason's critical stance on the folly of many of our attempts to fix schools has always had at the center a concern for the main players in our educational institutions the students the teachers and the parents Any plans that cannot account for their well being are doomed to failure And in the face of such failure the clarity of Sarason's vision for real educational success is a much needed antidote to much of the rhetoric that currently passes for substantial debate A wide ranging and comprehensive selection of Sarason's most significant writings *The Skeptical Visionary* should find a prized space on any student's or teacher's bookshelf

Author note Robert Friedis Associate Professor in the School of Education at Northeastern University and is the author of *The Passionate Teacher A Practical Guide* and *The Passionate Learner How Teachers and Parents Can Help Children Reclaim the Joy of Discovery* Seymour Sarason is Professor Emeritus in the Department of Psychology at Yale University He is the author of over forty books and is considered to be one of the most significant researchers in education and educational psychology in the country

Education at a Crossroads United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Oversight and Investigations,1997 **School Choice and the Question of Accountability** Emily Van Dunk,Anneliese M. Dickman,2008-10-01 This timely book refocuses the debate about school choice programs with a nonpartisan assessment of the nation s largest and longest running private school voucher program the high profile Milwaukee experiment and finds that the system undercuts the promise of school choice The authors argue that the Milwaukee experiment has not resulted in

the one element necessary for school choice to be effective an accountability system in which good schools thrive and poor schools close They show that most ingredients of a robust market are missing Well informed consumers parents are not the norm State fiscal incentives are counterproductive and competition among public and choice schools is difficult to discern They conclude that school choice could succeed if certain conditions were met and they offer guidelines to strengthen accountability and repair the voucher system
